**SUMMARY**

Summaries are made up of disclosure requirements known as "Elements". These Elements are numbered in sections A – E (A.1 – E.7).

This Summary contains all the Elements required to be included in a summary for this type of securities and issuer. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements.

Even though an Element may be required to be inserted in the Summary because of the type of securities and issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the Summary with the specification of 'Not applicable'.

**A. INTRODUCTION AND WARNINGS**

A.1	Warning	<p>This Summary should be read as an introduction to the Base Prospectus. The investor should base any decision to invest in the relevant Securities on consideration of the Base Prospectus as a whole.</p> <p>Where a claim relating to the information contained in this Base Prospectus is brought before a court, the plaintiff investor might, under the national legislation of the Member States, have to bear the costs of translating the Base Prospectus before the legal proceedings are initiated.</p> <p>UniCredit Bank AG ("<b>UniCredit Bank</b>", the "<b>Issuer</b>" or "<b>HVB</b>"), Arabellastraße 12, 81925 Munich, which in its capacity as Issuer assumes liability for the Summary including any translation thereof, as well as any person which has tabled it, may be held liable, but only if the Summary is misleading, inaccurate or inconsistent when read together with the other parts of the Base Prospectus, or it does not provide, when read together with the other parts of the Base Prospectus, all necessary key information.</p>
A.2	Consent to the use of the base prospectus	<p>[Subject to the following paragraphs, the Issuer gives its [general] [individual] consent to the use of the Base Prospectus for subsequent resale or final placement of the Securities by financial intermediaries.]</p> <p>[Not applicable. ## RISK FACTORS

*The following is a disclosure of Risk Factors that, in the opinion of UniCredit Bank AG as issuer (the "Issuer"), are material with respect to the Issuer and to the securities issued under this base prospectus (the "Base Prospectus") (the "Securities") in order to assess the risk associated with these Securities. Moreover, further risks that are currently unknown or currently believed to be not material may also have a negative impact on the value of the Securities. Potential investors should be aware that the Securities may decline in value and that the sum of amounts distributed under the Securities may be below the value that the respective Security Holder spent for the purchase of the Securities (including any Incidental Costs) (the "Purchase Price"). As a result, the respective Security Holder may sustain a **partial loss** (e.g. in the case of an unfavourable performance of the Underlying or its Components) or **total loss** (e.g. in the case of a substantially unfavourable performance of the Underlying or of an insolvency of the Issuer) of his investment.*

*The Base Prospectus, including these risk factors, and relevant final terms of the Securities (the "Final Terms") do not replace a professional consultation with a potential investor's house bank or financial adviser. However, potential investors should carefully consider these Risk Factors before making a decision to purchase any Securities in any case.*

*Potential investors should consider all information provided in (a) this Base Prospectus and in any supplements thereto, (b) the registration document of UniCredit Bank AG dated 17 April 2018 (the "Registration Document"), the information of which is incorporated herein by reference at different parts of the Prospectus, (c) all documents the information of which is incorporated in the Base Prospectus by reference, and (d) the relevant Final Terms. An investment in the Securities is only suitable for investors, who understand the nature of such Securities and the extent of the incorporated risk and who have sufficient knowledge, experience and access to professional advisors (including their financial, legal and tax advisors) in order to form their own legal, tax and financial opinion upon the existing risks in relation to the Securities. Furthermore, potential investors should be aware that the risks described below may arise separately or cumulatively in combination with other risks and may possibly have mutually reinforcing effects. The order of the risks described below does not imply any statement about the likelihood of occurrence of each risk or the degree of influence of such risk factor on the value of the Securities.*

*"Security Holder" means the holder of a Security.*

***In the opinion of the Issuer, the significant risks described below may adversely affect the value of the Securities and/or the amounts to be distributed under the Securities and/or the ability of Security Holders to sell the Securities at a reasonable price prior to the Final Payment Date of the Securities:***

### **A. Risks related to the Issuer**

The risk factors related to the Issuer included in the Registration Document of UniCredit Bank AG dated 17 April 2018 are hereby incorporated by reference into this Base Prospectus. A list setting out the information incorporated by reference is provided on page 257 et seq.

Potential investors should consider the information within the section entitled "Risk Factors" of the Registration Document. This section contains information on risks which may affect the assets, liabilities and the financial position of the Issuer and its ability to fulfil its obligations arising from the Securities.

## **B. Risks related to potential conflicts of interest**

The Issuer, a financial institution or a financial intermediary with whom the Issuer has entered into a distribution agreement (the "**Distributor**") or any of their affiliates may, in connection with the below mentioned functions or transactions, as the case may be, pursue interests, which may be adverse to the interests of the Security Holders or do not take them into account (the "**Conflicts of Interest**").

### ***1. General potential conflicts of interest***

#### *Potential conflicts of interest related to the Issue Price*

The Securities will be offered at a price determined by the Issuer (the "**Issue Price**"). The Issue Price is based on internal pricing models of the Issuer and may be higher than the market value of the Securities. The Issue Price may contain, beside upfront, management or other fees, an additional premium that may not be obvious to the Security Holders. Such an additional premium depends on several factors, particularly on the volume of the Securities of each series as well as current and expected market conditions and market outlooks as of the time of the issuance of the Securities. The premium will be added to the original mathematical value of the Securities and may differ between each issue of the Securities as well as from the premiums charged by other market participants.

#### *Potential conflicts of interest related to market maker activities*

The Issuer, any of its affiliates and any other company that the Issuer has appointed as market maker (each a "**Market Maker**"), may, but is not obliged to, undertake market making activities for the Securities. "**Market Making**" means that the Market Maker, under normal market conditions, continuously quotes bid and offer prices at which it is willing to trade the Securities in a certain volume. Through Market Making the liquidity and/or the value of the Securities may substantially be influenced. The prices quoted by a Market Maker may, to the detriment of the investor, substantially deviate from the mathematical (intrinsic) value of the Securities and usually do not correspond to the prices which would have been formed without Market Making and in a liquid market.

#### *Potential conflicts of interest related to Distributors and inducements*

From the Issuer Distributors may receive certain inducements in form of turnover-dependent placement- and/or management fees. Placement fees are one-off payments which, alternatively, may be granted by the Issuer in the form of an appropriate discount on the Issue Price. On the other hand, payment of management fees is recurring and dependant on the volume of the outstanding Securities at the given point of time placed by the relevant Distributor. The amount of the relevant inducement will be agreed between the Issuer and the relevant Distributor, may be subject to change and may differ with respect to the individual Distributor and Series of Securities.

#### *Potential conflicts of interest related to the function as calculation agent or paying agent*

The Issuer, any Distributor or any of their affiliates may act as a calculation agent or paying agent in relation to the Securities. In this function, the relevant entity may, *inter alia*, calculate amounts to be distributed under the Securities and make adjustments or other determinations, as described in the Final Terms, i.e. by exercising its reasonable discretion (§ 315 German Civil Code, *Bürgerliches Gesetzbuch*, "**BGB**") if the governing law of the Securities is German law or, respectively, by acting in accordance with relevant market practice and in good faith if the governing law of the Securities is Italian law. The aforementioned calculations, adjustments and determinations may adversely influence the value of, and/or the amounts to be distributed under the Securities and may be adverse to the interests of the respective Security Holder.

## ***2. Potential conflicts of interest related to Underlying-linked Securities***

The Securities are linked to the performance of an underlying (the "**Underlying**") and/or its components. "**Components**" are, in case of an index as Underlying, the relevant components of the index. In this context, the following additional conflicts of interest may exist:

### *Potential conflicts of interest related to additional transactions*

The Issuer, any Distributor or any of its affiliates may from time to time, without regard to the interests of the Security Holders, participate in transactions involving shares or other securities, fund shares, futures contracts, commodities, indices, currencies or derivatives for their own account or for the account of their customers. Additional transactions may result in further liquidity constraints of the Underlying or its Components, in particular, following hedging transactions in Underlyings or its Components with an already restricted liquidity.

### *Potential conflicts of interest related to the issuance of additional securities linked to the same Underlying or to its Components*

The Issuer, any Distributor and any of its affiliates may issue securities with respect to the Underlying or its Components on which securities already have been issued. This increases the offer and, therefore, may limit the possibility to trade the Securities in case of limited demand. An issuance of such new competing securities may, therefore, adversely affect the tradability of the Securities.

### *Potential conflicts of interest related to Underlying-related information*

In the course of their business activities or otherwise, the Issuer, any Distributor or any of their affiliates may be in possession of or may acquire important Underlying-related information (also not publicly available) over the term of the Securities. The issuance of Securities does, in particular, not create any obligation to disclose such information (whether or not confidential), which is related to the Underlying or to its Components, to the Security Holders, or to consider such information in the course of the issuance of the Securities.

### *Potential conflicts of interest related to business activities*

The Issuer, any Distributor or any of their affiliates may, without regard to the interests of the Security Holders, deal with other issuers, any of their affiliates, competitors or any guarantor and engage in any kind of commercial or investment banking or other business activities. Any such action may, with respect to the Security Holders, adversely affect the price of the Underlying or its Components.

### *Potential conflicts of interest related to other functions of the Issuer*

The Issuer, any Distributor and any of their affiliates may, without regard to the interests of the Security Holders, act as a member of a syndicate of banks, as financial advisor or as a bank of another issuer. In the course of the aforementioned functions actions may be taken or recommendations may be made which, with respect to the Security Holders, may adversely affect the Underlying or its Components.

## **C. Risks related to the Securities**

In the following the material risk factors related to the Securities are described.

### ***1. Risks related to the market***

#### *Risk that no active trading market for the Securities exists*

There is a risk that the Securities may not be widely distributed and no active trading market (the "**Secondary Market**") may exist and may develop for the Securities.

The Issuer is not obliged to make applications for the Securities to be admitted to the regulated market of any stock exchange or to be listed on any other exchange, market or trading system within the European Economic Area. Even if the Issuer makes such application, there is no

assurance that such applications will be accepted or that an active trading will develop or be maintained. If the Securities are not traded on any stock exchange or any other market or trading system, pricing information for the Securities may in addition be more difficult to obtain.

Neither the Issuer nor any Distributor or any of its affiliates is obliged to undertake any Market Making activities. There is also no obligation to appoint a Market Maker or to continue a Market Making during the whole term of the Securities. If there is no Market Maker, or Market Making is only made to a limited extent, the Secondary Market in the Securities may be very limited.

Neither the Issuer nor any Distributor can therefore assure that a Security Holder will be able to sell his Securities at an adequate price prior to their redemption. Even in the case of an existing Secondary Market it cannot be excluded that the Security Holder may not be in a position to dispose of the Securities in the case of an unfavourable development of the Underlying or its Components or of a Currency Exchange Rate, e.g. if such development occurs outside of the trading hours of the Securities.

*Risk related to a possible repurchase of the Securities*

The Issuer may, but is not obliged to, purchase Securities at any time and at any price in the open market, by tender offer or private agreement. Any Securities purchased in this way by the Issuer may be held, resold or cancelled. A repurchase of Securities by the Issuer may adversely affect the liquidity of the Securities.

*Risk related to the offering volume*

The issue volume described in the Final Terms does not allow any conclusion on the volume of the Securities actually issued or outstanding at any time and thus on the liquidity of a potential Secondary Market.

*Risks related to a sale of the Securities*

Prior to the redemption of the Securities, the Security Holders may only be able to realise the value, represented by the Securities, through a sale of the Securities in the Secondary Market. The price at which a Security Holder may be able to sell his Securities may be substantially lower than the Purchase Price. In the case of a sale of the Securities at a certain point of time at which the market value of the Securities is below the Purchase Price paid, the respective Security Holder will be suffering a loss. Costs associated with the sale of the Securities in the Secondary Market (e.g. order fees or trading venue fees) may in addition increase the loss.

*Risks related to market value-influencing factors*

The market value of the Securities will be affected by a number of factors. These are *inter alia* the creditworthiness of the Issuer, the relevant prevailing interest and yield rates, the market for similar securities, the general economic, political and cyclical conditions, the tradability and, if applicable, the remaining term of the Securities as well as additional Underlying-related market value-influencing factors (as described in *Risks arising from the influence of the Underlying or its Components on the market value of the Securities*).

In addition, changes in the composition of the member states of the European Union (EU), e.g. an exit of the United Kingdom of Great Britain and Northern Ireland according to the referendum of 23 June 2016, may have a negative impact on the stability, the existence and the functioning of the EU and its institutions. Uncertainties and possible economic burdens resulting from such attempts may arise not only in the relevant member states, have significant impact on the economic development of single member states and the EU as a whole and result in distortions as well as in increased volatilities in the financial markets. These factors may be mutually reinforcing or neutralising.

*Risks related to the spread between bid and offer prices*

During extraordinary market situations or the occurrence of technical disruptions, the Market Maker for the Securities may temporarily suspend the quotation of bid and offer prices for the Securities or increase the spread between bid and offer prices. Should the Market Maker in special

market situations be unable to conclude transactions to hedge against price risks resulting from the Securities, or when such transactions are very difficult to conclude, the spread between the bid and offer prices may be expanded in order to limit its economic risk.

*Currency and Currency Exchange Rate risk with respect to the Securities*

If the Securities are denominated in a currency (the "**Specified Currency**") other than the currency of the jurisdiction where a Security Holder is domiciled or where the Security Holder seeks to receive funds, there is a Currency Exchange Rate risk (as described in *Currency Exchange Rate risk*). Currencies may also be devalued or replaced by a different currency whose development cannot be predicted.

In cases where the conversion of amounts payable under the Securities is not made directly by application of one Currency Exchange Rate but indirectly by application of two different Currency Exchange Rates (so called *Cross Rate* option), an increased Currency Exchange Rate risk exists. In such cases, the currency of the Underlying will at first be converted into a third currency before it will then be converted into the Specified Currency. Thus, as the amounts to be paid at redemption and, if applicable, at early redemption depend on two different Currency Exchange Rates, investors might suffer higher losses of interest and/or principal, as it would otherwise be the case.

*Currency Exchange Rate risk*

Exchange rates between currencies (the "**Currency Exchange Rates**") are determined by factors of supply and demand in the international currency markets and are influenced by macro-economic factors, speculations and interventions by the central banks and governments as well as by political factors (including the imposition of currency controls and restrictions). In addition there are other factors (e.g. psychological factors) which are almost impossible to predict, (e.g. a crisis of confidence in the political regime of a country) and which also may have a material impact on a Currency Exchange Rate. Currencies may be very volatile. There may be an increased risk in connection with currencies of countries whose standard of development is not comparable to the standard of the Federal Republic of Germany or of other industrialized countries (the "**Industrialized Countries**"). In the case of any irregularities or manipulations in connection with the fixing of Currency Exchange Rates, this may have a material adverse effect on the Securities.

*Risks related to hedging transactions with respect to the Securities*

Security Holders may not rely on being able to sufficiently hedge against price risks arising from the Securities at any time. Their ability to make transactions to preclude or limit such price risks will depend on, *inter alia*, the relevant prevailing market conditions. In some cases there may be no suitable transactions available at a certain point of time or Security Holders may conclude transactions only at a market price that is disadvantageous to them.

**2. Risks related to the Securities in general**

*Credit risk of the Issuer*

The Securities constitute unsecured obligations of the Issuer vis-a-vis the Security Holders. Any person who purchases the Securities therefore relies on the creditworthiness of the Issuer and has, in relation to his position under the Securities, no rights or claims against any other person. Security Holders are subject to the risk of a partial or total failure of the Issuer to fulfil obligations which the Issuer is liable to perform under the Securities in whole or in part, for example, in the event of the Issuer's insolvency. The worse the creditworthiness of the Issuer is the higher is the risk of a loss. Such risk is not protected by a statutory deposit protection, the deposit protection scheme of the Association of German Banks (*Einlagensicherungsfonds des Bundesverbandes deutscher Banken*), the Compensation Fund of German Banks (*Entschädigungseinrichtung deutscher Banken GmbH*) or any similar compensation scheme. **In the case of realization of the credit risk of the Issuer the Security Holder may sustain a total loss of his capital.**

*Possible limitations of the legality of purchase and lack of suitability of the Securities*

There is the risk, that an investment in the Securities is illegal, unfavourable or not suitable for a potential investor.

The purchase, holding and/or disposal of certain Securities may, for certain investors, be prohibited, limited or associated with adverse regulatory or other consequences. It *inter alia* cannot be ruled out that the specific investor is restricted or not entitled to invest in the Securities due to supervisory regulations or that the investment is attached to special reporting or notification requirements (e.g. with respect to certain funds).

Additionally, the purchase or holding of Securities may be excluded or unsuitable under civil law agreements (e.g. if eligibility as trustee stock (*Mündelsicherheit*) is required) or may not be fully consistent with all investment policies, guidelines and restrictions applicable to it.

An investment in the Securities requires detailed knowledge of the features of the relevant Security. Thus, potential investors should have experience with investing in structured securities and the risks associated therewith. An investment in the Securities is only suitable for investors who

- have sufficient knowledge and experience in financial and business affairs to evaluate the merits and risks as well as the suitability of an investment in structured securities;
- have the ability to evaluate the merits and risks in the context of their financial situation on the basis of appropriate analytical tools or, in case of lack of knowledge, have the possibility to take respective professional advice;
- are able to bear the economic risk of an investment in structured securities for an indefinite period; and
- are aware that it may, during a substantial period of time or even at all, not be possible to sell the Securities.

Under consideration of the characteristics of the Securities and the substantial risks inherent in purchasing the Securities, the Securities may also not be an economically appropriate investment.

As a result, each potential investor must determine, based on its own independent review and, if applicable, professional advice, if the purchase, holding and disposal of the Securities fully complies with the investor's legal requirements, knowledge and experience and financial needs, objectives and circumstances (or if the investor is acquiring the Securities in a fiduciary capacity, the trustee).

*Risks arising from financial markets turmoil, the Resolution Directive as well as governmental or regulatory interventions*

Turmoil in the international financial markets may also in the future adversely affect inflation, interest rates, the Underlying and its Components, the amounts to be distributed under the Securities or the value of the Securities and result in extensive governmental and regulatory interventions.

As a reaction to the financial market crisis which begun in 2007, the European and the German legislator enacted or planned several directives, regulations and laws which might affect the Security Holders. In particular, Directive 2014/59/EU of the European Parliament and of the Council of 15 May 2014 establishing a framework for the recovery and resolution of credit institutions and investment firms (the "**Resolution Directive**") and the law for the recovery and resolution of institutions and financial groups (German Recovery and Resolution Act, *Sanierungs- und Abwicklungsgesetz*) implementing the Resolution Directive into national German law contain additional or amended regulatory provisions which may affect the Issuer and the Securities issued. Besides, the Regulation (EU) No. 806/2014 of the European Parliament and the Council of 15 July 2014 establishing uniform rules and a uniform mechanism for the resolution of credit institutions

and certain investment firms in the framework of a Single Resolution Mechanism and a Single Resolution Fund (the "**SRM Regulation**"), provides certain resolution tools.

The German Recovery and Resolution Act and the SRM Regulation provide tools which enable the competent supervisory or resolution authorities to restructure or dissolve credit institutions and investment firms if there is a potential default risk regarding the respective credit institution or investment firm and provided that the default risk may not be prevented by other effective means and the application of the tool serves the public interest. These resolution tools, in accordance with the Resolution Directive, include among others a "bail-in" instrument enabling the competent resolution authority to convert relevant capital instruments or certain eligible liabilities into shares or common equity tier 1 capital instruments or to write them down in whole or in part. By suspension, modification and termination (in whole or in part) of the rights under the Securities, the resolution tools may materially affect the rights of the Security Holders. The extent to which the claims resulting from the Securities forfeit due to the "bail-in" instrument, depends on a number of factors, on which the Issuer potentially has no influence.

If the resolution conditions are met, the competent resolution authority may as an alternative to a resolution issue a transfer order pursuant to which the Issuer would be forced to transfer its shares or assets and liabilities in whole or in part to a so-called bridge bank or an asset management company. In the context of a transfer order, the Issuer as initial debtor of the Securities may be replaced by another debtor (which may have a fundamentally different risk tolerance or creditworthiness than the Issuer). Alternatively, the claims may remain towards the initial debtor, but the situation regarding the debtor's assets, business activity and/or creditworthiness may not be identical to the situation prior to the transfer order.

With respect to insolvency proceedings opened on or after 1 January 2017, § 46f of the German Banking Act (*Kreditwesengesetz*, the "**KWG**") provides that, in the case of an insolvency proceeding of the Issuer, claims arising from certain standard unsecured debt securities (such as fixed or floating rate bearer bonds), including securities that were issued prior to 1 January 2017, will be satisfied only after other senior debt obligations have been satisfied (so called non-preferred debt securities).

