UniCredit Bank AG announces the following changes with regard to the Prospectus:

1. In the table under section "**General Information – Documents incorporated by reference**" the information "**Rating**" of HVB, the parent company of HVB Group shall be deleted.
2. In the section "**Description of the Issuer**" the current information "**Rating**" shall be deleted.
3. The following new paragraph is inserted in the section "**Description of the Issuer**":

"Ratings

Securities currently issued by HVB have been rated as follows by Fitch Ratings Ltd. ("Fitch"), Moody's Investors Service Ltd. ("Moody's") and Standard & Poor's Ratings Services ("S&P"):

	Long-term Senior Notes	Subordinated Notes	Short-term Notes	Outlook	Public Sector Pfandbriefe	Mortgage Pfandbriefe
Moody's	A3	Baa3	P-2	negative	Aaa	Aa1
S&P	A	BBB+	A-1	negative	AAA	-
Fitch	A+	A	F1+	stable	AAA	AAA

The Instruments to be offered may be rated or unrated. Where an issue of Instruments is rated, its rating may not be the same as the rating as set out above and such rating may be disclosed in the relevant Final Terms.

A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

Fitch's long-term credit ratings are set up along a scale from AAA, AA, A, BBB, BB, B, CCC, CC, C down to D. Fitch uses the intermediate modifiers "+" and "-" for each category between AA and CCC to show the relative standing within the relevant rating categories. Fitch's short-term ratings indicate the potential level of default within a 12-month period at the levels F1+, F1, F2, F3, F4, B, C and D.

Moody's appends long-term obligation ratings at the following levels: Aaa, Aa, A, Baa, Ba, B, Caa, Ca and C. To each generic rating category from Aa to Caa Moody's assigns the numerical modifiers "1", "2" and "3". The modifier "1" indicates that the bank is in the higher end of its letter-rating category, the modifier "2" indicates a mid-range ranking and the modifier "3" indicates that the bank is in the lower end of its letter-rating category. Moody's short-term ratings are opinions of the ability of issuers to honor short-term financial obligations and range from P-1, P-2, P-3 down to NP.

S&P assign long-term credit ratings on a scale from AAA to D. The ratings from AA to CCC may be modified by the addition of a "+" or "-" to show the relative standing within the major rating categories. S&P may also offer guidance (termed a "credit watch") as to whether a rating is likely to be upgraded (positive), downgraded (negative) or uncertain (neutral). S&P assigns short-term credit ratings for specific issues on a scale from A-1, A-2, A-3, B, C down to D. Within the A-1 category the rating can be designated with a "+".

HVB confirms that the information contained in this section "Ratings" has been accurately reproduced and that as far as HVB is aware and is able to ascertain from information published by Fitch, Moody's and S&P, respectively, no facts have been omitted which would render the reproduced information inaccurate or misleading.

Fitch and Moody's are established in the European Union and have been registered under Regulation (EC) No. 1060/2009 (as amended from time to time) (the "CRA Regulation"). S&P is not established in the European Union but a European Union affiliate has been registered under the CRA Regulation.

In accordance with the CRA Regulation, a list of registered credit rating agencies under the CRA Regulation is published by the European Securities and Markets Authority (ESMA) on its website."