With the amending directive (EU) 2017/2399 to the Resolution Directive dated 12 December 2017 (the "**Resolution Directive Amending Directive**") the European legislator regulated the ranking of unsecured debt instruments of an institution in case of insolvency proceedings of such institution. According to the Resolution Directive Amending Directive unsecured senior liabilities resulting from debt securities with a maturity of at least one year which do not contain embedded derivatives and are not derivatives themselves have a lower ranking in an insolvency than other unsecured senior liabilities. The relevant contractual documentation and, where applicable, the prospectus must explicitly refer to the lower ranking of these senior non-preferred debt liabilities in insolvency proceedings. The Resolution Directive Amending Directive has been implemented by an amendment to § 46f KWG with effect as from 21 July 2018. For debt securities issued prior to this date, the statutory rules for non-preferred debt securities pursuant to the former version of § 46 f para. 5 to 7 KWG will still apply and remain unchanged.

The Issuer may be subject to a restructuring or reorganisation procedure pursuant to the German Act on the Reorganisation of Credit Institutions (*Kreditinstitute-Reorganisationsgesetz*, the "**KredReorgG**"). While a restructuring procedure generally may not interfere with rights of creditors, the reorganisation plan established under a reorganisation procedure may provide for measures that affect the rights of a creditor of the credit institution such as a Security Holder even if such creditor does not consent to such measures, including a reduction of existing claims or a suspension of payments. The Security Holders' rights may be adversely affected by the reorganisation plan which might be adopted irrespective of their particular voting behaviour by a majority vote.

It was planned that pursuant to the Regulation of the European Parliament and of the Council on structural measures improving the resilience of EU credit institutions, which are considered to be

systemically important, such credit institutions shall be restricted by the competent authorities with regard to their business activities, including a prohibition of proprietary trading and the separation of certain trading activities. The draft of this regulation was published by the European Commission on 29 January 2014. This draft was withdrawn on 24 October 2017. However, it cannot be precluded that similar measures will be planned in the future and could in the future – in comparison to the German Bank Separation Act (Trennbankengesetz) – have further impairments in relation to the Issuer's ability to meet its obligations under the Securities.

The aforementioned measures may result in a default of all claims under the Securities and thus to a total loss of the investment of the Security Holder. There may be negative effects in the market value of the Securities even before the execution of such rights. In addition, the Issuer's assets may be affected under these measures, which may further adversely affect the ability of the Issuer to meet its payment obligations under the Securities.

It is generally not or only partly possible to predict future market turmoil, regulatory measures and further legislative projects.

#### *Risks related to debt financing the purchase of the Securities*

If the purchase of the Securities will be financed by uptake of foreign funds, the proceeds from the Securities may possibly not be sufficient to make interest or principal payments arising from a financing purchase of the Securities and require additional capital. Therefore, in such a case, potential investors should make sure in advance that they can still pay the interest and principal payments on the loan also in the event of a decrease of value or a payment delay or default with regard to the Securities. The expected return should be set higher since the costs relating to the purchase of the Securities and those relating to the loan (interest, redemption, handling fee) have to be taken into account.

#### *Risks related to Incidental Costs*

In connection with the purchase, holding and disposal of the Securities, incidental costs (the "**Incidental Costs**") may be incurred beside the purchase or sale price of the Securities. These Incidental Costs may significantly reduce or even eliminate any profit from the Securities.

If the purchase or sale of the Securities is not agreed between the purchaser and the Issuer or the Distributor, as the case may be, at a fixed price (the "**Fixed Price**"), commissions which are either fixed minimum commissions or pro-rata commissions, depending on the order value, will be charged upon the purchase and sale of the Securities. To the extent that additional – domestic or foreign – parties are involved in the execution of an order, for example domestic dealers or brokers in foreign markets, potential investors may also be charged for the brokerage fees, commissions and other fees and expenses of such parties (third-party costs).

In addition to such Fixed Price and the costs directly related to the purchase of the Securities (direct costs), potential investors must also take into account any other costs in connection with the holding of the Securities. These include for example custody fees and additional costs if other foreign or domestic entities are involved in the custody.

Before investing in the Securities, potential investors should inform themselves about any Incidental Costs incurred in connection with the purchase, holding or sale of the Securities.

#### *Inflation risk*

Security Holders are exposed to the risk that the real yield from an investment in the Securities is reduced, equal to zero or even negative due to future money depreciation (the "**Inflation**"). The higher the rate of inflation rises, the lower is the real yield on a Security. If the inflation rate is equal to or higher than the nominal yield, the real yield is zero or even negative.

#### *Risks related to taxation*

The return on the Securities may be reduced through the tax impact on an investment in the Securities. Potential investors and sellers of Securities should be aware that they may be required to pay taxes or other charges or duties in accordance with the laws and practices of the country

where they are individually assessed for tax, to which the Securities are transferred to, in which the Securities are held or in which the paying agent is situated, or of any other jurisdiction. In some jurisdictions, no official statements, rulings and/or guidelines of the tax authorities or court decisions may be available for innovative financial instruments such as the Securities. The laws and practices with respect to taxes are subject to change. Potential investors are advised to ask for their own tax advisors' advice on their individual taxation with respect to the acquisition, sale or redemption of the Securities. Only these advisors are in a position to duly consider the specific situation of the potential investor.

*Risks regarding US withholding tax*

For the Security Holder there is the risk that payments on the Securities may be subject to US withholding tax pursuant to section 871(m) of the US Internal Revenue Code of 1986 or subject to the US withholding tax pursuant to the so called Qualified Intermediary Regime and/or the Foreign Account Tax Compliance Act ("**FATCA**").

Section 871(m) of the U.S. Internal Revenue Code ("**IRC**") and accompanying regulations can require the Issuer to withhold up to 30% of the amount of a dividend paid on an U.S. Underlying referenced in the Securities if a payment (or deemed payment) on the Securities is considered to be contingent upon, or determined by reference to, the payment of such dividend. The withholding tax is imposed only if the performance of the Securities bears a relationship to the performance of the U.S. Underlying that meets or exceeds specified thresholds. Pursuant to these U.S. rules, payments (or deemed payments) under certain equity-linked instruments that refer to the performance of U.S. equities or certain indices that contain U.S. equities as an Underlying or a Component are treated as dividend equivalents ("**Dividend Equivalents**") and are subject to U.S. withholding tax of 30% (or a lower income tax treaty rate).

The withholding tax is imposed even if pursuant to the terms and conditions of the Securities, no actual dividend-related amount is paid or an adjustment is made. Investors may not be able to determine any connection to the payments to be made in respect of the Securities to the actual dividends.

The withholding tax may be withheld by the Issuer or the custodian of the Security Holder. In withholding this tax, the Issuer will regularly apply the general tax rate of 30% to the payments subject to US provisions (or deemed payments) and not any lower tax rate pursuant to any potentially applicable double taxation agreements. In such case, an investor's individual tax situation can therefore not be taken into account. A double taxation may occur in relation to payments made under the Securities.

The determination made by the Issuer or the custodian of the Security Holder of whether the Securities are subject to this withholding tax is binding for the Security Holder. However, it cannot be excluded that the United States Internal Revenue Service (the "**IRS**") comes to a different assessment which may be relevant. The rules of section 871(m) of the IRC require complex calculations in respect of the Securities that refer to US equities and application of these rules to a specific issuance of Securities issue may be uncertain. Consequently, the IRS may determine they are to be applied even if the Issuer or the custodian of the Security Holder initially assumed the rules would not apply. There is a risk in such case that Security Holder is nonetheless subject to withholding tax.

There is also the risk that section 871(m) of the IRC must also be applied to Securities that were not initially subject to withholding tax. This case could arise in particular if the Securities' economic parameters change such that the Securities are in fact subject to tax liability and the Issuer continues to issue and sell these Securities.

**The Issuer or the custodian of the Security Holder is entitled to deduct from payments made under the Securities any withholding tax accrued in relation to payments made under the Securities.** If IRC section 871(m) requires withholding on a payment, none of the Issuer, a paying agent nor any other person will be obliged to pay additional amounts to the Security Holders in respect of the amount withheld. As a result of the deduction or withholding, Security Holders will

receive less interest or principal than expected. In the worst case, payments to be made in respect of the Security would be reduced to zero or the amount of tax due could even exceed the payments to be made in respect of the Security (the latter situation may also arise if the Securities were to expire worthless and no payment was made to investors).

Payments on the Securities may be subject to a US withholding tax pursuant to the Qualified Intermediary ("**QI**") and/or FATCA rules. Should, for example as a consequence of a non-compliance with certain certification, information reporting requirements with respect to its US accounts, other specified requirements by the Issuer or the documentation requirements by the Security Holder, a withholding of taxes on interest, capital or other payments under the Securities occur in connection with such withholding taxation, then neither the Issuer, nor the Paying Agent or any other person will be obliged to pay a compensation to the Security Holder. As a consequence, the Security Holder may receive a lower amount than without any such withholding or deduction.

#### *Risks related to the Differential Amount*

The Securities (except for *Inline and Stay High/Stay Low Securities*) will be redeemed at their maturity at the Differential Amount specified in the Final Terms, if no early redemption or Knock-out Event occurs. The Differential Amount may be less than the Issue Price or the Purchase Price. This means, the Security Holder only achieves a return (subject to the influence of exchange rate and inflation risk) if the Differential Amount exceeds the individual Purchase Price of the Security Holder. The Differential Amount may also be lower than the nominal amount of the Securities or even zero.

#### *Risks arising from missing ongoing payments*

Unless otherwise specified in the applicable Final Terms, the Securities do not bear interest or grant any other unconditional rights for ongoing payments which could compensate possible losses of principal.

#### *Risks in connection with a later determination of features*

The Final Terms may provide that either the Issue Price or other features of the Securities (such as a Strike or a Knock-Out Barrier) may be determined by the Issuer or published at any point of time after the production of the Final Terms. Depending on the time and manner of any such determination, investors in the relevant Securities bear the risk that the potential return which is achievable from an investment in the relevant Securities do not match the expectations of the investor at the time of purchase or the risk profile does not match the risk expectations of the investor.

### **3. Risks related to Underlying-linked Securities**

Amounts to be distributed under the Securities will be determined by reference to an Underlying or its Components using a payment formula and other conditions, as specified in the Final Terms (the "**Underlying-linked Securities**"). This brings in addition to the risks that arise in connection with the Securities themselves, further significant risks which are not associated with a similar investment in a conventional fixed or floating rate bond with a claim for repayment of the nominal amount or a direct investment in the Underlying or its Components. Potential investors should only invest in the Securities if they have fully understood the applicable payment formulas.

#### *Risks arising from the influence of the Underlying or its Components on the market value of the Securities*

In addition to the risks described in *Risks related to market value-influencing factors*, the market value of Underlying-linked Securities will be influenced by a number of additional factors.

The market value of the Securities as well as the amounts distributable under the Securities primarily depend on the price of the Underlying or its Components, as the case may be. It is not possible to predict how the price of the Underlying or its Components will develop in the future. The market value of the Securities may be subject to substantial fluctuations, since it will

primarily be influenced by changes in the price of the Underlying or its Components. The price of the Underlying or its Components may also depend on a number of inter-related factors, including cyclical, economic, financial and political events and their general effect on capital markets and on the relevant stock exchanges.

Whilst the market value of the Securities is linked to the price of the Underlying or its Components and may be adversely influenced by it, not any change may be equally influencing.

In addition, the market value of the Securities *inter alia* is influenced by the variations in the intensity of the fluctuation of values (volatility) of the Underlying or its Components, the interference (correlation) between various Components of the Underlying, if any, and changes in the expected and actual dividend or other payments under the Underlying or its Components. Moreover, even the failure of an expected change in the price of the Underlying or its Components may adversely affect the market value of the Securities. These factors can reinforce or negate each other.

*Risks arising from the fact that the observation of the Underlying or its Components occurs only at specified dates or times or periods*

The amounts to be distributed under the Securities may be considerably lower than the price of the Underlying or its Components may have suggested. The observation of the price of the Underlying or its Components relevant for the calculation of amounts to be distributed under the Securities only occurs on one or more dates or during a specified period, as specified in the relevant Final Terms. In addition, in the Final Terms may be specified that for an observation of the price of the Underlying or its Components only a certain point of time is relevant. Any prices of the Underlying or its Components favourable for the relevant Security Holder that are outside of these dates, times or periods, will not be regarded. In particular, at a high volatility of the Underlying or its Components, this risk can significantly increase.

*Risks related to conditional payments: Impact of thresholds or limits*

In case where the conditional payment of amounts is specified in the Final Terms, the payment and/or the extent of such amounts depend on the performance of the Underlying or its Components. Potential investors should be aware that in case of an unfavourable performance of the Underlying or its Components no payment of any conditional amount may occur or that any amount may also be very low or even zero or that the payment of a conditional amount may irretrievably lapse for the remaining term of the Securities.

*Risks due to open-end structure*

Turbo Open End Securities, X-Turbo Open End Securities and Mini Futures Securities are issued without a fixed maturity. Instead, they will be valid for an indefinite period of time until the call right of the Issuer or the exercise right of the Security Holder is exercised or until a Knock-out Event has occurred. The Security Holders have no right that the Securities be redeemed until the aforementioned rights are exercised or a Knock-out Event has occurred.

*Risks related to a Strike*

In the case of all Securities other than Inline and Stay High/Stay Low Securities, a strike (the "**Strike**"), as specified in the Final Terms, can lead to the Security Holders participate either to a lesser extent in a favourable performance of the Underlying or its Components or to a greater extent in an unfavourable performance of the Underlying or its Components. The Strike is a threshold at which the Securities participate in the development of the price of the Underlying or its Components and may, as a mathematical factor within the payment formula, lead to a reduced payment to the Security Holders. **Security Holders may potentially be exposed to an increased risk of loss of their invested capital.**

*Risks related to a Ratio*

In the case of all Securities other than Inline and Stay High/Stay Low Securities, a ratio (the "**Ratio**"), as specified in the Final Terms, may result in the Security being in economic terms

similar to a direct investment in the relevant Underlying or its Components, but being nonetheless not fully comparable with such a direct investment. In respect of the Security Holders, the application of a Ratio may result in a reduced participation in a favourable development of the Underlying or its Components or in an increased participation in an unfavourable development of the Underlying or its Components, as the case may be. **Security Holders may potentially be exposed to an increased risk of loss of their invested capital.**

*Reinvestment Risk*

The Security Holders are exposed to the risk that they may only reinvest the principal received due to an early repayment of the Securities to less favourable conditions.

*Risks related to a Maximum Amount*

Discount Warrants are issued with a maximum amount. A maximum amount (the "**Maximum Amount**"), as specified in the Final Terms, has the consequence that the potential return from the Securities is limited in contrast to a direct investment in the Underlying or its Components. A participation in a favourable performance of the Underlying or its Components beyond the Maximum Amount is excluded.

*Special risks related to reference rates*

During the term of the Securities it cannot be excluded that underlying reference rates will no longer be available, will no longer be available in the relevant form at the time of the issuance of the Securities or, that in connection with the determination or publication of these reference rates it may come to inaccuracies or even manipulations by the persons responsible for the determination and/or publication, or by any other market participants. All this may have a negative effect on the amounts payable under and the market value of the Securities. Furthermore, regulatory developments (in particular for the regulation of benchmark) may entail special approval and registration obligations and special rules of conduct for the persons responsible for the determination and/or publication of reference rates, and for the issuers of financial instruments related to these reference rates. This may mean that the reference rates underlying the Securities might not be available for the entire term of the Securities or only with changed conditions. This may also have a negative effect on the amounts payable under and on the market value of the Securities.

*Currency and Currency Exchange Rate risk with respect to the Underlying or its Components*

If the Underlying or its Components are denominated in a currency other than the Specified Currency, there is a Currency Exchange Rate risk (as described in *Currency Exchange Rate risk*). Currencies may also be devalued or replaced by a different currency whose development cannot be predicted.

In cases where the conversion of amounts payable under the Securities is not made directly by application of one Currency Exchange Rate but indirectly by application of two different Currency Exchange Rates (so called *Cross Rate* option), an increased Currency Exchange Rate risk exists. In such cases, the currency of the Underlying will at first be converted into a third currency before it will then be converted into the Specified Currency. Thus, as the amounts to be paid at redemption and, if applicable, at early redemption depend on two different Currency Exchange Rates, investors might suffer higher losses of interest and/or principal, as it would otherwise be the case.

*Risks related to Adjustment Events*

In the case of the occurrence of an adjustment event (the "**Adjustment Event**"), as specified in the Final Terms, the calculation agent is entitled to carry out adjustments according to the Final Terms in its discretion and/or to replace the Underlying or its Components, as the case may be. Although these adjustments aim at retaining the economic situation of the Security Holders unchanged to the largest extent possible, it cannot be guaranteed that such an adjustment only leads to a minimal negative economic impact. Adjustment Events may have a substantial negative impact on the value and the future performance of the Securities as well as on the amounts to be distributed

under the Securities and can change the structure and/or the risk profile of the Securities. If such adjustments in accordance with the Final Terms are impossible or not reasonable for the Issuer and/or the Security Holders, the Issuer may call the Securities and redeem them at their market value. As a result, the Security Holder is exposed to the risks as described in *Risks arising from Call Events*.

*Risks related to structure specifics*

Because of the leverage typical for the Securities, the performance of the Underlying may have a disproportionately strong adverse effect on the value of the Securities, culminating in the Securities becoming completely worthless. The Securities therefore involve disproportionate risks of loss compared to a direct investment in the Underlying or to an investment with a fixed redemption.

If the relevant reference price of the Underlying is below (in the case of Call Securities, as defined in section *Risks related to Call /Put Securities and Stay High / Stay Low Securities*, and Stay High Securities) or above (in the case of Put Securities, as defined in section *Risks related to Call / Put Securities and Stay High / Stay Low Securities*, and Stay Low Securities) the strike indicated in the Final Terms, or if the strike is identical to the relevant reference price of the Underlying, the market value of the Securities will be determined exclusively by their time value. The time value declines in relation to the time remaining to maturity. In this case the market value of the Securities will fall to zero by the last possible Exercise Date.

*Risks related to Call / Put Securities and Stay High / Stay Low Securities*

If, in the case of Call Securities (Call Warrants, Call Discount Warrants, Call Turbo Securities, Call Turbo Open End Securities, Call X-Turbo Securities, Call X-Turbo Open End Securities, Call Mini Future Securities and Call COOL Securities together the "**Call Securities**") and Stay High Securities, the price of the Underlying falls, holders of the Securities may be exposed to the risk that the value of their Securities will fall to a level which will result in the Security Holders suffering a total loss of their invested capital (i. e. the price paid for the Securities).

If, in the case of Put Securities (Put Warrants, Put Discount Warrants, Put Turbo Securities, Put Turbo Open End Securities, Put X-Turbo Securities, Put X-Turbo Open End Securities, Put Mini Futures Securities and Put COOL Securities together the "**Put Securities**") and Stay Low Securities, the price of the Underlying rises, holders of the Securities may be exposed to the risk that the value of their Securities will fall to a level which will result in the Security Holders suffering a total loss of their invested capital (i. e. the price paid for the Securities). The relevant Differential Amount of put-Securities is limited since the relevant reference price of the Underlying cannot exceed zero.

Therefore, potential investors should only purchase the Securities if they are able to bear the risk of losing the invested capital, including the transaction costs.

*Risks related to Inline Securities*

If in the case of an Inline Security the price of the Underlying during the Knock-out Period is closer to the Upper Knock-out Barrier and rises or is closer to the Lower Knock-out Barrier and falls, the Security Holders may be exposed to the risk that the value of their Securities falls so far, that they completely lose their invested capital (i.e. the price paid for the Securities). This means, that the price of the Security generally falls, the closer the price of the Underlying approaches to the Upper or the Lower Knock-out Barrier.

*Risks related to Discount Warrants*

Discount Warrants provide to the Security Holder the possibility to participate in the performance of the Underlying or its Components. In the case of Discount Warrants, the participation in a favourable development of the price of the Underlying or its Components is limited to the Maximum Amount. As a result, the Security Holder does not participate in a development of the

price of the Underlying or its Components which would mathematically lead to a Differential Amount higher than the Maximum Amount.

In the case of Discount Warrants, the Differential Amount, which will be paid to the Security Holder at maturity, may be lower than the Purchase Price of the Discount Warrant. In this case, the Security Holder will suffer a loss. In the most negative case, this may lead to a total loss of the invested capital.

*Risks related to the Knock-out Barrier*

Turbo Securities, Turbo Open End Securities, X-Turbo Securities, X-Turbo Open End Securities and Mini Futures Securities, Inline Securities and Stay High/Stay Low Securities provide that an early redemption occurs if the price of the Underlying (e.g. in the case of continuous observation) is at any time on or below or on or above, as specified in the relevant Final Terms, a certain threshold (so-called Knock-out Barrier) (the "**Knock-out Event**"). Upon the occurrence of a Knock-out Event, the right of the Security Holder to demand payment of the Differential Amount, or, as the case may be, the redemption amount forfeit and an early redemption occurs at the predefined Knock-out Amount.

**The Knock-out Amount may be very low or even zero.** In the case of Mini Futures Securities, the Knock-out Amount depends on, among others, the amount received by the Issuer as a consequence of liquidating its hedging transactions. Therefore, there is a risk that any positive performance of the Underlying exceeding the Knock-out Amount will not be considered or reproduced. All of the above mentioned Securities also bear the risk that the Security Holder will, upon receipt of the Knock-out Amount, receive significantly less than in the case of the payment of the Underlying related Differential Amount or the redemption amount as a consequence of any (automatic, as the case may be) exercise or regular termination.

In the case of COOL Securities, the occurrence of a Knock-out Event results for the Security Holder in the loss of the right to demand payment of the COOL amount. In this case, the COOL Security converts into a classical Call or, as the case may be, Put Warrant with European exercise which bears the respective risks.

Investors should be aware that the occurrence of a Knock-out Event will have negative consequences for them and that they may in case of a Knock-out Event **suffer a partial or total loss of their investment**.

In the case of a partial loss of capital, the Security Holder bears the reinvestment risk of the prematurely received amount.

*Risks related to the Minimum Exercise Amount*

The Final Terms (in case of Warrants with American exercise, Turbo Open End Securities, X-Turbo Open End Securities and Mini Future Securities) may provide that a certain number of Securities (the "**Minimum Exercise Amount**") or an integral multiple thereof is required in order to exercise the Securities. Should Security Holders acquire a smaller quantity or number of Securities which is not equal to a multiple of the Minimum Exercise Amount, a Security Holder may be unable to exercise some of his Securities. The value of the Securities that cannot be exercised may fall to zero.

*Risks related to Securities which provide for a constant adjustment of the Strike and the Knock-out Barrier*

In the case of Turbo Open End Securities, X-Turbo Open End Securities and Mini Futures Securities, the Final Terms may specify that the Strike and/or the Knock-out Barrier which are used to determine the amounts payable under the Final Terms will be subject to constant adjustment, e.g. in order to reflect market developments such as an increased volatility of the Underlying, dividend payments or financing costs.

These adjustments may result in a significant reduction of the amounts payable under the Securities and thus may adversely affect the value of the Securities. The adjustments may also

result in a Knock-out Event (see the above section *Consequences of the Knock-out Barrier*), resulting in an increased risk of an occurrence of a Knock-out Event for these securities. Even a Knock-out Event may occur if the price of the Underlying is not changing or if it is rising (in the case of Call Securities and Stay High Securities) or falling (in the case of Put Securities and Stay Low Securities) to a lesser extent than the respective Knock-out Barrier.

The Securities may provide for an adjustment of the strike and the knock-out barrier if the price of the underlying is reduced due to an ex-dividend markdown (the "**Dividend Adjustment**"). Although, the Dividend Adjustment intends to remain the gap between the price of the underlying and the knock-out barrier constant (as far as possible) following a dividend payment, the Dividend Adjustment will not fully reflect the ex-dividend markdown since it takes into consideration taxes, other levies or costs. Therefore, the risk of an occurrence of a knock-out event increases with each dividend payment of the underlying or one of its components.

*Increased risk of occurrence of a knock-out event related to X-Turbo Securities and X-Turbo Open End Securities*

In the case of X-Turbo Securities and X-Turbo Open End Securities that are linked to the DAX<sup>®</sup>, MDAX<sup>®</sup> or TecDAX<sup>®</sup> (performance) index or a comparable index, not only the price of the relevant index but also the price of the X-DAX<sup>®</sup>, X-MDAX<sup>®</sup> or, respectively, X-TecDAX<sup>®</sup> (performance) index or the relevant comparable index will be relevant in order to determine whether a Knock-out Event has occurred. As a consequence of the observation of both indices, the period during which a Knock-out Event may occur is considerably longer than in the case of a classic Call or Put Turbo Security, and consequently the risk that a Knock-out Event may occur is proportionately higher.

*Increased risk of strong price fluctuations related to X-Turbo Securities and X-Turbo Open End Securities*

The risk that prices may fluctuate strongly and, therefore, the risk that a Knock-out Event may occur is higher with the X-DAX<sup>®</sup>, X-MDAX<sup>®</sup> or X-TecDAX<sup>®</sup> (performance) index as compared to the DAX<sup>®</sup>, MDAX<sup>®</sup> or TecDAX<sup>®</sup> (performance) index. This risk results from the event-driven calculation method applied to the respective X-index, while at the same time the liquidity of the DAX, MDAX or TecDAX futures contract underlying the corresponding X-index is usually lower.

*Calculation of the differential amount exclusively on the basis of the DAX<sup>®</sup>, MDAX<sup>®</sup> or TecDAX<sup>®</sup> (performance) index related to X-Turbo Securities and X-Turbo Open End Securities*

The Differential Amount will be calculated exclusively on the basis of the DAX<sup>®</sup>, MDAX<sup>®</sup> or TecDAX<sup>®</sup> (performance) index. The X-DAX<sup>®</sup>, X-MDAX<sup>®</sup> or X-TecDAX<sup>®</sup> (performance) index will not be taken into account for this purpose. Should the price of the X-DAX<sup>®</sup>, X-MDAX<sup>®</sup> or X-TecDAX<sup>®</sup> (performance) index be more favourable for a holder of Securities on the relevant valuation date than that of the DAX<sup>®</sup>, MDAX<sup>®</sup> or TecDAX<sup>®</sup> (performance) index, it will not be used for the purposes of calculating the Differential Amount.

*Risks arising from an Issuer's Regular Call Right*

Turbo Open End Securities, X-Turbo Open End Securities and Mini Futures Securities are not issued with a fixed maturity but will be valid for an indefinite period of time until the call right of the Issuer or the put right of the Security Holder is exercised, provided that no Knock-out Event occurs. These Securities contain a regular call right of the Issuer (the "**Regular Call Right**"), i.e. they may be redeemed by the Issuer on certain call dates (the "**Call Dates**") as specified in the Final Terms, by giving notice to the Security Holders. This will result in the Security Holder in such case receiving the Differential Amount which is dependent upon the performance of the Underlying. The Issuer exercises the Regular Call Right within its sole discretion, it may also terminate as of a Call Date on which the price of the Underlying is unfavourable for a Security Holder, i.e. where the price of the Underlying is substantially lower than at the time of the purchase of the Securities by a Security Holder. This will have the consequence that the exercise of the Issuer's Regular Call Right results in a lower Differential Amount or in no higher amount

than the Minimum Amount. Furthermore, the Security Holder bears the risk that the expectations for an increase of the market value of the Securities will no longer be met because of such ordinary termination. At the time of the exercise of the Regular Call Right, the price of the Underlying may be substantially lower than its price at the time of the purchase of the Securities by a Security Holder. From the time of the exercise of the Regular Call Right the remaining term of the Securities is limited until the respective Call Date. In this case, the Security Holders may not be able to hold the Securities until the price of the Underlying has recovered. Upon a termination of the Securities, the Security Holders no longer have a possibility to participate in any further performance of the Underlying. Security Holders should be aware that they may in case of an exercise of the Regular Call Right **suffer a partial or total loss of their invested capital**.

*Risks arising from the Exercise Right of Security Holders*

Turbo Open End Securities, X-Turbo Open End Securities and Mini Futures Securities are issued without a fixed maturity and will be valid for an indefinite period of time until the exercise of the Exercise Right by the Security Holder or of the Issuer's Regular Call Right, provided that no Knock-out Event occurs. Security Holders may demand redemption of the Securities (the "**Exercise Right**") on certain exercise dates (the "**Exercise Dates**") as specified in the Final Terms by transmission of a duly filled notice (as described in the Final Terms). Likewise, the Security Holders have an early exercise right in the case of Warrants with American exercise rights. In such case, the Security Holder receives the Differential Amount which is dependent on the performance of the Underlying. At the time of the exercise of the Exercise Right, the price of the Underlying may be substantially lower than its price at the time of the purchase of the Securities by a Security Holder. From the time of the exercise of the Exercise Right the remaining term of the Securities is limited to the respective Exercise Date. In such case, Security Holders may have no possibility to hold the Securities until the price of the Underlying has recovered. Investors should be aware that in the case of an exercise of the Exercise Right they **may suffer a partial or total loss of their invested capital**. Upon the exercise of the Exercise Right of the Securities, the Security Holders no longer have a possibility to participate in any further performance of the Underlying. In this case, the Security Holder bears the reinvestment risk.

Furthermore, there may be a certain time lag between the time of the exercise of the Exercise Right and the next respective valuation date. During the period from the exercise of the Exercise Right to the respective valuation date, the price of the Underlying may decline with the consequence that the amount payable under the Securities at the redemption date with respect to such valuation date will be substantially lower than the amount expected to be paid by the Security Holder at the time of the exercise. In the case of a Market Disruption on the respective valuation date, a respective time lag could even last considerably longer.

Holders of Warrants, Turbo Open End Securities and Mini Future Securities linked to shares should also note that the exercise right cannot be exercised during certain periods specified in the Final Terms.

*Risks related to Call Events*

The Issuer has the right to extraordinarily call the Securities at their market value upon the occurrence of a call event (the "**Call Event**"), as specified in the Final Terms. A further participation of the Securities on a favourable development of the price development of the Underlying or its Components will cease. If the market value of the Securities at the relevant time is lower than the Issue Price or the Purchase Price, the respective Security Holder **will suffer a partial or total loss of its invested capital, even if the Securities provide for a conditional minimum payment**. Furthermore, the Security Holder bears the risk that the expectations for an increase in the market value of the Securities will no longer be met because of such extraordinary early termination. In this case, the Security Holder is also exposed to a reinvestment risk.

*Risks related to Market Disruption Events*

If a market disruption event (the "**Market Disruption Event**"), as specified in the relevant Final Terms, occurs the relevant calculation agent may defer valuations of the Underlying or its

Components, as provided in the Final Terms, and, after a certain period of time, determine such valuations in its discretion. These valuations may, to the detriment of the Security Holder, differ substantially from the actual price of the Underlying or its Components. In general market disruption events also lead to delayed payments on the Securities. In this case, Security Holders are not entitled to demand interest due to such delayed payment.

In particular, as a result of a Market Disruption Event, the Knock-out Period may be extended if so specified in the relevant Final Terms. As a consequence of such extension, a total loss of the invested capital might occur even after the original end of the Knock-out Period. The extended Knock-out Period increases the risk that a Knock-out Event occurs (as described in section *Risks related to the Knock-out Barrier*).

#### *Risks related to the regulation of benchmarks*

The Underlying may be an index or certain financing costs relevant for the adjustment of the Strike and/or the Knock-out Barrier may be linked to a reference rate, both of which qualify as a benchmark (the "**Benchmark**") within the meaning of Regulation (EU) 2016/1011 of the European Parliament and of the Council dated 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014 (the "**Benchmark Regulation**"). According to the Benchmark Regulation, a Benchmark could not be used as such if its administrator does not obtain authorisation or is based in a non-EU jurisdiction which (subject to applicable transitional provisions) does not satisfy the "equivalence" conditions, is not "recognised" pending such a decision or is not "endorsed" for such purpose. Consequently, it might not be possible to further utilise a Benchmark as underlying of the Securities. In such event, depending on the particular Benchmark and the applicable terms of the Securities, the Securities could be de-listed, adjusted, redeemed prior to maturity or otherwise impacted.

Any changes to a Benchmark as a result of the Benchmark Regulation could have a material adverse effect on the costs of refinancing a Benchmark or the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with the Benchmark Regulation. Such factors may have the effect of discouraging market participants from continuing to administer or contribute input data to certain Benchmark, trigger changes in the rules or methodologies used to determine certain Benchmarks, adversely affect the performance of a Benchmark or lead to the disappearance of certain Benchmarks. Potential investors should be aware that they face the risk that any changes to the relevant Benchmark may have a material adverse effect on the value of and the amount payable under the Securities. Furthermore, the methodology of a Benchmark might be changed in order to comply with the terms of the Benchmark Regulation, and such changes could have an adverse effect on the Security Holders, including but not limited to an unfavorable adjustment of the published price or its volatility. Consequently, it might become necessary to also adjust (as described in *Risks related to Adjustment Events*) or even terminate the Securities (as described in *Risks related to Call Events*).

#### *Risks arising from negative effects of hedging arrangements by the Issuer on the Securities*

The Issuer may use a portion or the total proceeds from the sale of the Securities on transactions to hedge against price risks of the Issuer resulting from the Securities. The entering or the liquidation of hedging transactions by the Issuer may, in individual cases, adversely affect the price of the Underlying or its Components.

## **D. Risks related to the Underlying or its Components**

The Underlying may be a share (including a Depository Receipt (as defined below)), an index, a commodity, a futures contract or a Currency Exchange Rate. The asset classes described below (including, but not limited to, shares, indices, futures contracts and/or commodities) may also be the Component of an index as Underlying or the reference asset of a futures contract and thus may have an indirect influence on the Securities. The Underlying and its Components are subject to particular risks which are described below and must be observed.

### **1. General risks**

#### *Past performance no indication for a future performance*

The past performance of an Underlying or its Components provides no indication of its future performance. The amounts to be distributed under the Securities may therefore be substantially lower than the price of the Underlying or its Components may in advance have suggested.

#### *No rights of ownership of the Underlying or its Components*

The Underlying or its Components will not be held by the Issuer for the benefit of the Security Holders, and as such, Security Holders will not obtain any rights of ownership (such as voting rights, rights to receive dividends or other distributions or other rights) with respect to the Underlying or its Components. Unless not specified otherwise in the relevant Final Terms, the Securities are linked to the price development of the Underlying or its Components and there will be no compensatory consideration of dividends and other payments of the Underlying or its Components. Neither the Issuer nor any of its affiliates is obliged to acquire or hold the Underlying or its Components. If either the Issuer or any of its affiliates holds the Underlying or its Components, neither the Issuer nor any of its affiliates is restricted from selling, pledging or otherwise conveying all rights, titles and interests in or with regard to the Underlying or its Components or any derivative contracts linked to it by virtue solely of having issued the Securities.

#### *Risks associated with foreign jurisdictions*

If the Underlying or any of its Components is subject to the jurisdiction of a country whose legal system is not comparable with the legal system of the Federal Republic of Germany or other Industrialized Countries, investing in such Securities involves further legal, political (e.g. political changes) and economical (e.g. economic downturns) risks. In foreign jurisdictions possibly expropriation, taxation equivalent to confiscation, political or social instability or diplomatic incidents may occur. Transparency requirements, accounting, auditing and financial reporting standards as well as regulatory standards may in many ways be less strict than in Industrialized Countries. Financial markets in these countries may have much lower trading volumes than developed markets in Industrialized Countries and the securities of many companies are less liquid and their prices are subject to stronger fluctuations than those of similar companies in Industrialized Countries.

#### *Risks related to the purchase of Securities for hedging purposes*

The Securities may not be a perfect hedge against price risks arising from the Underlying or its Components. Any person intending to use the Securities to hedge against such price risks is subject to the risk that the price of the Underlying or its Components, other than expected, develops in the same direction as the value of the Securities. In addition, it may not be possible to liquidate the Securities at a certain date at a price which reflects the actual price of the respective Underlying or its Components. This particularly depends on the prevailing market conditions. In both cases, the Security Holder may suffer a loss from both, his investment in the Securities and his investment in the Underlying or its Components, whose risk of loss he actually wanted to hedge.

## 2. Risks related to shares

### *Similar risks to a direct investment in shares*

The performance of Securities linked to shares (including Depository Receipts, as defined below) (the "**Share-linked Securities**") primarily depends on the performance of the respective share. The performance of a share may be subject to factors like the dividend or distribution policy, financial prospects, market position, corporate actions, shareholder structure and risk situation of the issuer of the share, short selling activities and low market liquidity as well as to cyclical, macro-economic or political influences. In particular, dividend payments lead to a fall in the share price and, therefore, may have an adverse effect on the Security Holder and its investment in the Securities. Accordingly, an investment in Share-linked Securities may bear similar risks to a direct investment in the respective shares. Corporate actions and other events in relation to the share or the issuer of the share may result in adjustments to the Securities (as described in *Risks related to Adjustment Events*) or in an extraordinary early termination of the Securities (as described in *Risks related to Call Events*). Disruptions regarding the trading of the shares may lead to Market Disruption Events (as described in *Risks related to Market Disruption Events*).

### *Risks related to Depository Receipts*

Depository receipts (the "**Depository Receipts**"), e.g. in the form of American Depository Receipts (ADRs) or Regional Depository Receipts (RDRs), may bear additional risks compared with risks related to shares. Depository Receipts are participation certificates in a portfolio of shares normally held in the country of incorporation of the issuer of the underlying shares and represent one or more shares or a fraction of such shares. For Depository Receipts, the legal owner of the underlying share portfolio is the custodian bank, which is at the same time the issuing agent of the Depository Receipts. Depending on the jurisdiction in which the Depository Receipts will be issued and to which jurisdiction the custody agreement is subject, it cannot be ruled out that the respective jurisdiction does not recognise the holder of the Depository Receipts as the actual beneficial owner of the underlying shares. Especially in the event of insolvency of the custodian bank or foreclosure against it, it is possible that shares underlying the Depository Receipts are restricted or that these shares may be sold to realise their value in the case of foreclosure against the custodian bank. If that is the case, the holder of the Depository Receipts loses the rights to the underlying shares certified by the participation certificate and the Depository Receipt becomes worthless.

### *Risks related to dividend payments*

Dividend payments of the Underlying usually lead to a fall in its price and, therefore, may have an adverse effect on the Security Holder and its investment in the Securities. In particular, dividend payments may adversely affect the price performance of a Call Security or Inline Security and lead to the occurrence of a Knock-out Event.

### *Risks related to Group Shares*

In case of shares issued by UniCredit S.p.A. (a company of UniCredit Group) or shares issued by another company belonging to the UniCredit Group (the same group as the Issuer of the Securities) (both types of shares referred to as the "**Group Shares**"), there are the following additional risks:

#### *Combination of Credit and Market Risk*

The Issuer of the Securities and the issuer of the Group Shares may be exposed to the same risks, *inter alia*, resulting from a group-wide organization, management and business strategy. Risks materialising with the Issuer of the Securities or the issuer of the Underlying or another entity of the group may simultaneously affect both, the Issuer of the Securities as well as the issuer of the Underlying.

If the creditworthiness of UniCredit S.p.A., the holding entity of the group, (the "**Holding Company**") is reduced, this may result in a simultaneous reduction of the creditworthiness of the

issuer of the Underlying as well as of the Issuer of the Securities. Such reduction of the Holding Company's rating would likely result in falling prices of the Underlying and, in addition, in a reduction in the market value of the Securities due to a reduced creditworthiness of the Issuer.

If the Holding Company were to become insolvent, the Issuer of the Securities and the issuer of the Group Shares would probably also become insolvent. In this case, there is an increased risk that the Security Holder will only receive significantly limited payments from the insolvency assets of the Issuer with regard to amounts payable under the Securities. On the one hand, the Security Holder's claims against the Issuer of the Securities would be subject to the insolvency rate applicable to claims of equal priority. On the other hand, the amounts payable under the Securities would decrease due to the loss in value of the Underlying as a result of the insolvency of the issuer of the Underlying.

#### *Sector related risks*

If both, the Issuer of the Securities and the issuer of the Group Shares belong to the same economic sector and/or country, a general negative performance of this sector or country might have a cumulated negative impact on the price development of the Securities.

#### *Risks arising from special conflicts of interest on group level*

The Holding Company will not consider the interests of Security Holders in its exercise of control with respect to the issuer of the Group Shares and the Issuer of the Securities. Since both, the Issuer of the Securities and the issuer of the Group Shares are under joint control of the Holding Company, conflicting interests at the Holding Company's level might have negative effects on the overall performance of the Securities. E.g., if the Holding Company is interested in rising prices of the Group Shares, this might have a negative impact on the holders of Put Securities. On the other hand, if the Holding Company is interested in falling prices of the Group Shares, this might have a negative impact on the holders of Call Securities.

### **3. Risks related to indices**

#### *Similar risks to a direct investment in index components*

The performance of Securities linked to indices (the "**Index-linked Securities**") depends on the performance of the respective index. The performance of an index depends primarily on the performance of its components (the "**Index Components**"). Changes in the price of the Index Components may have an effect on the index and, likewise, changes to the composition of the index or other factors may also have an effect on the index. Accordingly, an investment in an Index-linked Security may bear similar risks to a direct investment in the Index Components. Generally, an index may at any time be altered, terminated or replaced by any successor index. This may result in adjustments to the Securities (as described in *Risks related to Adjustment Events*) or in an extraordinary early termination of the Securities (as described in *Risks related to Call Events*). Disruptions regarding the trading of the shares may lead to Market Disruption Events (as described in *Risks related to Market Disruption Events*).

#### *No influence of the Issuer on the index*

If neither the Issuer nor any of its affiliates acts as index sponsor, the Issuer neither has influence on the index nor on the method of calculation, determination and publication of the index (the "**Index Concept**") or its modification or termination.

If neither the Issuer nor any of its affiliates acts as index sponsor, Index-linked Securities are not in any way sponsored, endorsed, sold or promoted by the respective index sponsor. Such index sponsor makes no warranty or representation whatsoever, express or implied, either as to the results to be obtained from the use of the index or the prices at which the index stands at a particular time. Such index is composed, calculated (if so) and determined by its respective index sponsor independently from the Issuer of the Securities. Such index sponsor is not responsible or liable for the issuance, the administration, the marketing or the trading of the Securities.

*Risks arising from special conflicts of interests in relation to indices*

If the Issuer or any of its affiliates acts as index sponsor, index calculation agent, advisor or as a member of an index committee, or in a similar position, this may lead to conflicts of interest. In relation to such function, the Issuer or any of its affiliates may, *inter alia*, calculate the price of the index, carry out adjustments (e.g. by exercising its discretion) to the Index Concept, replace the Index Components and/or determine the composition and/or weighting. These measures may have an adverse effect on the performance of the index, and thus on the value of the Securities and/or the amounts to be distributed under the Securities.

*Risks related to Strategy Indices*

Strategy indices (the "**Strategy Indices**") represent hypothetical rule-based investment strategies (i.e., no actual trading or investment activities take place) conducted by an index sponsor. As a general rule, Strategy Indices entitle the index sponsor to extensively exercise its discretion when calculating the index which may lead under certain circumstances to a negative performance of the index.

*Risks related to Price Indices*

In the case of price or price-return indices (the "**Price Indices**"), dividends or other distributions paid out with respect to Index Components will not be considered when calculating the price of the index and consequently have a negative impact on the price of the index, because the Index Components will as a rule be traded with a discount after the pay-out of dividends or distributions. This has the effect that the price of the Price Index does not increase to the same extent or falls to a greater extent than the price of a comparable total return / performance index (the "**Total Return Index**"), which reflects gross payments, or Net Return Index, which reflects net payments.

*Risks related to Net Return Indices*

In the case of net return indices (the "**Net Return Indices**"), dividends or other distributions paid out or made on the Index Components will be considered when calculating the price of the index as net payments after deduction of an average tax rate, as specified by the relevant Index Sponsor. This tax deduction has the effect that the price of the net return index does not increase to the same extent or falls to a greater extent than the price of a comparable Total Return Index.

*Risks related to Short Indices*

In the case of short indices (the "**Short Indices**"), as a rule, the price of the index develops in a reverse manner to the market or long index to which it refers. This means that the price of the Short Index generally rises when the prices of the market or long index to which it refers fall, and that the price of the Short Index falls when the prices of the market or long index to which it refers rise.

*Risks related to Leverage Indices*

Leverage indices (the "**Leverage Indices**") consist of two different components, the underlying (i.e. stock, index, commodity, futures contract or exchange rate) to which the Leverage Index refers (the "**Reference Underlying**") and the leverage factor (the "**Leverage Factor**"). The performance of the Leverage Index is linked to the per cent performance per day of the Reference Underlying by applying the Leverage Factor. Depending on the respective Leverage Factor, the daily price of the Leverage Index falls or rises to a greater extent than the price of the respective Reference Underlying.

If the Leverage Index has exceeded a certain threshold due to extraordinary price movements during a trading day, the Leverage Index may be adjusted intra-daily in accordance with the relevant Index Concept. Such adjustment may lead to a reduced participation of the Leverage Index in a subsequent increase in price of the Reference Underlying.

In the case of Securities linked to a Leverage Index, Security Holders **may to a greater extent be suffering a loss of the invested capital.**

*Risks related to Distributing Indices*

In the case of distributing indices (the "**Distributing Indices**") dividends or other distributions, made from the Distributing Index, will usually result in a discount on the price of Distributing Index. This has the effect that the price of the Distributing Index in a longer term does not rise to the same extent or falls to a greater extent than the price of a comparable Net Return Index or Total Return Index.

*Risks related to Excess Return Indices*

In the case of excess return indices, the investor indirectly invests in futures contracts and thus is exposed to the same risks as described in *Risk related to futures contracts*. The performance of the Index Components is only considered in excess (that means relative) to a benchmark or interest rate.

*Risks in relation to country or sector related indices*

If an index reflects the performance of assets only of certain countries, regions or sectors, this index is affected disproportionately negatively in the case of an unfavourable development in such a country, region or industrial sector.

*Currency risk contained in the index*

Index Components may be listed in different currencies and therefore exposed to different currency influences (this particularly applies to country or sector related indices). Furthermore, it is possible that Index Components are converted first from one currency to the currency which is relevant for the calculation of the index, and then converted again in order to calculate and determine the amounts to be distributed under the Securities. In such cases, Security Holders are confronted with several currency and Currency Exchange Rate risks, which may not be obvious for a Security Holder.

*Adverse effect of fees on the index level*

If the index composition changes in accordance with the relevant Index Concept, fees may arise that are subject of the index calculation and which reduce the level of the index and the payment of amounts under the Securities (for Distributing Indices). This may have a negative effect on the performance of the index and the payments under the Securities. Indices which reflect certain markets or sectors may use certain derivative financial instruments. This may lead to higher fees and thus a lower performance of the index than it would have been the case with a direct investment in these markets or sectors.

*Risks arising from to the publication of the index composition which is not constantly updated*

For some indices its composition will not entirely be published or only with retardation on a website or in other public media specified in the Final Terms. In this case the composition exposed might not always correspond with the current composition of the respective index used for calculating the amounts payable under the Securities. The delay may be substantial and, under certain circumstances last for several months. In this case the calculation of the index may not be fully transparent to the Security Holders.

*Risks of unrecognized or new indices*

In the case of a not recognized or new financial index, there may be a lower degree of transparency relating to its composition, maintenance and calculation than it would be the case for a recognized financial index, and there may in some circumstances be less information available about the index. In addition, subjective criteria may play a much greater role in the composition of the index in such cases, and there may be a greater degree of dependence on the agent responsible for the composition, maintenance and calculation of the index than it would be the case for a recognized financial index. Furthermore, particular investors (e.g. Undertakings for Collective Investment in Transferable Securities (UCITS) or insurance companies) may be subject to specific administrative restrictions relating to the purchase of Securities linked to such index which have to be considered by these investors. Finally, the provision of indices, the contribution of input data to

indices and the use of indices may from time to time be subject to regulatory requirements and restrictions which may affect the ongoing maintenance and availability of an index.

#### **4. Risks related to futures contracts**

##### *Similar risks to a direct investment in futures contracts*

The performance of Securities linked to futures contracts (the "**Futures contract-linked Securities**") primarily depends on the performance of the respective futures contract. The performance of a futures contract may be subject to factors like the price of the reference asset underlying the futures contract, limited liquidity of the futures contract or the reference asset underlying the futures contract, as the case may be, speculations and cyclical, macro-economic or political influences. Accordingly, an investment in Futures contract-linked Securities may bear similar risks to a direct investment in the respective futures contracts or reference asset underlying the respective futures contract (see also the risks as described in *Risks related to commodities*). Changes in the contract specification made by the relevant determining futures exchange may result in adjustments to the Securities (as described in *Risks related to Adjustment Events*) or in an extraordinary early termination of the Securities (as described in *Risks related to Call Events*). Disruptions regarding the trading of the futures contracts may lead to Market Disruption Events (as described in *Risks related to Market Disruption Events*).

##### *Futures contracts are standardised transactions*

Futures contracts are standardised forward transactions, which reference as so called commodity futures contracts commercial good (e.g. oil, wheat or sugar) or as so called financial futures contracts on bonds (e.g. sovereign bonds) or other reference assets ("**Futures Reference Assets**")

A futures contract represents a contractual obligation to buy or sell a fixed amount of the Futures Reference Assets on a fixed date at an agreed price. Futures contracts are traded on futures exchanges and are standardised with respect to the contract amount and Futures Reference Assets (e.g. type and quality in case of commodities as well as issuer, term, nominal amount and coupons in case of bonds), as well as to delivery location and dates (if applicable). Futures contracts are normally traded at a discount or premium compared with the spot prices of their underlying reference assets.

##### *No parallel development of spot and futures prices*

Prices of futures contracts may differ substantially from the spot prices of the underlying reference assets. The price of a futures contract does not always develop in the same direction or at the same rate as the spot price of the underlying reference asset. As a result, the price of the futures contract may develop substantially unfavourable for Security Holders even if the spot price of the underlying reference asset remains constant or develops favourably for Security Holders.

##### *Risks related to futures contracts with different contract dates*

The prices of futures contracts with different contract dates and overlapping terms can differ, even if all other contract specifications are identical. If the prices of longer-term futures contracts are higher than the prices of the shorter-term futures contracts this is called 'contango'. If the prices of shorter-term futures contracts are higher than the prices of the longer-term futures contracts this is called 'backwardation'. If the Final Terms provide for an observation of futures contracts with different contract dates (e.g. in the case of a roll over), these price differences might have negative effects on the value of the Securities and the amounts to be paid under the Securities, since not the most favourable futures contract for the Security Holder might be of relevance.

##### *Risks with respect to a Roll-Over*

In order to trade futures contracts on an exchange, they are standardised with respect to their term (e.g. 3, 6, 9 months). This may require a subsequent replacement of the futures contracts by futures contracts (under consideration of transaction costs related thereto), which have a later contract date, but otherwise has identical contract specifications as the initial futures contract (the "**Roll-Over**"). Such a Roll-Over can be repeated several times, as a result of which the associated

transaction costs are incurred several times. Differences in the prices and settlement prices of the futures contract (as described in *Risks related to futures contracts with different contract dates*) together with the related transaction costs may be compensated by a respective adjustment (e.g. of the rate at which the respective Security directly or indirectly participates in the performance of the underlying futures contract). Therefore, over time Securities may participate to a greater extent in an unfavourable underlying future's performance for the respective Security Holder or to a lesser extent in a favourable underlying future's performance for the respective Security Holder. In addition, differences in the prices and reference prices of the futures contracts (as described in section *Risks related to futures contracts with different contract dates*) and the transaction costs associated with a roll over may lead to an adjustment of the Strike and, if applicable, the Knock-out Barrier. This may have a detrimental effect on the value of the Securities and the Differential Amount for the Security Holder and even lead to the occurrence of a Knock-out Event and thus to a total loss of the capital invested.

### **5. Risks related to commodities**

#### *Similar risks as a direct investment in commodities*

The performance of Securities linked to a commodity (the "**Commodity-linked Securities**") primarily depends on the performance of the respective commodity. The performance of a commodity may be subject to factors like supply and demand; speculations in the financial markets; production bottlenecks; delivery difficulties; hardly any market participants; political turmoil; economic downturns; political risks (exporting restrictions, war, terrorist actions); unfavourable weather conditions; natural disasters. Changes in the trading conditions at the relevant reference market or other events, affecting the commodity may result in adjustments to the Securities (as described in *Risks related to Adjustment Events*) or in an extraordinary early termination of the Securities (as described in *Risks related to Call Events*). Disruptions regarding the trading of a commodity may lead to Market Disruption Events (as described in *Risks related to Market Disruption Events*).

#### *Higher risks than other asset classes*

An investment in commodities is associated with higher risks than investments in other asset classes like e.g. bonds, currencies or stocks; because prices in this asset category are subject to greater fluctuations (volatility) and markets may be less liquid than e.g. stock markets. Changes to bid and offer volumes may have a higher impact on the price and volatility. Commodity markets are also characterised by, among others, the fact that there are only a few active market participants what increases the risk of speculation and pricing inaccuracies.

#### *Risks arising from the trading in various time zones and on different markets*

Commodities (e.g. oil, gas, wheat, corn, gold, silver) are traded on a global basis almost non-stop in various time zones on different specialised exchanges or markets or directly among market participants (over the counter). This may lead to a publication of different prices for a commodity in different price sources. The Final Terms specify which exchange or market and which timing apply regarding the specification of the price of the relevant commodity. The prices of a commodity displayed at the same time on different price sources can differ e. g. with the result that a more favourable price, which is displayed on a price source, is not used for the calculations or determinations in respect of the Securities.

### **6. Risks related to Currency Exchange Rates**

For all Securities with a Currency Exchange Rate as Underlying (the "**Currency-Exchange-Rate-linked Securities**") the same risks apply as described in section *Currency and Currency Exchange Rate risk with respect to the Securities* and *Currency Exchange Rate risk*. In addition, potential investors should also consider the following risk factors with respect to Currency Exchange Rates as Underlying:

*Similar risks as a direct investment in currencies*

Currency-Exchange-Rate-linked Securities are linked to one or more specified currencies. Payments depend on the performance of the underlying currency/ies and may be substantially lower than the amount the Security Holder has initially invested. An investment in Currency-Exchange-Rate-linked Securities may bear similar market risks as a direct investment in the respective underlying currency/ies. This might especially be the case if the underlying currency is the currency of an emerging market. Such risk may in particular result from a high volatility (exchange rate fluctuations). Therefore, potential investors should be familiar with foreign currencies as investment asset class.

*Risks arising from different price sources*

If the relevant Final Terms specify a continuous observation of a Currency Exchange Rate (e.g. the continuous observation of a Knock-out Barrier during a Knock-out Period) this may be carried out on the basis of a price source different to the price source used for the determination of the relevant reference price. The Currency Exchange Rates displayed at the same time on different price sources may differ e. g. with the result that the price, which is displayed on a price source used for the continuous observation, is not used for the calculation or determination of the Differential Amount.

*Risk arising from an indirect determination of the relevant Currency Exchange Rate*

Potential investors should consider that the relevant Final Terms may specify that the reference price relevant for the calculation or specification of the Differential Amount is not determined directly from the Currency Exchange Rate defined as Underlying, but indirectly via a computation of two Currency Exchange Rates each consisting of one currency from the Underlying's currency pair and the Specified Currency. This may result in a reference price used for the calculation or specification of the Differential Amount differing materially from the determination of the Underlying published by a recognized financial information provider or by a central bank. This may result in an increased currency exchange rate risk and have a negative effect on the Securities.

**In case of Currency Exchange Rate-linked Securities, Security Holders may be subject to an increased risk of substantial loss of the capital invested.**

## GENERAL INFORMATION ON THE BASE PROSPECTUS

This document constitutes a base prospectus (the "**Base Prospectus**") according to Art. 5 (4) of Directive 2003/71/EC, in the version valid at the date of the Base Prospectus, (the "**Prospectus Directive**") in connection with § 6 of the German Securities Prospectus Act, in the version valid at the date of the Base Prospectus (*Wertpapierprospektgesetz*, the "**WpPG**") in connection with the Commission Regulation (EC) No 809/2004, in the version valid at the date of the Base Prospectus relating to knock-out securities and warrants (the "**Securities**") issued from time to time by UniCredit Bank AG ("**HVB**" or the "**Issuer**") under the Euro 50,000,000,000 Debt Issuance Programme (the "**Programme**").

This Base Prospectus is to be read together with the information provided in (a) the registration document of UniCredit Bank AG dated 17 April 2018 (the "**Registration Document**"), whose information is incorporated herein by reference, (b) the supplements to this Base Prospectus in accordance with § 16 WpPG, if any (the "**Supplements**") (c) all other documents whose information is incorporated herein by reference (see "General Information– Information incorporated by reference in this Base Prospectus" below) as well as (d) the respective Final Terms (the "**Final Terms**").

No person has been authorised to give any information or to make any representation not contained in or not consistent with this Base Prospectus or any other information supplied in connection with the Programme and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer.

Neither this Base Prospectus nor any other information supplied in connection with the Programme constitutes a recommendation, an offer or invitation by or on behalf of the Issuer to any person to subscribe for or to purchase any Securities. The delivery of this Base Prospectus does not imply that the information contained herein concerning the Issuer is correct at any time subsequent to the date of this Base Prospectus or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date indicated in the document containing the same. The Issuer will be obliged to supplement this Base Prospectus pursuant to § 16 WpPG. Investors should read *inter alia* the most recent non-consolidated or consolidated financial statements and interim reports, if any, of the Issuer when deciding whether or not to purchase any Securities.

The distribution of this Base Prospectus and the offer or sale of Securities may be restricted by law in certain jurisdictions. Persons into whose possession this Base Prospectus or any Securities come must inform themselves about any such restrictions. In particular, there are restrictions on the distribution of this Base Prospectus and the offer or sale of Securities in the United States of America and on the offer or sale of the Securities in the European Economic Area (see "General Information – Selling Restrictions" below). The Securities have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**") and are subject to U.S. tax law requirements. Subject to certain exceptions, Securities may not be offered, sold or delivered within the United States of America or to U.S. persons (see "General Information – Selling Restrictions" below).

**RESPONSIBILITY STATEMENT**

UniCredit Bank AG having its registered office at Arabellastraße 12, 81925 Munich, Germany accepts responsibility for the information contained in this Base Prospectus. UniCredit Bank AG declares that the information contained in this Base Prospectus is, to the best of its knowledge, in accordance with the facts and that no material information has been omitted.

## CONSENT TO THE USE OF THE BASE PROSPECTUS

The Issuer may consent to the use of the Base Prospectus to all financial intermediaries (general consent) or to only one or several specified financial intermediaries (individual consent) or to no financial intermediary (no consent) and will designate its decision in the Final Terms.

In case of a consent, the following applies:

The Issuer consents to the use of the Base Prospectus, any supplement thereto as well as the relevant Final Terms by financial intermediaries in the member states, in which the Base Prospectus has been notified, to the extent such member states have been specified as offering countries during the offer period specified in the Final Terms and the Issuer assumes the liability for the content of this Base Prospectus also with regard to any subsequent resale or final placement of the Securities.

The Issuer's consent to the use of the Base Prospectus may be given under the condition that

- (i) each financial intermediary complies with the applicable selling restrictions and the terms and conditions of the offer and
- (ii) the consent to the use of the Base Prospectus is not revoked

In addition, the Issuer's consent to the use of the Base Prospectus may be given under the condition that the financial intermediary using the Base Prospectus commits itself to comply any information and notification requirements under investment laws and regulations with regard to the Underlying or its Components. This commitment is made by the publication of the financial intermediary on its website stating that the prospectus is used with the consent of the Issuer and subject to the conditions set forth with the consent.

Furthermore, in connection with the consent to the use of the Base Prospectus the Issuer may impose the condition that the financial intermediary using the Base Prospectus commits itself towards its customers to a responsible distribution of the Securities. This commitment is made by the publication of the financial intermediary on its website stating that the prospectus is used with the consent of the Issuer and subject to the conditions set forth with the consent.

Apart from that, the consent is not subject to further conditions.

**Information on the terms and conditions of the offer by any financial intermediary is to be provided at the time of the offer by the financial intermediary.**

**Any further financial intermediary using the Base Prospectus shall state on its website that it uses the Base Prospectus in accordance with this consent and the conditions attached to this consent.**

**New information with respect to financial intermediaries unknown at the time of the approval of the Base Prospectus or the filing of the Final Terms, as the case may, will be published and will be found on the website of the Issuer ([www.onemarkets.de](http://www.onemarkets.de)) under "Rechtliches", "Zustimmung zur Prospektnutzung" (or any successor website which the Issuer will publish in accordance with § 6 of the General Conditions).**

**DESCRIPTION OF THE ISSUER**

The following information regarding the Issuer are hereby incorporated by reference into this Base Prospectus:

- (i) The description of the Issuer included in the Registration Document of UniCredit Bank AG dated 17 April 2018, as supplemented by the Supplement dated 8 November 2018 to the Registration Document of UniCredit Bank AG dated 17 April 2018,

## GENERAL INFORMATION ON THE SECURITIES

### Features of the Securities

#### *General*

The Securities will be issued as non-par value warrants/certificates. Except for Inline and Stay High/Stay Low Securities, the method of calculating the Differential Amount of the Securities is linked to the value of the Underlying at one or more certain dates, times or periods.

Under this Base Prospectus Securities of the product types mentioned below in section "*Product types*" may be issued for the first time, a public offer of Securities which has already started may be continued, the issue volume of Securities the offer of which has already started may be increased and an application for admission of Securities to trading on a regulated or other equivalent market may be made.

#### *Continuance of public offer or increase*

In case of Securities, which have been publicly offered or admitted to trading for the first time before the date of this Base Prospectus (the "**Previous Products**"), the Final Terms may specify that they are to be read in conjunction with this Base Prospectus as well as along with another base prospectus which is specified in the Final Terms (a "**Previous Prospectus**"), of which the description of the Securities (if so specified in the Final Terms) and the conditions of the Securities are incorporated by reference into this Base Prospectus. In this respect, the description of the Securities (if so specified in the Final Terms) and the conditions of the Securities of the relevant product type are not printed in this Base Prospectus, but have to be read in the respective Previous Prospectus (see sections "*Description of the Securities incorporated by reference in the Base Prospectus*" and "*Conditions of the Securities incorporated by reference in the Base Prospectus*").

In addition, all Securities, which have been issued or continued under the Base Prospectus of UniCredit Bank AG dated 22 March 2018, the Base Prospectus of UniCredit Bank AG dated 21 February 2017, the Base Prospectus of UniCredit Bank AG dated 18 December 2017 and the Base Prospectus of UniCredit Bank AG dated 7 February 2018 for the issuance of Knock-out Securities and Warrants, or Securities, the public offer of which has been continued under the Base Prospectus of UniCredit Bank AG dated 22 March 2018, the Base Prospectus of UniCredit Bank AG dated 21 February 2017, the Base Prospectus of UniCredit Bank AG dated 18 December 2017 and the Base Prospectus of UniCredit Bank AG dated 7 February 2018 for the issuance of Knock-out Securities and Warrants, and the public offer of which shall be continued under this Base Prospectus, are identified by their ISIN in the section "*Continued Offerings*" of this Base Prospectus. The Final Terms of the specified Securities are published on the website of the Issuer under [www.onemarkets.de](http://www.onemarkets.de) and may be inspected by searching for the relevant ISIN.

#### *Product types:*

The name of the relevant product type is specified in the Final Terms. The following product types may be issued under this Base Prospectus:

- Call Warrants with European exercise
- Call Warrants with American exercise
- Put Warrants with European exercise
- Put Warrants with American exercise
- Call Discount Warrants
- Put Discount Warrants
- Call Turbo Securities
- Put Turbo Securities
- Call Turbo Open End Securities

- Put Turbo Open End Securities
- Call X-Turbo Securities
- Put X-Turbo Securities
- Call X-Turbo Open End Securities
- Put X-Turbo Open End Securities
- Call Mini Future Securities
- Put Mini Future Securities
- Call COOL Securities
- Put COOL Securities
- Inline Securities
- Stay High Securities
- Stay Low Securities

### ***Form of the Securities***

#### Securities governed by German law:

The Securities are bearer debt instruments (*Inhaberschuldverschreibungen*) pursuant to § 793 of the German Civil Code (*Bürgerliches Gesetzbuch*, "**BGB**").

The Securities will be represented by a global note without interest coupons.

The Security Holders are not entitled to receive definitive Securities.

#### Securities governed by Italian law:

The Securities are debt instruments in dematerialized registered form pursuant to the Italian Consolidated Law on Financial Intermediation (*Testo Unico della Finanza*).

The Securities will be represented by book entry.

The Security Holders are not entitled to receive definitive Securities.

### ***Underlying***

The Underlying of the Securities may either be a Share, an Index, a commodity, a Futures Contract or a currency exchange rate (each as indicated below).

The term "**Share**" also comprises shares of UniCredit S.p.A. or shares of other entities belonging to the same Group as the Issuer (the "**Group Shares**"), provided that such shares are admitted to trading on a regulated market, and securities with the form of depository receipts (e.g. American Depository Receipts (ADRs) or Regional Depository Receipts (RDRs) (respectively "**Depository Receipts**")). "**Group**" means the UniCredit Group, to which UniCredit S.p.A. is the holding company (the "**Holding Company**"). The Group and the Holding Company are further described in the Section "*Description of the Issuer*" of this Base Prospectus.

An "**Index**" may refer to assets or financial instruments of another asset category (e.g. Shares, Indices, commodities and/or Futures Contracts).

Index may be the Index described in the section "*Description of indices composed by the Issuer or by any legal entity belonging to the same group*" or another Index which is not composed by the Issuer or any legal entity belonging to the same group. Further Indices which are composed by the Issuer or any legal entity belonging to the same group of the Issuer may be included in the Base Prospectus by way of a supplement pursuant to § 16 WpPG.

"**Italian Underlying**" refers to an Index sponsored by Borsa Italiana (if it is specified as "Italian Underlying" in the Final Terms).

If the Underlying is a "**Futures Contract**", the Final Terms may specify that it is to be replaced before its expiration by the futures contract at the reference market with the next following expiry date, with the same reference asset and, if applicable, with a specific residual term.

The Underlying will be specified in the Final Terms.

The Underlying is the main influencing factor on the value of the Securities. In general, the Security Holders participate in any positive as well as in any negative performance of the Underlying during the term of the Securities.

Security Holders of Warrants, Discount Warrants, Turbo Securities, Turbo Open End Securities, X-Turbo Securities, X-Turbo Open End Securities, Mini Future Securities and COOL Securities with the description "Call" ("**Call Securities**") and of Stay High Securities generally benefit from a positive development of the price of the Underlying. Security Holders of Warrants, Discount Warrants, Turbo Securities, Turbo Open End Securities, X-Turbo Securities, X-Turbo Open End Securities, Mini Future Securities and COOL Securities with the description "Put" ("**Put Securities**") and of Stay Low Securities generally benefit from a negative development of the price of the Underlying. Security Holders of Inline Securities generally benefit from a positive as well as from a negative development of the price of the Underlying, provided that the price of the Underlying moves towards the middle of the Upper and the Lower Knock-out Barrier. Details on the influence of the Underlying to the respective Securities are described in the section "Description of the Securities".

The deduction of any fees or other price-influencing factors may also influence the actual performance of the Securities.

Neither the Issuer nor any affiliated entity is in any way obliged to buy or hold the Underlying or its components. The issuance of the Securities does neither limit the Issuer nor its affiliated entities to dispose of, encumber or transfer any rights, claims or assets with regard to the Underlying or its components or with regard to derivative contracts linked thereto.

***Information according to Article 29 of the Benchmark Regulation***

The Underlying may be an index or certain financing costs relevant for the adjustment of the Strike and/or the Knock-out Barrier may be linked to a reference rate, both of which is used as a benchmark (the "**Benchmark**") to determine the payments under the Securities or the value of the Securities, to which Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014 ("**Benchmark Regulation**") is applicable. In this case, the Issuer is subject to certain requirements regarding the use of the respective Benchmark and corresponding disclosure obligation in relation to this Base Prospectus, *inter alia*, regarding the specification whether an administrator of the Benchmark (the "**Benchmark Administrator**") is authorized or registered in accordance with the Benchmark Regulation (the "**Registered Benchmark Administrator**"). However, during a transitional period (not ending before 1 January 2020), in the course of which authorization or registration of the respective Benchmark Administrator shall occur, certain Benchmarks, in particular such Benchmarks already in existence before 1 January 2018, may be used without authorization or registration of the respective Benchmark Administrator unless the competent authority has rejected an application of the Benchmark Administrator for authorisation or registration. During the transitional period the Issuer expects to receive no or only limited relevant information, *inter alia*, in relation to the Benchmark Administrator's authorization or registration status. Investors should note that during the transitional period relevant information may not be included in the Base Prospectus in whole or in part, although the Issuer acts in line with any requirements set out in the Benchmark Regulation and the WpPG. If available, the Final Terms will specify with respect to a Benchmark whether or not a Registered Benchmark Administrator exists.

***Term***

The Securities (other than Call/Put Turbo Open End Securities, Call/Put X-Turbo Open End Securities and Call/Put Mini Futures Securities) have a fixed term, which may be reduced in certain circumstances. Call/Put Turbo Open End Securities, Call/Put X-Turbo Open End Securities and Call/Put Mini Futures Securities are issued without a fixed maturity. Instead, they will be valid for an indefinite period of time until the call right of the Issuer or the exercise right of the Security Holder is exercised, provided that no Knock-out Event occurs. Following such exercise, the Securities have a fixed term.

***Limitation of the rights***

Upon the occurrence of one or more Adjustment Events, as specified in the relevant Final Terms, the Calculation Agent will in its reasonable discretion (§ 315 BGB) (if the Securities are governed by German law) or, respectively, by acting in accordance with relevant market practice and in good faith (if the Securities are governed by Italian law) adjust the Terms and Conditions of these Securities and/or all prices of the Underlying or its components determined by the Calculation Agent on the basis of the Terms and Conditions of the Securities, pursuant to the relevant Final Terms, in such a way that the economic position of the Security Holders remains unchanged to the greatest extent possible.

Upon the occurrence of one or more Call Events (the "**Call Events**"), as specified in the relevant Final Terms, the Issuer may call the Securities extraordinarily pursuant to the Final Terms and redeem the Securities at their Cancellation Amount. The "**Cancellation Amount**" is the fair market value of the Securities on the day specified in the relevant Final Terms, determined, by the Calculation Agent in its reasonable discretion (§ 315 BGB) (if the Securities are governed by German law) or, respectively, by acting in accordance with relevant market practice and in good faith (if the Securities are governed by Italian law) under then prevailing circumstances.

Obvious typing and calculation errors or similar obvious errors in the Terms and Conditions entitle the Issuer to rescission vis-à-vis the Security Holders. The Issuer may combine the declaration of

rescission with an offer to continue the Securities under amended Terms and Conditions. Furthermore, the Issuer is entitled to correct or amend incomplete or inconsistent provisions in the Terms and Conditions in its reasonable discretion (§ 315 BGB) (if the Securities are governed by German law) or, respectively, by acting in accordance with relevant market practice and in good faith (if the Securities are governed by Italian law). If in such case a public offer has not yet been closed or admittance of the Securities for trading on a regulated or other equivalent market is planned, the Issuer will publish a corrected version of the Final Terms of the respective Securities and, if the legal requirements are fulfilled (in particular, a material inaccuracy of the Base Prospectus), publish in advance a supplement to this Base Prospectus pursuant to § 16 WpPG.

### **Waiver Right**

If specified in the relevant Final Terms, each Security Holder has the right to waive the automatic exercise of the exercise right of the Securities held by it by submission of a duly completed waiver notice.

### **Governing law of the Securities**

The Securities, as to form and content, and all rights and obligations of the Issuer and the Security Holder may either be governed by the laws of the Federal Republic of Germany or by the laws of the Republic of Italy, as specified in the relevant Final Terms.

### **Status of the Securities**

The obligations under the Securities constitute direct, unconditional and unsecured obligations of the Issuer and rank, unless provided otherwise by law, *pari passu* with all other unsecured unsubordinated present and future obligations of the Issuer.

### **Publications**

The Base Prospectus, potential supplements and the respective Final Terms are available on the website(s) as specified in the respective Final Terms or on any successor website(s) (see below) in accordance with § 14 WpPG.

The Issuer does not intend to provide information following an issuance of Securities, unless the Terms and Conditions provide for an obligation to publish notices in certain cases. In such cases, a publication will be made on the Website(s) as specified in the Final Terms in accordance with § 6 of the General Conditions. The Issuer may replace these website(s) by any successor website(s) which again will be published by notice in accordance with § 6 of the General Conditions.

### **Issue Price**

If the Issue Price per Security is specified prior to the start of the public offering, it will be set out in the Final Terms.

If the Issue Price per Security is determined after the start of the public offering, the Final Terms will specify the criteria or conditions, on the basis of which the Issue Price may be determined. In this case the Issue Price will be published after its specification on the website(s) as specified in the relevant Final Terms.

### **Pricing**

The Issue Price as well as the bid and offer prices quoted by the Issuer during the term of the Securities are based on internal pricing models of the Issuer. They may contain, beside upfront and distribution fees, an expected margin for the Issuer. Generally, the margin may contain costs, which, i.e., cover the Issuer's costs for structuring the Securities, risk hedging of the Issuer and the distribution.

### **Selling concession or other concessions**

Selling concessions or other concessions may be charged as set out in the Final Terms.

**Placing and Distribution**

The Securities may be distributed by way of public or private placements and either by the Issuer or through financial intermediaries as agreed between the Issuer and the relevant financial intermediary and as stated in the applicable Final Terms.

**Admission to trading and listing of the Securities**

The Issuer may make an application to admit the Securities to trading on a regulated market (Euronext Paris or any other regulated market in the Czech Republic, France or Italy) or other equivalent market. In such a case the relevant Final Terms set out the regulated or other equivalent markets and the earliest date (if known) on which the Securities are or will likely be admitted to trading.

In addition, the relevant Final Terms will specify all the regulated or other equivalent markets, on which, to the knowledge of the Issuer, securities of the same class of securities are already admitted to trading.

The Issuer may also make an application to listing or trading of the Securities on another stock exchange, another market and/or trading system (including a multilateral trading facility (MTF)), which is not a regulated or other equivalent market. In this case the Final Terms may indicate the respective other stock exchange, other market and/or other trading system and the earliest date (if known) on which the Securities are or will likely be listed or traded on.

The Securities may also be issued without being admitted to trading, listed or traded on any regulated or other equivalent market, any other stock exchange, any other market and/or trading system.

Even if the Issuer makes such application there is no guarantee that this application will be granted or that an active trading will occur or develop. Furthermore, in case of an admission trading may only be single-sided (bid or ask prices).

**Potential investors**

The Securities may be offered to qualified investors and/or retail investors and/or institutional investors as stated in the Final Terms.

**Terms and conditions of the offer**

If applicable, the following details regarding the terms and conditions of the offer will be indicated in the Final Terms:

- (i) day of the first public offer;
- (ii) start of the new public offer;
- (iii) information about the continuance of a public offer of Securities which have already been issued;
- (iv) information about the increase of Securities which have already been issued;
- (v) the countr(y)(ies) where the offer(s) to the public takes place: the Czech Republic, France and/or Italy;
- (vi) smallest transferable and/or tradable unit;
- (vii) the conditions for the offer of the Securities;
- (viii) possibility of an early termination of the public offer;
- (ix) the condition for the offer in relation to an admission for trading prior to the Issue Date;
- (x) information on a consumer withdrawal right.

**Method and time limits for delivery of the Securities**

The Securities are delivered in terms of co-ownership of the Global Note which will be kept in custody in case of Securities governed by German law.

The Securities are delivered in terms of ownership of an account held with an account holder which is an intermediary opening an account with and adhering to the Clearing System in case of Securities governed by Italian law.

Delivery is provided for against payment or free of payment or any other delivery method as specified in the Final Terms.

## DESCRIPTION OF THE SECURITIES

### The Securities

Classical Warrants and Discount Warrants are issued as warrants (the "**Warrants**"). Turbo Securities, Turbo Open End Securities, X-Turbo Securities, X-Turbo Open End Securities and Mini Future Securities, COOL Securities, Inline Securities and Stay High/Stay Low Securities (the "**Knock-out Securities**") are issued as Certificates or Warrants. Warrants and Knock-out securities are described as "**Securities**".

The Securities are non-interest bearing.

### 1. Warrants

#### *Classical Warrants*

##### *Call Warrants - General information*

Call Warrants are Securities where Security Holders can participate disproportionately (leveraged) in the positive price development of the Underlying (the Security Holder expects rising prices of the Underlying). However, Security Holders also suffer disproportionate (leveraged) losses if the price of the Underlying falls. If the Relevant Reference Price is on or below the Strike, the Security Holders shall only be entitled to demand payment of the Minimum Amount which may also be close to zero or respectively zero. A total loss may occur.

The Relevant Reference Price means the Reference Price on the respective Valuation Date or Final Valuation Date. The Strike and the Minimum Amount will be specified in the respective Final Terms.

Call Warrants are Securities, where the payment depends on the Relevant Reference Price and is made at the level of the Differential Amount. In the case of European exercise the payment is made on the Final Payment Date after the Final Valuation Date. In the case of American exercise the payment is made on the Payment Date after the relevant Valuation Date.

##### *Call Warrants - Differential Amount*

The Differential Amount equals the difference between (i) the Relevant Reference Price and (ii) the Strike, multiplied by the Ratio.

The Ratio will be specified in the respective Final Terms. In the case of Compo Call Warrants a FX Exchange Rate, as specified in the Final Terms, will be applied when specifying the Differential Amount.

##### *Put Warrants - General information*

Put Warrants are Securities, where Security Holders can participate disproportionately (leveraged) in the reverse price development of the Underlying (the Security Holder expects falling prices of the Underlying). However, Security Holders also suffer disproportionate (leveraged) losses if the price of the Underlying rises. If the Relevant Reference Price is on or above the Strike, the Security Holders shall only be entitled to demand payment of the Minimum Amount which may also be close to zero or respectively zero. A total loss may occur.

The Relevant Reference Price means the Reference Price on the respective Valuation Date or Final Valuation Date. The Strike and the Minimum Amount will be specified in the respective Final Terms.

Put Warrants are Securities, where the payment depends on the Relevant Reference Price and is made at the level of the Differential Amount. In the case of the European exercise the payment is made on the Final Payment Date after the Final Valuation Date. In the case of the American exercise the payment is made on the Payment Date after the relevant Valuation Date.

*Put Warrants - Differential Amount*

The following applies with respect to the Differential Amount:

The Differential Amount equals the difference between (i) the Strike and (ii) the Relevant Reference Price, multiplied by the Ratio.

The Ratio will be specified in the respective Final Terms. In the case of Compo Put Warrants a FX Exchange Rate, as specified in the Final Terms, will be applied when specifying the Differential Amount.

*Call/Put Warrants - Minimum Amount*

The Differential Amount is in no case lower than the Minimum Amount.

*Call/Put Warrants - Exercise*

Warrants with European exercise are Warrants which are automatically exercised on the Final Valuation Date. Warrants with European exercise cannot be exercised by the Security Holders before the Final Valuation Date.

Warrants with American exercise are Warrants which may be exercised on each Trading Day within the Exercise Period. If Warrants with American exercise are not exercised during the Exercise Period, then the Warrants will be automatically exercised on the Final Valuation Date.

Upon the occurrence of a Call Event the Issuer may call and redeem the Securities early at their Cancellation Amount.

***Discount Warrants****General information*

Discount Warrants are Securities whose price upon issue is lower than the price for a Classical Warrant with the same term, Underlying, Strike and Ratio. In return for this discount, the Security Holder will benefit during the term of the Securities from the price development of the Underlying only up to the Maximum Amount. The Strike, the Ratio and the Maximum Amount will be specified in the respective Final Terms.

*Call Discount Warrants - General information*

Call Discount Warrants are Securities, where Security Holders can participate disproportionately (leveraged) in the positive price development of the Underlying (the Security Holder expects rising prices of the Underlying). However, Security Holders also suffer disproportionate (leveraged) losses if the price of the Underlying falls. If the Relevant Reference Price is on or below the Strike, the Security Holders shall only be entitled to demand payment of the Minimum Amount which may also be close to zero or respectively zero. A total loss may occur.

The Relevant Reference Price means the Reference Price on the Final Valuation Date. The Strike and the Minimum Amount will be specified in the respective Final Terms.

Call Discount Warrants are Securities, where the payment on the Final Payment Date depends on the Relevant Reference Price on the Final Valuation Date and is made at the level of the Differential Amount. The Differential Amount is not greater than the Maximum Amount.

*Call Discount Warrants - Differential Amount*

The Differential Amount equals the difference between (i) the Relevant Reference Price and (ii) the Strike, multiplied by the Ratio.

The Ratio will be specified in the respective Final Terms. In the case of Compo Call Discount Warrants a FX Exchange Rate, as specified in the Final Terms, will be applied when specifying the Differential Amount.

The Differential Amount is not lower than the Minimum Amount and not greater than the Maximum Amount.

*Put Discount Warrants - General information*

Put Discount Warrants are Securities, where Security Holders can participate disproportionately (leveraged) in the reverse price development of the Underlying (the Security Holder expects falling prices of the Underlying). However, Security Holders also suffer disproportionate (leveraged) losses if the price of the Underlying rises. If the Relevant Reference Price is on or above the Strike, the Security Holders shall only be entitled to demand payment of the Minimum Amount which may also be close to zero or respectively zero. A total loss may occur.

The Relevant Reference Price means the Reference Price on the Final Valuation Date. The Strike and the Minimum Amount will be specified in the respective Final Terms.

Put Discount Warrants are Securities, where the payment on the Final Payment Date depends on the Relevant Reference Price on the Final Valuation Date and is made at the level of the Differential Amount. The Differential Amount is not greater than the Maximum Amount.

*Put Discount Warrants - Differential Amount*

The Differential Amount equals the difference between (i) the Strike and (ii) the Relevant Reference Price, multiplied by the Ratio.

The Ratio will be specified in the respective Final Terms. In the case of Compo Put Discount Warrants a FX Exchange Rate, as specified in the Final Terms, will be applied when specifying the Differential Amount.

The Differential Amount is not lower than the Minimum Amount and not greater than the Maximum Amount.

*Call Discount/Put Discount Warrants - Minimum Amount*

The Differential Amount is in no case lower than the Minimum Amount.

*Call Discount/Put Discount Warrants - Maximum Amount*

The Differential Amount is in no case greater than the Maximum Amount.

*Call Discount/Put Discount Warrants - Exercise*

Discount Warrants are Warrants which are automatically exercised on the Final Valuation Date. Call or Put Discount Warrants cannot be exercised by the Security Holders before the Final Valuation Date.

Upon the occurrence of a Call Event the Issuer may call and redeem the Securities early at their Cancellation Amount.

## **2. Knock-out Securities**

### ***Turbo Securities***

*Call Turbo Securities - General information*

Call Turbo Securities are Securities, where Security Holders can participate disproportionately (leveraged) in the positive price development of the Underlying (the Security Holder expects rising prices of the Underlying). However, Security Holders also suffer disproportionate (leveraged) losses if the price of the Underlying falls. If the price of the Underlying is on or below the Knock-out Barrier at any time during the Knock-out Period or the Relevant Period, as specified in the Final Terms ("**Knock-out Event**"), the term of the Security will end immediately and Security Holders will only receive the Knock-out Amount which may also be close to zero or respectively zero. A total loss may occur. The observation, if a Knock-out Event has occurred,

may be limited to a Relevant Period. If applicable, the Relevant Period will be specified in the relevant Final Terms.

The Knock-out Period, the Knock-out Barrier and the Knock-out Amount will be specified in the respective Final Terms.

Call Turbo Securities are Securities, where the payment on the Final Payment Date depends on the Relevant Reference Price on the Final Valuation Date and is made at the level of the Differential Amount, unless a Knock-out Event has occurred. If the Relevant Reference Price is on or below the Strike, the Security Holders shall only be entitled to demand payment of the Minimum Amount which may also be close to zero or respectively zero. A total loss may occur.

The Relevant Reference Price means the Reference Price on the Final Valuation Date. The Strike and the Minimum Amount will be specified in the respective Final Terms.

*Call Turbo Securities - Differential Amount*

If no Knock-out Event has occurred, the following applies with respect to the Differential Amount:

The Differential Amount equals the difference between (i) the Relevant Reference Price and (ii) the Strike, multiplied by the Ratio.

The Ratio will be specified in the respective Final Terms. In the case of Compo Call Turbo Securities a FX Exchange Rate, as specified in the Final Terms, will be applied when specifying the Differential Amount.

If a Knock-out Event has occurred, payment shall occur prematurely at the Knock-out Amount.

*Put Turbo Securities - General information*

Put Turbo Securities are Securities, where Security Holders can participate disproportionately (leveraged) in the reverse price development of the Underlying (the Security Holder expects falling prices of the Underlying). However, Security Holders also suffer disproportionate (leveraged) losses if the price of the Underlying rises. If the price of the Underlying is on or above the Knock-out Barrier at any time during the Knock-out Period or the Relevant Period, as specified in the Final Terms (“**Knock-out Event**”), the term of the Security will end immediately and Security Holders will only receive the Knock-out Amount which may also be close to zero or respectively zero. A total loss may occur. The observation, if a Knock-out Event has occurred, may be limited to a Relevant Period. If applicable, the Relevant Period will be specified in the relevant Final Terms.

The Knock-out Period, the Knock-out Barrier and the Knock-out Amount will be specified in the respective Final Terms.

Put Turbo Securities are Securities, where the payment on the Final Payment Date depends on the Relevant Reference Price on the Final Valuation Date and is made at the level of the Differential Amount, unless a Knock-out Event has occurred. If the Relevant Reference Price is on or above the Strike, the Security Holders shall only be entitled to demand payment of the Minimum Amount which may also be close to zero or respectively zero. A total loss may occur.

The Relevant Reference Price means the Reference Price on the Final Valuation Date. The Strike and the Minimum Amount will be specified in the respective Final Terms.

*Put Turbo Securities - Differential Amount*

If no Knock-out Event has occurred, the following applies with respect to the Differential Amount:

The Differential Amount equals the difference between (i) the Strike and (ii) the Relevant Reference Price, multiplied by the Ratio.

The Ratio will be specified in the respective Final Terms. In the case of Compo Put Turbo Securities a FX Exchange Rate, as specified in the Final Terms, will be applied when specifying the Differential Amount.

If a Knock-out Event has occurred, payment shall occur prematurely at the Knock-out Amount.

*Call/Put Turbo Securities - Exercise*

Call/Put Turbo Securities are Securities that are automatically exercised on the Final Valuation Date. These Securities cannot be exercised by Security Holders prior to the Final Valuation Date.

*Call/Put Turbo Securities - Minimum Amount*

The Differential Amount is in no case lower than the Minimum Amount.

Upon the occurrence of a Call Event the Issuer may call and redeem the Securities early at their Cancellation Amount.

***Turbo Open End Securities***

*Call Turbo Open End Securities - General information*

Call Turbo Open End Securities are Securities where Security Holders can participate disproportionately (leveraged) in the positive price development of the Underlying (the Security Holder expects rising prices of the Underlying). However, Security Holders also suffer disproportionate (leveraged) losses if the price of the Underlying falls. Security Holders can realise profits (with the consequence that a subsequent, from their point of view, adverse performance in the price of the Underlying no longer affects them), by exercising their Exercise Right. The Issuer can, by exercising its Regular Call Right, force Security Holders to realise losses (with the consequence that they do not longer benefit from a subsequent, from their point of view, advantageous performance in the price of the Underlying). If the price of the Underlying is on or below the Knock-out Barrier at any time starting at the First Trade Date ("**Knock-out Event**"), the term of the Security will end immediately and Security Holders will only receive the Knock-out Amount which may also be close to zero or respectively zero. A total loss may occur. The observation, if a Knock-out Event has occurred, may be limited to a Relevant Period. If applicable, the Relevant Period will be specified in the relevant Final Terms.

The Knock-out Amount will be specified in the respective Final Terms.

The Knock-out Barrier corresponds at any time to the Strike. The Strike will be adjusted on a daily Basis. The method for adjustment of the Strike and the Initial Strike will be specified in the respective Final Terms.

Call Turbo Open End Securities are Securities where the payment on the respective Payment Date depends on the Relevant Reference Price on the relevant Valuation Date and is made at the level of the Differential Amount, unless a Knock-out Event occurs. If the Relevant Reference Price is on or below the Strike, the Security Holders shall only be entitled to demand payment of the Minimum Amount which may also be close to zero or respectively zero. A total loss may occur.

The Relevant Reference Price means the Reference Price on the respective Valuation Date. The Minimum Amount will be specified in the respective Final Terms.

*Call Turbo Open End Securities - Differential Amount*

If no Knock-out Event has occurred, the following applies with respect to the Differential Amount:

The Differential Amount equals the difference between (i) the Relevant Reference Price and (ii) the Strike, multiplied by the Ratio.

The Ratio will be specified in the respective Final Terms. In the case of Compo Call Turbo Open End Securities a FX Exchange Rate, as specified in the Final Terms, will be applied when specifying the Differential Amount.

If a Knock-out Event has occurred, payment shall occur prematurely at the Knock-out Amount.

*Put Turbo Open End Securities – General information*

Put Turbo Open End Securities are Securities where Security Holders can participate disproportionately (leveraged) in the reverse price development of the Underlying (the Security Holder expects falling prices of the Underlying). However, Security Holders also suffer disproportionate (leveraged) losses when the price of the Underlying rises. Security Holders can realise profits (with the consequence that a subsequent, from their point of view, adverse performance in the price of the Underlying no longer affects them) by exercising their Exercise Right. The Issuer can, by exercising its Regular Call Right, force Security Holders to realise losses (with the consequence that they do not longer benefit from a subsequent, from their point of view, advantageous performance in the price of the Underlying). If the price of the Underlying is on or above the Knock-out Barrier at any time starting at the First Trade Date ("**Knock-out Event**"), the term of the Security will end immediately and Security Holders will only receive the Knock-out Amount which may also be close to zero or respectively zero. A total loss may occur. The observation, if a Knock-out Event has occurred, may be limited to a Relevant Period. If applicable, the Relevant Period will be specified in the relevant Final Terms.

The Knock-out Amount will be specified in the respective Final Terms.

The Knock-out Barrier corresponds at any time to the Strike. The Strike will be adjusted on a daily Basis. The method for adjustment of the Strike and the Initial Strike will be specified in the respective Final Terms.

Put Turbo Open End Securities are Securities where the payment on the respective Payment Date depends on the Relevant Reference Price at the Relevant Valuation Date and is made at the level of the Differential Amount, unless a Knock-out Event has occurred. If the Relevant Reference Price is on or above the Strike, the Security Holders shall only be entitled to demand payment of the Minimum Amount which may also be close to zero or respectively zero. A total loss may occur.

The Relevant Reference Price means the Reference Price on the respective Valuation Date. The Strike and the Minimum Amount will be specified in the respective Final Terms.

*Put Turbo Open End Securities - Differential Amount*

If no Knock-out Event has occurred, the following applies with respect to the Differential Amount:

The Differential Amount equals the difference between (i) the Strike and (ii) the Relevant Reference Price, multiplied by the Ratio.

The Ratio will be specified in the respective Final Terms. In the case of Compo Put Turbo Open End Securities a FX Exchange Rate, as specified in the Final Terms, will be applied when specifying the Differential Amount.

If a Knock-out Event has occurred, payment shall occur prematurely at the Knock-out Amount.

*Call/Put Turbo Open End Securities - Minimum Amount*

The Differential Amount is in no case lower than the Minimum Amount.

*Exercise Right and Regular Call Right*

The Securities do not have a fixed period. Instead they run for an indefinite period unless the Security Holder exercises its Exercise Right or the Issuer exercises its Regular Call Right. Security Holders can exercise the Securities on any Exercise Date. The Issuer can exercise its Regular Call

Right on any Exercise Date and call the Securities in whole but not in part. After exercise of the above-mentioned rights, Security Holders will be entitled to payment of the Differential Amount five Banking Days after the relevant Valuation Date.

The Issuer may exercise its Regular Call Right without taking into account the economic impact on the Securities Holders. Following such exercise, the remaining term of the Securities is limited and the Securities Holders may suffer a partial or full loss of their capital invested.

Upon the occurrence of a Call Event the Issuer may call and redeem the Securities early at their Cancellation Amount.

### ***X-Turbo Securities***

#### *Call X-Turbo Securities - General information*

Call X-Turbo Securities are Securities, where Security Holders participate disproportionately (leveraged) of the positive price development of the Underlyings (the Security Holder expects rising prices of the Underlyings). However, Security Holders also suffer disproportionate (leveraged) losses when the price of the Underlyings falls. If the price of the Underlying<sub>1</sub> or the Underlying<sub>2</sub> is on or below the Knock-out Barrier at any time during the Knock-out Period or the Relevant Period, as specified in the Final Terms ("**Knock-out Event**"), the term of the Security will end immediately and Security Holders will only receive the Knock-out Amount which may also be close to zero or respectively zero. In the case of Call X-Turbo Securities, two indices, which refer to the same market but are calculated and published at different times, will be observed. The observation, if a Knock-out Event has occurred, may be limited to a Relevant Period. If applicable, the Relevant Period will be specified in the relevant Final Terms.

A total loss may occur.

The Knock-out Period, the Knock-out Barrier and the Knock-out Amount will be specified in the respective Final Terms.

Call X-Turbo Securities are Securities where the payment on the Final Payment Date depends on the Relevant Reference Price of Underlying<sub>1</sub> at the Final Valuation Date and is made at the level of the Differential Amount, unless a Knock-out Event has occurred. A total loss may occur. The observation regarding the occurrence of a Knock-out Event may be limited to a Relevant Period. The Relevant Period, as the case may be, will be specified in the respective Final Terms.

The Knock-out Barrier will be adjusted on a regularly Basis. The method for adjustment of the Knock-out Barrier and the Initial Knock-out Barrier will be specified in the respective Final Terms.

Call Mini Futures are Securities where the payment on the Payment Date depends on the Relevant Reference Price at the Relevant Valuation Date and is made at the level of the Differential Amount, unless a Knock-out Event has occurred. If the Relevant Reference Price is on or below the Strike, the Security Holders shall only be entitled to demand payment of the Minimum Amount which may also be close to zero or respectively zero. A total loss may occur.

The Relevant Reference Price means the Reference Price on the respective Valuation Date. The Minimum Amount will be specified in the respective Final Terms. The Strike will be adjusted on the daily basis. The method for adjustment of the Strike and the Initial Strike will be specified in the respective Final Terms.

*Call Mini Futures Securities - Differential Amount*

If no Knock-out Event has occurred, the following applies with respect to the Differential Amount:

The Differential Amount equals the difference between (i) the Relevant Reference Price and (ii) the Strike, multiplied by the Ratio.

The Ratio will be specified in the respective Final Terms. In the case of Compo Call Mini Futures Securities a FX Exchange Rate, as specified in the Final Terms, will be applied when specifying the Differential Amount.

If a Knock-out Event has occurred, payment shall occur prematurely at the Knock-out Amount.

*Call Mini Future Securities - Knock-out Amount*

If a Knock-out Event has occurred, the following applies with respect to the Knock-out Amount:

The Knock-out Amount corresponds to the amount by which the Exercise Price exceeds the Strike multiplied by the Ratio. However, the Knock-out Amount is not lower than the Minimum Amount. The method for determining the Exercise Price will be specified in the respective Final Terms. In the case of Compo Call Mini Futures Securities a FX Exchange Rate, as specified in the Final Terms, will be applied when specifying the Knock-out Amount.

*Put Mini Futures Securities - General information*

Put Mini Future Securities are Securities where Security Holders can participate disproportionately (leveraged) in the reverse price development of the Underlying (the Security Holder expects falling prices of the Underlying). However, Security Holders also suffer disproportionate (leveraged) losses if the price of the Underlying rises. Security Holder can realise profits (with the consequence that a subsequent, from their point of view, adverse performance in the price of the Underlying no longer affects them) by exercising their Call Right. The Issuer can, by exercising its Regular Call Right force Security Holders to realise losses (with the consequence that they do not longer benefit from a subsequent, from their point of view, advantageous performance in the price of the Underlying). If the price of the Underlying is on or above the Knock-out Barrier at any time starting at the First Trade Date ("**Knock-out Event**"), the term of the Security will end immediately and Security Holders will only receive the Knock-out Amount which may also be close to zero or respectively zero. A total loss may occur. The observation regarding the occurrence of a Knock-out Event may be limited to a Relevant Period. The Relevant Period, as the case may be, will be specified in the respective Final Terms.

The Knock-out Barrier will be adjusted on a regularly Basis. The method for adjustment of the Knock-out Barrier and the Initial Knock-out Barrier will be specified in the respective Final Terms.

Put Mini Futures are Securities where the payment on the Payment Date depends on the Relevant Reference Price at the Relevant Valuation Date and is made at the level of the Differential Amount, unless a Knock-out Event has occurred. If the Relevant Reference Price is on or above

the Strike, the Security Holders shall only be entitled to demand payment of the Minimum Amount which may also be close to zero or respectively zero. A total loss may occur.

The Relevant Reference Price means the Reference Price on the respective Valuation Date. The Minimum Amount will be specified in the respective Final Terms. The Strike will be adjusted on the daily basis. The method for adjustment of the Strike and the Initial Strike will be specified in the respective Final Terms.

*Put Mini Futures Securities - Differential Amount*

If no Knock-out Event has occurred, the following applies with respect to the Differential Amount:

The Differential Amount equals the difference between (i) the Strike and (ii) the Relevant Reference Price, multiplied by the Ratio.

The Ratio will be specified in the respective Final Terms. In the case of Compo Put Mini Futures Securities a FX Exchange Rate, as specified in the Final Terms, will be applied when specifying the Differential Amount.

If a Knock-out Event has occurred, payment shall occur prematurely at the Knock-out Amount.

*Put Mini Future Securities - Knock-out Amount*

If a Knock-out Event has occurred, the following applies with respect to the Knock-out Amount:

The Knock-out Amount corresponds to the amount by which the Exercise Price falls short of the Strike, multiplied by the Ratio. However, the Knock-out Amount is not lower than the Minimum Amount. The method for determining the Exercise Price will be specified in the respective Final Terms. In the case of Compo Put Mini Futures Securities a FX Exchange Rate, as specified in the Final Terms, will be applied when specifying the Knock-out Amount.

*Call/Put Mini Futures Securities - Minimum Amount*

The Differential Amount and the Knock-out Amount are in no case lower than the Minimum Amount.

*Exercise Right and Regular Call Right*

The Securities do not have a fixed period. Instead they run for an indefinite period unless the Security Holder exercises its Exercise Right or the Issuer exercises its Regular Call Right. Security Holders can exercise their Exercise Right on any Exercise Date. The Issuer can exercise its Regular Call Right on any Exercise Date and may call the Securities in whole but not in part. After exercise of the above-mentioned rights, Security Holders will be entitled to payment of the Differential Amount five Banking Days after the Relevant Valuation Date.

The Issuer may exercise its Regular Call Right without taking into account the economic impact on the Securities Holders. Following such exercise, the remaining term of the Securities is limited and the Securities Holders may suffer a partial or full loss of their capital invested.

Upon the occurrence of a Call Event the Issuer may call and redeem the Securities early at their Cancellation Amount.

***COOL Securities***

*General*

COOL Securities reflect the price development of the Underlying and allow the Security Holders to participate in a positive or in a negative development of the price of the Underlying during the term of the Securities. A change in the price of the Underlying may have a disproportionate (leveraged) effect on the price of the Securities.

Call COOL Securities are Securities, where Security Holders participate in the price development of the Underlying (the Security Holder expects rising prices of the Underlying). If the price of the Underlying rises, subject to the influence of other price influencing factors, the price of the Security rises. If the price of the Underlying falls, subject to the influence of other price influencing factors, also the price of the Security falls.

Put COOL Securities are Securities, where Security Holders participate in the inverse price development of the Underlying (the Security Holder expects falling prices of the Underlying). If the price of the Underlying falls, subject to the influence of other price influencing factors, the price of the Security rises. If the price of the Underlying rises, subject to the influence of other price influencing factors, the price of the Security falls.

#### *Redemption*

Redemption will be made on the Final Payment Date in the amount of the Differential Amount.

If, in the case of Call COOL Securities, the Relevant Reference Price is on or below the Strike, the Differential Amount is equal to the Minimum Amount.

If, in the case of Put COOL Securities, the Relevant Reference Price is on or above the Strike, the Differential Amount is equal to the Minimum Amount.

The Relevant Reference Price is the Reference Price on the Final Valuation Date. The Strike will be specified in the relevant Final Terms.

The Minimum Amount will be specified in the relevant Final Terms and may be close to zero or be zero.

If no Knock-out Event has occurred, on the Final Payment Date Security Holders will also receive payment of the COOL Amount.

If a Knock-out Event has occurred, a total loss may occur.

#### *Knock-out Event*

In the case of Call COOL Securities a Knock-out Event has occurred, if the price of the Underlying with continuous observation during the Knock-out Period at any time is on or below the Knock-out Barrier.

In the case of Put COOL Securities a Knock-out Event has occurred, if the price of the Underlying with continuous observation during the Knock-out Period at any time is on or above the Knock-out Barrier.

The Knock-out Period and the Knock-out Barrier will be specified in the relevant Final Terms.

The observation, if a Knock-out Event has occurred, may be limited to a Relevant Period. If applicable, the Relevant Period will be specified in the relevant Final Terms.

#### *Differential Amount*

In the case of Call COOL Securities, the Differential Amount equals the difference between (i) the Relevant Reference Price and (ii) the Strike, multiplied by the Ratio.

In the case of Put COOL Securities, the Differential Amount equals the difference between (i) the Strike and (ii) the Relevant Reference Price, multiplied by the Ratio.

The Ratio will be specified in the relevant Final Terms.

In the case of Compo Call and Compo Put COOL Securities one or two FX Exchange Rates will be applied when specifying the Differential Amount.

#### *Call/Put COOL Securities - Minimum Amount*

The Differential Amount is not lower than the Minimum Amount.

*Exercise*

COOL Securities are automatically exercised on the Final Valuation Date. They cannot be exercised by the Security Holders before the Final Valuation Date.

Upon the occurrence of a Call Event the Issuer may call and redeem the Securities early at their Cancellation Amount.

*Inline Securities**General*

Inline Securities are Securities which will be redeemed on the Final Payment Date by payment of the Redemption Amount, provided that no Knock-out Event has occurred during the Knock-out Period. The Redemption Amount will be specified in the relevant Final Terms.

If no Knock-out Event has occurred, Security Holders may, depending on prevailing market conditions, participate direct proportionally as well as contrariwise in the price development of the Underlying. A change in the price of the Underlying may have a disproportionate (leveraged) effect on the price of the Securities.

If the price of the Underlying is at any time during the Knock-out Period closer to the Lower Knock-out Barrier than to the Upper Knock-out Barrier, subject to the influence of other price influencing factors, rising prices of the Underlying lead to rising prices of the Inline Security. If the price of the Underlying is at any time during the Knock-out Period closer to the Upper Knock-out Barrier than to the Lower Knock-out Barrier this effect inverts and, subject to the influence of other price influencing factors, rising prices of the Underlying lead to falling prices of the Inline Security. In the case of falling prices of the Underlying, it is contrary to this effect. Thus, generally spoken, the price of the Security is at its maximum if the price of the Underlying is at the middle of the Upper and the Lower Knock-out Barrier.

However, the value of Inline Securities is limited to the maximum of the Redemption Amount.

*Knock-out Event*

If at any time during the Knock-out Period a Knock-out Event has occurred, the term of the Securities ends and the Security Holders only receive payment of the Knock-out Amount, which may be close to zero or be zero. A total loss is possible. The Knock-out Period and the Knock-out Amount will be specified in the relevant Final Terms.

A Knock-out Event (the "**Knock-out Event**") has occurred if the price of the Underlying during the Knock-out Period at any time is on or below the Lower Knock-out Barrier or on or above the Upper Knock-out Barrier. The Lower Knock-out Barrier and the Upper Knock-out Barrier will be specified in the relevant Final Terms. The observation, if a Knock-out Event has occurred, may be limited to a Relevant Period. If applicable, the Relevant Period will be specified in the relevant Final Terms.

*Inline Securities - Exercise*

Inline Securities are automatically exercised on the Final Valuation Date. They Securities cannot be exercised by the Security Holders before the Final Valuation Date.

Upon the occurrence of a Call Event the Issuer may call and redeem the Securities early at their Cancellation Amount.

*Stay High/Stay Low Securities**General*

Stay High/Stay Low Securities are Securities which will be redeemed on the Final Payment Date by payment of the Redemption Amount, provided that no Knock-out Event has occurred during the Knock-out Period. The Redemption Amount will be specified in the relevant Final Terms.

If no Knock-out Event has occurred, Security Holders may participate in a positive or in a negative price development of the Underlying. A change in the price of the Underlying may have a disproportionate (leveraged) effect on the price of the Securities.

In the case of Stay High Securities, subject to the influence of other price influencing factors, rising prices of the Underlying lead to rising prices of the Stay High Security. If the price of the Underlying falls, it has the opposite effect.

In the case of Stay Low Securities, subject to the influence of other price influencing factors, rising prices of the Underlying lead to falling prices of the Stay Low Security. If the price of the Underlying falls, it has the opposite effect.

However, the value of Stay High/Stay Low Securities is limited to the maximum of the Redemption Amount.

*Knock-out Event*

If at any time during the Knock-out Period a Knock-out Event has occurred, the term of the Securities ends and the Security Holders only receive payment of the Knock-out Amount, which may be close to zero or be zero. A total loss is possible. The Knock-out Period and the Knock-out Amount will be specified in the relevant Final Terms.

A Knock-out Event (the "**Knock-out Event**") has occurred if the price of the Underlying during the Knock-out Period at any time is on or below the Knock-out Barrier (in the case of Stay High Securities) or on or above the Knock-out Barrier (in the case of Stay Low Securities). The Knock-out Barrier will be specified in the relevant Final Terms. The observation, if a Knock-out Event has occurred, may be limited to a Relevant Period. If applicable, the Relevant Period will be specified in the relevant Final Terms.

*Exercise*

Stay High/Stay Low Securities are automatically exercised on the Final Valuation Date. The Securities cannot be exercised by the Security Holders before the Final Valuation Date.

Upon the occurrence of a Call Event the Issuer may call and redeem the Securities early at their Cancellation Amount.

## CONDITIONS OF THE SECURITIES

### *General Information*

Under this Base Prospectus, Securities can be newly offered or listed on a stock exchange. In either case, Part A – General Conditions of the Securities (the "**General Conditions**") must be read together with Part B – Product and Underlying Data (the "**Product and Underlying Data**") as well as Part C – Special Conditions of the Securities (the "**Special Conditions**") (together, the "**Conditions**").

The Special Conditions are divided into the Special Conditions which apply for particular product types and Special Conditions which apply for all product types.

A completed version of the Conditions describes the terms and conditions of the respective Tranche of Securities (the "**Terms and Conditions**") which are part of the relevant Global Note in case of Securities governed by German law.

For each Tranche of Securities the Final Terms will be published as a separate document and will contain:

- (a) either (i) a consolidated version of the General Conditions<sup>\*)</sup> or (ii) information on the relevant options contained in the General Conditions<sup>\*\*)</sup>,
- (b) a consolidated version of the Product and Underlying Data,
- (c) a consolidated version of the Special Conditions,

reflecting the Terms and Conditions of the Securities.

<sup>\*)</sup> In case of consolidated General Conditions in the Final Terms, such consolidated General Conditions will be part of the relevant Final Terms and such consolidated General Conditions will be filed with or sent to any competent authority.

<sup>\*\*)</sup> In case of non-consolidated General Conditions in the Final Terms, upon request, a consolidated version of the General Conditions may be delivered together with the relevant Final Terms. Such consolidated General Conditions will not be part of the relevant Final Terms, neither as an annex nor as an integral part of the Final Terms and such consolidated General Conditions will not be filed with or sent to any competent authority.

*Part A – General Conditions of the Securities*

**PART A - GENERAL CONDITIONS OF THE SECURITIES**

(the "**General Conditions**")

[Option 1: In the case of Securities governed by German law, the following applies:

**§ 1**

**Form, Clearing System[, Global Note, Custody]**

- (1) *Form:* This tranche (the "**Tranche**") of securities (the "**Securities**") of UniCredit Bank AG (the "**Issuer**") will be issued as non-par value [warrants] [certificates] in bearer form pursuant to these Terms and Conditions in the Specified Currency.
- (2) *Global Note:* The Securities are represented by a global note (the "**Global Note**") without interest coupons, which bears the manual or facsimile signatures of two authorised signatories of the Issuer [In the case of an Issuing Agent, the following applies: as well as the manual signature of a control officer of the Issuing Agent]. The Security Holders are not entitled to receive definitive Securities. The Securities as co-ownership interests in the Global Note may be transferred pursuant to the relevant regulations of the Clearing System.

[In the case of Securities where CBF is specified in the Final Terms as Clearing System, the following applies:

- (3) *Custody:* The Global Note will be kept in custody by Clearstream Banking AG, Frankfurt am Main ("**CBF**").]

[In the case of Securities where CBL and Euroclear Bank is specified in the Final Terms as Clearing System, the following applies:

- (3) *Custody:* The Global Notes will be issued in classical global note form and will be kept in custody by a common depository on behalf of both ICSDs.]

[In the case of Securities where Euroclear France is specified in the Final Terms as Clearing System, the following applies:

- (3) *Custody:* The Global Note will be kept in custody by or on behalf of the Clearing System.]

[In the case of Securities where Euroclear Bank or another Clearing System is specified in the Final Terms, the following applies:

- (3) *Custody:* The Global Note will be kept in custody by or on behalf of the Clearing System.]

## § 2

**Principal Paying Agent, Paying Agent, Calculation Agent**

- (1) *Paying Agents:* The "**Principal Paying Agent**" is [UniCredit Bank AG, Arabellastraße 12, 81925 Munich, Germany] [Citibank, N.A., London Branch, Citigroup Centre, Canada Square, Canary Wharf, London E14 5LB, United Kingdom] [*Insert name and address of other paying agent*]. [The French Paying Agent for Euroclear France S.A. is CACEIS Bank S.A., 1-3 rue place Valhubert, 75206 Paris Cedex 13, France (the "**French Paying Agent**").] The Issuer may appoint additional paying agents (the "**Paying Agents**") and revoke such appointment. The appointment and revocation shall be published pursuant to § 6 of the General Conditions.
- (2) *Calculation Agent:* The "**Calculation Agent**" is [UniCredit Bank AG, Arabellastraße 12, 81925 Munich] [*Insert name and address of other calculation agent*].
- (3) *Transfer of functions:* Should any event occur which results in the Principal Paying Agent[, French Paying Agent] or Calculation Agent being unable to continue in its function as Principal Paying Agent[, French Paying Agent] or Calculation Agent, the Issuer is obliged to appoint another bank of international standing as Principal Paying Agent[, French Paying Agent] or another person or institution with the relevant expertise as Calculation Agent. Any such transfer of the functions of the Principal Paying Agent[, French Paying Agent] or Calculation Agent shall be notified by the Issuer without undue delay pursuant to § 6 of the General Conditions.
- (4) *Agents of the Issuer:* In connection with the Securities, the Principal Paying Agent[, the French Paying Agent], the Paying Agents and the Calculation Agent act solely as agents of the Issuer and do not assume any obligations towards or relationship of agency or trust for or with any of the Security Holders. The Principal Paying Agent[, the French Paying Agent] and the Paying Agents shall be exempt from the restrictions of § 181 German Civil Code (*Bürgerliches Gesetzbuch*, "**BGB**").

## § 3

**Taxes**

*No gross up:* Payments in respect of the Securities shall only be made after deduction and withholding of current or future taxes, to the extent that such deduction or withholding is required by law. In this regard the term "**Taxes**" includes taxes, levies or governmental charges, regardless of their nature, which are imposed, levied or collected under any applicable system of law or in any country which claims fiscal jurisdiction by or for the account of any political subdivision thereof or government agency therein authorised to levy Taxes, including a withholding tax pursuant to Section 871(m) of the United States Internal Revenue Code of 1986 ("**871(m) Withholding Tax**").

The Issuer shall in any case be entitled to take into consideration the 871(m) Withholding Tax by applying the maximum tax rate as a flat rate (plus value added tax, if applicable). In no case the Issuer is obliged to compensate with respect to any Taxes deducted or withheld.

The Issuer shall report on the deducted and withheld Taxes to the competent government agencies, except, these obligations are imposed upon any other person involved, subject to the legal and contractual requirements of the respective applicable tax rules.

§ 4

**Status**

The obligations under the Securities constitute direct, unconditional and unsecured obligations of the Issuer and rank, unless provided otherwise by law, *pari passu* with all other unsecured unsubordinated present and future obligations of the Issuer.

§ 5

**Substitution of the Issuer**

- (1) The Issuer may without the consent of the Security Holders, if no payment of principal or interest on any of the Securities is in default, at any time substitute the Issuer for any Affiliate of the Issuer as principal debtor in respect of all obligations of the Issuer under the Securities (the "**New Issuer**"), provided that
  - (a) the New Issuer assumes all obligations of the Issuer in respect of the Securities,
  - (b) the Issuer and the New Issuer have obtained all necessary authorizations and may transfer to the Principal Paying Agent in the currency required hereunder and without being obligated to deduct or withhold taxes or other duties of whatever nature levied by the country, in which the New Issuer or the Issuer has its domicile or tax residence, all amounts required for the fulfilment of the payment obligations arising under the Securities,
  - (c) the New Issuer has agreed to indemnify and hold harmless each Security Holder against any tax, duty or other governmental charge imposed on such Security Holder in respect of such substitution and
  - (d) the Issuer guarantees proper payment of the amounts due under these Terms and Conditions.

For purposes of this § 5 (1) "**Affiliate**" means an affiliated company (*verbundenes Unternehmen*) within the meaning of Section 15 of the German Stock Corporation Act (*Aktiengesetz*).

- (2) *Notice:* Any such substitution shall be notified in accordance with § 6 of the General Conditions.
- (3) *References:* In the event of any such substitution, any reference in these Terms and Conditions to the Issuer shall be deemed to refer to the New Issuer. Furthermore, any reference to the country, in which the Issuer is domiciled or resident for taxation purposes shall be deemed to refer to the country of domicile or residence for taxation purposes of the New Issuer.

**§ 6**

**Notices**

- (1) To the extent these Terms and Conditions provide for a notice pursuant to this § 6, these will be published on the Website for Notices (or another website communicated by the Issuer with at least six weeks advance notice in accordance with these provisions) and become effective vis-à-vis the Security Holders through such publication unless the notice provides for a later effective date. If and to the extent that binding provisions of effective law or stock exchange provisions provide for other forms of publication, such publications must be made in addition and as provided for.

Other publications with regard to the Securities are published on the Website of the Issuer (or any successor website, which is notified by the Issuer in accordance with the above paragraph).

- (2) In addition, the Issuer may deliver all notices concerning the Securities to the Clearing System for communication by the Clearing System to the Security Holders. Any such notice shall be deemed to have been given to the Security Holders on the [seventh] [●] day after the day on which the said notice was given to the Clearing System.

For the avoidance of doubt, any notice published on the Website for Notices which has become effective shall prevail the notice via the Clearing System.

**§ 7**

**Issuance of additional Securities, Repurchase**

- (1) *Issuance of additional Securities:* The Issuer reserves the right from time to time without the consent of the Security Holders to issue additional Securities with identical terms and conditions (except for the issue date and the issue price), so that the same shall be consolidated and form a single series (the "**Series**") with this Tranche. The term "*Securities*" shall, in the event of such increase, also comprise all additionally issued Securities.
- (2) *Repurchase:* The Issuer shall be entitled at any time to purchase Securities in the market or otherwise and at any price. Securities repurchased by the Issuer may, at the Issuer's discretion, be held, resold or forwarded to the Principal Paying Agent for cancellation.

**§ 8**

**Presentation Period**

The presentation period provided in § 801 paragraph 1 sentence 1 BGB is reduced to ten years for the Securities.

**§ 9**

**Partial Invalidity, Corrections**

- (1) *Invalidity:* Should any provision of these Terms and Conditions be or become invalid or unenforceable in whole or in part, the remaining provisions are not affected thereby. Any gap arising as a result of invalidity or unenforceability of these Terms and Conditions is to be filled with a provision that corresponds to the meaning and intent of these Terms and Conditions and is in the interest of the parties.
- (2) *Typing and calculation errors:* Obvious typing and calculation errors or similar obvious errors in these Terms and Conditions entitle the Issuer to rescission vis-à-vis the Security Holders. The rescission must be declared without undue delay upon obtaining knowledge

of such cause for rescission in accordance with § 6 of the General Conditions. Following such rescission by the Issuer, the Security Holder can instruct his depository bank to submit a duly completed redemption declaration to the Principal Paying Agent on a form available there and by giving all information and declarations required by the form (the "**Redemption Declaration**") and demand the refunding of the Acquisition Price against transfer of the Securities to the account of the Principal Paying Agent with the Clearing System. The Issuer will until at the latest 30 calendar days after receipt of the Redemption Declaration or the Securities by the Principal Paying Agent (whatever is the later date) make the Acquisition Price available to the Principal Paying Agent, which will transfer it to the account listed in the Redemption Declaration. With the payment of the Acquisition Price all rights deriving from the submitted Securities cease to exist.

- (3) *Offer to continue:* The Issuer may combine the declaration of rescission pursuant to paragraph (2) above with an offer to continue the Securities under amended terms and conditions. The Security Holders will be informed of such an offer as well as the amended provisions together with the declaration of rescission in accordance with § 6 of the General Conditions. Such an offer is deemed to be accepted by the Security Holder (with the effect that the consequences of the rescission do not become effective) if the Security Holder does not within four weeks after the offer becoming effective pursuant to § 6 of the General Conditions demand the repayment of the Acquisition Price by submitting a duly completed Redemption Declaration via his depository bank to the Principal Paying Agent and the transfer of the Securities to the account of Principal Paying Agent with the Clearing System in accordance with paragraph (2) above. The Issuer will refer to this effect in the notice.
- (4) *Acquisition Price:* As used in paragraphs (2) and (3) above, the "**Acquisition Price**" is the actual acquisition price paid by each Security Holder (as stated and confirmed in the Redemption Declaration) or the weighted arithmetic mean of the trading prices of the Securities, as determined by the Issuer in its reasonable discretion (§ 315 et seq. BGB), on the Banking Day preceding the declaration of rescission pursuant to paragraph (2) above, respectively, depending on which of these amounts is the higher one. If a market disruption pursuant to § 7 of the Special Conditions exists on the Banking Day preceding the declaration of rescission pursuant to paragraph (2) above, the last Banking Day preceding the rescission pursuant to paragraph (2) above on which no market disruption existed shall be decisive for the determination of the Acquisition Price in accordance with the preceding sentence.
- (5) *Incomplete or inconsistent provisions:* The Issuer is entitled to correct or amend incomplete or inconsistent provisions in these Terms and Conditions in its reasonable discretion (§ 315 et seq. BGB). Only corrections and amendments that are reasonable for the Security Holders taking into account the interests of the Issuer and that in particular do not materially impair the legal and financial situation of the Security Holders will be permitted. The Security Holders will be informed of such corrections and supplementations pursuant to § 6 of the General Conditions.
- (6) *Adherence to corrected Terms and Conditions:* If the Security Holder was aware of typing or calculation errors or similar errors in these Terms and Conditions when purchasing the Securities, the Issuer is entitled to adhere to the Terms and Conditions amended accordingly irrespective of paragraphs (2) to (5) above.

**§ 10**

**Applicable Law, Place of Performance, Place of Jurisdiction**

- (1) *Applicable law:* The Securities, as to form and content, and all rights and obligations of the Issuer and the Security Holder shall be governed by the laws of the Federal Republic of Germany.
- (2) *Place of performance:* Place of performance is Munich.
- (3) *Place of jurisdiction:* To the extent permitted by law, all legal disputes arising from or in connection with the matters governed by these Terms and Conditions shall be brought before the court in Munich.

**[§ 11**

**Waiver Right**

Waiver Right: Each Security Holder has the right to waive to the automatic exercise of the exercise right of the Securities held by it (subject as set out below). In this case, a duly completed waiver notice (a "**Waiver Notice**") must be delivered by facsimile to the Issuer prior to 10.00 a.m., Munich local time, on the Final Valuation Date at the facsimile number set out in the section of the Base Prospectus titled Conditions of the Securities under "Form of Waiver Notice". The Security Holder must deliver the completed Waiver Notice to its depository bank which will be in charge of sending it by facsimile to the Issuer.

In the event that a Security Holder does not perform its obligations and so deliver, where applicable, a duly completed Waiver Notice in accordance with the provisions hereof, such Securities shall be exercised automatically and shall be repaid in the manner set out in the Terms and Conditions of these Securities, and the Issuer's obligations in respect of such Securities shall be discharged and no further liability in respect thereof shall attach to the Issuer.

The number of Securities specified in the Waiver Notice must be a multiple of the minimum exercise amount, otherwise such number of Securities so specified shall be rounded down to the preceding multiple of the minimum exercise amount and the Waiver Notice shall not be valid in respect of the Securities exceeding such rounded number of Securities.

The Issuer will, in its reasonable discretion (§ 315 et seq. BGB), determine whether the above conditions are satisfied and its determination will be final, conclusive and binding on the Issuer and on the Security Holder.

The Waiver Notice is irrevocable.

Neither the Principal Paying Agent nor the Issuer shall apply any charge for the renouncement to the exercise of the Securities. Any other taxes, duties and/or expenses, including any applicable depository charges, transaction or exercise charges, stamp duty, stamp duty reserve tax, issue, registration, securities transfer and/or other taxes or duties which may arise in connection with the renouncement of any Securities are payable by the Security Holders.]]

[Option 2: In the case of Securities governed by Italian law, the following applies:]

§ 1

**Form, Book Entry, Clearing System**

- (1) *Form:* This tranche (the "**Tranche**") of securities (the "**Securities**") of UniCredit Bank AG (the "**Issuer**") will be issued as non-par value [warrants] [certificates] in dematerialized registered form pursuant to these Terms and Conditions in the Specified Currency.
- (2) *Book Entry:* The Securities are registered in the books of the Clearing System, in accordance with the Legislative Decree no. 58 of 24 February 1998, as amended (*Testo Unico della Finanza*, "**Consolidated Law on Financial Intermediation**") and with the rules governing central depositories, settlement services, guarantee systems and related management companies, issued by the Bank of Italy and by the Italian securities regulator 'Commissione Nazionale per le Società e la Borsa' (CONSOB) on 22 February 2008, as amended. No physical document of title will be issued to represent the Securities, without prejudice to the right of the Security Holder to obtain the issuance of the certification as per Sections 83-*quinquies* and 83-*novies*, paragraph 1, lett. b) of the Consolidated Law on Financial Intermediation. The transfer of the Securities operates by way of registration on the relevant accounts opened with the Clearing System by any intermediary adhering, directly or indirectly, to the Clearing System ("**Account Holders**"). As a consequence, the respective Security Holder who from time to time is the owner of the account held with an Account Holder will be considered as the legitimate owner of the Securities and will be authorised to exercise all rights related to them, in accordance with the Terms and Conditions of the Securities and applicable provisions of law.

§ 2

**Principal Paying Agent, Paying Agent, Calculation Agent**

- (1) *Paying Agents:* The "**Principal Paying Agent**" is [UniCredit Bank AG, Arabellastraße 12, 81925 Munich, Germany] [Citibank, N.A., London Branch, Citigroup Centre, Canada Square, Canary Wharf, London E14 5LB, United Kingdom] [*Insert name and address of other paying agent*]. [The French Paying Agent for Euroclear France S.A. is CACEIS Bank S.A., 1-3 rue place Valhubert, 75206 Paris Cedex 13, France (the "**French Paying Agent**").] The Issuer may appoint additional paying agents (the "**Paying Agents**") and revoke such appointment. The appointment and revocation shall be published pursuant to § 6 of the General Conditions.
- (2) *Calculation Agent:* The "**Calculation Agent**" is [UniCredit Bank AG, Arabellastraße 12, 81925 Munich] [*Insert name and address of other calculation agent*].
- (3) *Transfer of functions:* Should any event occur which results in the Principal Paying Agent[, French Paying Agent] or Calculation Agent being unable to continue in its function as Principal Paying Agent[, French Paying Agent] or Calculation Agent, the Issuer is obliged to appoint another bank of international standing as Principal Paying Agent[, French Paying Agent] or another person or institution with the relevant expertise as Calculation Agent. Any such transfer of the functions of the Principal Paying Agent[, French Paying Agent] or Calculation Agent shall be notified by the Issuer without undue delay pursuant to § 6 of the General Conditions.
- (4) *Agents of the Issuer:* In connection with the Securities, the Principal Paying Agent, the Paying Agents and the Calculation Agent act solely on behalf of the Issuer and do not assume any obligations towards or relationship of mandate or trust for or with any of the

Security Holders. For the avoidance of doubt, Section 1395 of the Italian Civil Code (*Codice Civile*, "CC") shall not apply in respect of any acts of the Principal Paying Agent.

### § 3

#### Taxes

*No gross up*: Payments in respect of the Securities shall only be made after deduction and withholding of current or future taxes, to the extent that such deduction or withholding is required by law. In this regard the term "**Taxes**" includes taxes, levies or governmental charges, regardless of their nature, which are imposed, levied or collected under any applicable system of law or in any country which claims fiscal jurisdiction by or for the account of any political subdivision thereof or government agency therein authorised to levy Taxes, including a withholding tax pursuant to Section 871(m) of the United States Internal Revenue Code of 1986 ("**871(m) Withholding Tax**").

The Issuer shall in any case be entitled to take into consideration the 871(m) Withholding Tax by applying the maximum tax rate as a flat rate (plus value added tax, if applicable). In no case the Issuer is obliged to compensate with respect to any Taxes deducted or withheld.

The Issuer shall report on the deducted and withheld Taxes to the competent government agencies, except, these obligations are imposed upon any other person involved, subject to the legal and contractual requirements of the respective applicable tax rules.

### § 4

#### Status

The obligations under the Securities constitute direct, unconditional and unsecured obligations of the Issuer and rank, unless provided otherwise by law, *pari passu* with all other unsecured unsubordinated present and future obligations of the Issuer.

### § 5

#### Substitution of the Issuer

- (1) The Issuer may without the consent of the Security Holders, if no payment of principal or interest on any of the Securities is in default, at any time substitute the Issuer for any Affiliate of the Issuer as principal debtor in respect of all obligations of the Issuer under the Securities (the "**New Issuer**"), provided that
  - (a) the New Issuer assumes all obligations of the Issuer in respect of the Securities,
  - (b) the Issuer and the New Issuer have obtained all authorizations and have satisfied all other conditions as necessary to ensure that the Securities are legal, valid and enforceable obligations of the New Issuer;
  - (c) the Issuer and the New Issuer may transfer to the Principal Paying Agent in the currency required hereunder and without being obligated to deduct or withhold taxes or other duties of whatever nature levied by the country, in which the New Issuer or the Issuer has its domicile or tax residence, all amounts required for the fulfilment of the payment obligations arising under the Securities,
  - (c) the New Issuer has agreed to indemnify and hold harmless each Security Holder against any tax, duty or other governmental charge imposed on such Security Holder in respect of such substitution and

- (d) the Issuer irrevocably and unconditionally guarantees proper payment of the amounts due under these Terms and Conditions.

For purposes of this § 5 (1) "**Affiliate**" means an affiliated company (*verbundenes Unternehmen*) within the meaning of Section 15 of the German Stock Corporation Act (*Aktiengesetz*).

- (2) *Notice:* Any such substitution shall be notified in accordance with § 6 of the General Conditions.
- (3) *References:* In the event of any such substitution, any reference in these Terms and Conditions to the Issuer shall be deemed to refer to the New Issuer. Furthermore, any reference to the country, in which the Issuer is domiciled or resident for taxation purposes shall be deemed to refer to the country of domicile or residence for taxation purposes of the New Issuer.

## § 6

### Notices

- (1) To the extent these Terms and Conditions provide for a notice pursuant to this § 6, these will be published on the Website for Notices (or another website communicated by the Issuer with at least six weeks advance notice in accordance with these provisions) and become effective vis-à-vis the Security Holders through such publication unless the notice provides for a later effective date or such later effective date is otherwise required under applicable law. If and to the extent that binding provisions of effective law or stock exchange provisions provide for other forms of publication, such publications must be made in addition and as provided for.

Other publications with regard to the Securities are published on the Website of the Issuer (or any successor website, which is notified by the Issuer in accordance with the above paragraph).

- (2) In addition, the Issuer may deliver all notices concerning the Securities to the Clearing System for communication by the Clearing System to the Security Holders. Any such notice shall be deemed to have been given to the Security Holders on the [seventh] [●] [day] [Banking Day] after the day on which the said notice was given to the Clearing System.

Any notice published on the Website for Notices which has become effective shall prevail the notice via the Clearing System.

## § 7

### Issuance of additional Securities, Repurchase

- (1) *Issuance of additional Securities:* The Issuer reserves the right from time to time without the consent of the Security Holders to issue additional Securities with identical terms and conditions (except for the issue date and the issue price), so that the same shall be consolidated and form a single series (the "**Series**") with this Tranche. The term "*Securities*" shall, in the event of such increase, also comprise all additionally issued Securities.
- (2) *Repurchase:* The Issuer shall be entitled at any time to purchase Securities in the market or otherwise and at any price. Securities repurchased by the Issuer may, at the Issuer's discretion, be held, resold or forwarded to the Principal Paying Agent for cancellation.

§ 8

(intentionally omitted)

§ 9

**Partial Invalidity, Corrections**

- (1) *Invalidity:* Should any provision of these Terms and Conditions be or become invalid or unenforceable in whole or in part, the remaining provisions are not affected thereby. Any gap arising as a result of invalidity or unenforceability of these Terms and Conditions is to be filled with a provision that corresponds to the meaning and intent of these Terms and Conditions and is in the interest of the parties.
- (2) *Typing and calculation errors, inaccuracies and inconsistencies:* The Issuer may amend these Terms and Conditions without having to obtain the prior consent of the Security Holders, provided that such amendments (i) do not prejudice the rights or interests of the Security Holders and (ii) are aimed at correcting a manifest or obvious error, or at removing inaccuracies or inconsistencies from the text. Any notices to the Security Holders relating to the amendments referred to in the previous sentence shall be made in accordance with Section 6 of these Terms and Conditions.

§ 10

**Applicable Law, Choice of Forum**

- (1) *Applicable law:* The Securities, as to form and content, and all rights and obligations thereunder shall be governed by the laws of the Republic of Italy.
- (2) *Choice of Forum:* To the extent permitted by law, all disputes arising from or in connection with the matters governed by these Terms and Conditions shall be brought before the Tribunal of Milan, Italy.

[§ 11

**Waiver Right**

**Waiver Right:** Each Security Holder has the right to waive to the automatic exercise of the exercise right of the Securities held by it (subject as set out below). In this case, a duly completed waiver notice (a "**Waiver Notice**") must be delivered by facsimile to the Issuer prior to 10.00 a.m., Munich local time, on the Final Valuation Date at the facsimile number set out in the section of the Base Prospectus titled Conditions of the Securities under "Form of Waiver Notice". The Security Holder must deliver the completed Waiver Notice to its depository bank which will be in charge of sending it by facsimile to the Issuer.

In the event that a Security Holder does not perform its obligations and so deliver, where applicable, a duly completed Waiver Notice in accordance with the provisions hereof, such Securities shall be exercised automatically and shall be repaid in the manner set out in the Terms and Conditions of these Securities, and the Issuer's obligations in respect of such Securities shall be discharged and no further liability in respect thereof shall attach to the Issuer.

The number of Securities specified in the Waiver Notice must be a multiple of the minimum exercise amount, otherwise such number of Securities so specified shall be rounded down to the preceding multiple of the minimum exercise amount and the Waiver

PART A – GENERAL CONDITIONS OF THE SECURITIES

Notice shall not be valid in respect of the Securities exceeding such rounded number of Securities.

The Issuer will determine whether the above conditions are satisfied in compliance with the provisions of this Section 11, and in any case in good faith and in accordance with the relevant market practices. The Issuer's determination made pursuant to the above will be final, conclusive and binding on both the Issuer and on the Security Holder.

The Waiver Notice is irrevocable.

Neither the Principal Paying Agent nor the Issuer shall apply any charge for the renouncement to the exercise of the Securities. Any other taxes, duties and/or expenses, including any applicable depository charges, transaction or exercise charges, stamp duty, stamp duty reserve tax, issue, registration, securities transfer and/or other taxes or duties which may arise in connection with the renouncement of any Securities are payable by the Security Holders.]]

**§ 1**

**Definitions**

"**Adjustment Event**" means [each of the following events:]

**[In the case of Shares as Underlying, the following applies:**

- (a) each measure taken by the company that has issued the Underlying or by a third party, which would – due to a change in the legal and economic position, in particular a change in the company's fixed assets and capital – affect the Underlying not only immaterially (in particular capital increase against cash contribution, issuance of securities with options or conversion rights into shares, capital increase with company funds, distribution of special dividends, share splits, merger, liquidation, nationalisation); whether this is the case shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)*] [*in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith*];
- (b) an early termination performed by the Determining Futures Exchange of the there traded Derivatives of the Underlying;
- (c) an adjustment performed by the Determining Futures Exchange of the there traded Derivatives of the Underlying; [ or]
- (d) [a Hedging Disruption occurs; or
- (e) any event which is economically equivalent to one of the above-mentioned events with regard to its consequences on the Underlying; whether this is the case shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)*] [*in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith*].]

**[In the case of Indices as Underlying, the following applies:**

- (a) changes in the relevant Index Concept or the calculation of the Underlying, that result in a new relevant Index Concept or calculation of the Underlying being no longer economically equivalent to the original relevant Index Concept or the original calculation of the Underlying; whether this is the case shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)*] [*in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith*];
- (b) the calculation or publication of the Underlying is finally discontinued, or replaced by another index (the "**Index Replacement Event**");
- (c) due to circumstances for which the Issuer is not responsible, the Issuer is no longer entitled to use the Underlying as basis for the calculations or, respectively, specifications described in the Terms and Conditions of these Securities (an "**Index Usage Event**"); an Index Usage Event is also the termination of the license to use the Underlying due to an unacceptable increase in license fees;

- (d) [a Hedging Disruption occurs;
- (e)] any event which is economically equivalent to one of the above-mentioned events with regard to its consequences on the Underlying;

whether this is the case shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)*] [*in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith.*]

[In the case of commodities as Underlying, the following applies:

- [(a)] any changes in the Relevant Trading Conditions of the Underlying that lead to a situation where, as a result of the change, the changed trading conditions are no longer economically equivalent to the Relevant Trading Conditions prior to the change; whether this is the case shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)*] [*in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith*];
- (b) an early termination performed by the Determining Futures Exchange of the there traded derivatives linked to the Underlying;
- (c) an adjustment performed by the Determining Futures Exchange of the there traded Derivatives of the Underlying[;
- (d) a Hedging Disruption occurs][;
- [(●)] any event which is economically equivalent to one of the above-mentioned events with regard to its consequences on the Underlying; whether this is the case shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)*] [*in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith.*]

[In the case of currency exchange rates as Underlying, the following applies:

- (a) a not only immaterial modification in the method of determination and/or publication [of the Reference Price] [the [official] fixing] [of the Underlying] [or its components] by the Fixing Sponsor (including the time of the determination and/or publication); whether this is the case shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)*] [*in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith*];]
- (b) any other change with respect to the Underlying [or its components] (due to, including but not limited to, any kind of monetary reform or changeover), which affects the Securities not only immaterially; whether this is the case shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)*] [*in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith*];]
- (c) an early termination performed by the Determining Futures Exchange of the there traded derivatives linked to the Underlying [or its components];

## § 2

### Interest

The Securities do not bear interest.

## § 3

### Exercise Right, Exercise, [Exercise Notice,] [Suspension of the Exercise Right,] Payment

- (1) *Exercise Right:* The Security Holder shall be entitled, according to the Terms and Conditions of these Securities, to demand for each Security the payment of the Differential Amount from the Issuer.

[In the case of classical Warrants with European exercise, the following applies:]

- (2) *Exercise:* The Exercise Right will be automatically exercised on the Final Valuation Date.
- (3) *Payment:* The Differential Amount will be paid on the Final Payment Date pursuant to the provisions of § 6 of the Special Conditions.]

[In the case of classical Warrants with American exercise, the following applies:]

- (2) *Exercise:* The Exercise Right can be exercised by the Security Holder on each Trading Day during the Exercise Period prior to [●] [10:00 a.m.] (Munich local time) pursuant to the provisions of paragraph (3) of this § 3. The Exercise Right will be automatically exercised on the Final Valuation Date, unless not already effectively exercised by the Security Holder.
- (3) *Exercise Notice:* The Exercise Right shall be exercised by the Security Holder by transmission of a duly completed written Exercise Notice (the "**Exercise Notice**") to the Principal Paying Agent possibly per facsimile, using the form of notice which may be obtained from the Website of the Issuer or, respectively by specifying all information and declarations to the facsimile number set out in such form of notice and by transferring the Securities stated in the Exercise Notice to the account of the Issuer, which is set out in the respective form of the Exercise Notice. For this purpose the Security Holder must instruct its depository bank, which is responsible for the order of the transfer of the specified Securities.

The Exercise Right is deemed to be effectively exercised on that day on which (i) the Principal Paying Agent receives the duly completed Exercise Notice prior to [●] [10:00 a.m.] (Munich local time) and (ii) the Securities specified in the Exercise Notice will be credited to the account of the Issuer prior to [●] [5:00 p.m.] (Munich local time).

For Securities, for which a duly completed Exercise Notice has been transmitted in time, but which has been credited to the Issuer's account after [●] [5:00 p.m.] (Munich local time), the Exercise Right is deemed to be effectively exercised on that Trading Day, on which the Securities will be credited to the account of the Issuer prior to [●] [5:00 p.m.] (Munich local time).

For Securities, for which a Security Holder transmits an Exercise Notice, which does not comply with the aforementioned provisions, or, if the Securities specified in the Exercise Notice have been credited to the Issuer's Account after [●] [5:00 p.m.] (Munich local time) of the [fifth] [insert number of days] Banking Day following the transmission of the Exercise Notice, the Exercise Right is deemed to be not effectively exercised.

The amount of the Securities for which the Exercise Right shall be exercised, must comply with the Minimum Exercise Amount or an integral multiple thereof. Otherwise the amount of the Securities specified in the Exercise Notice will be rounded down to the nearest multiple of the Minimum Exercise Amount and the Exercise Right is deemed to be not effectively exercised with regard to the amount of Securities exceeding such amount. An Exercise Notice on fewer Securities than the Minimum Exercise Amount is invalid and has no effect.

Securities received by the Issuer and for which no effective Exercise Notice exists or the Exercise Right deems to be not effectively exercised, will be immediately retransferred by the Issuer without undue delay at the expense of the relevant Security Holder.

Subject to the aforementioned provisions, the transmission of an Exercise Notice constitutes an irrevocable declaration of intent of the relevant Security Holder to exercise the respective Securities.

[In the case of Shares as Underlying, the following applies:]

- (4) *Suspension of the Exercise Right:* The Exercise Right cannot be exercised:
  - (a) during the period between the day, on which the company specified [in the "Underlying" column in Table [●]] in § 1 of the Product and Underlying Data (the "**Company**") publishes an offer to its shareholders to acquire (a) new shares or (b) warrants or other securities with conversion or option rights on shares of the Company,

## § 2

### Interest

The Securities do not bear interest.

## § 3

### Exercise Right, Exercise, Knock-out, Exercise Notice, [Suspension of the Exercise Right,] Payment

- (1) *Exercise Right:* Subject to the occurrence of a Knock-out Event, the Security Holder shall be entitled, according to the Terms and Conditions of these Securities, to demand for each Security the payment of the Differential Amount from the Issuer.
- (2) *Exercise:* The Exercise Right can be exercised by the Security Holder on each Exercise Date prior to [●] [10:00 a.m.] (Munich local time) pursuant to the provisions of paragraph (4) of this § 3.
- (3) *Knock-out:* Upon the occurrence of a Knock-out Event, the Exercise Right forfeits and the Knock-out Amount will be paid for each Security.
- (4) *Exercise Notice:* The Exercise Right shall be exercised by the Security Holder by transmission of a duly completed written Exercise Notice (the "**Exercise Notice**") to the Principal Paying Agent possibly per facsimile, using the form of notice which may be obtained from the

Website of the Issuer or, respectively by specifying all information and declarations to the facsimile number set out in such form of notice and by transferring the Securities stated in the Exercise Notice to the account of the Issuer, which is set out in the respective form of the Exercise Notice. For this purpose the Security Holder must instruct its depositary bank, which is responsible for the order of the transfer of the specified Securities.

The Exercise Right is deemed to be effectively exercised on that day on which (i) the Principal Paying Agent receives the duly completed Exercise Notice prior to [●] [10:00 a.m.] (Munich local time) and (ii) the Securities specified in the Exercise Notice will be credited to the account of the Issuer prior to [●] [5:00 p.m.] (Munich local time).

For Securities, for which a duly completed Exercise Notice has been transmitted in time, but which has been credited to the Issuer's account after [●] [5:00 p.m.] (Munich local time), the Exercise Right is deemed to be effectively exercised on that Banking Day, on which the Securities will be credited to the account of the Issuer prior to [●] [5:00 p.m.] (Munich local time).

For Securities, for which a Security Holder transmits an Exercise Notice, which does not comply with the aforementioned provisions, or, if the Securities specified in the Exercise Notice have been credited to the Issuer's Account after [●] [5:00 p.m.] (Munich local time) of the [fifth] [*insert number of days*] Banking Day following the transmission of the Exercise Notice, the Exercise Right is deemed to be not effectively exercised.

The amount of the Securities for which the Exercise Right shall be exercised, must comply with the Minimum Exercise Amount or an integral multiple thereof. Otherwise the amount of the Securities specified in the Exercise Notice will be rounded down to the nearest multiple of the Minimum Exercise Amount and the Exercise Right is deemed to be not effectively exercised with regard to the amount of Securities exceeding such amount. An Exercise Notice on fewer Securities than the Minimum Exercise Amount is invalid and has no effect.

Securities received by the Issuer and for which no effective Exercise Notice exists or the Exercise Right deems to be not effectively exercised, will be retransferred by the Issuer without undue delay at the expense of the relevant Security Holder.

Subject to the aforementioned provisions, the transmission of an Exercise Notice constitutes an irrevocable declaration of intent of the relevant Security Holder to exercise the respective Securities.

[In the case of Shares as Underlying, the following applies:

- (5) *Suspension of the Exercise Right:* The Exercise Right cannot be exercised:
- (a) during the period between the day, on which the company specified [in the "Underlying" column in Table [●]] in § 1 of the Product and Underlying Data (the "**Company**") publishes an offer to its shareholders to acquire (a) new shares or (b) warrants or other securities with conversion or option rights on shares of the Company, and the first day after the expiration of the period determined for the exercise of the purchase right;
  - (b) prior and after the shareholders' meeting of the Company, in the period from (and including) the last depositary day for shares and to (and including) the third Banking Day after the shareholders' meeting.

If the exercise of the Exercise Right is suspended on an Exercise Day according to the previous sentence, the Exercise Date will be postponed to the first Banking Day after such suspension.]

- ([●]) *Payment:* The Differential Amount will be paid five Banking Days after the respective Valuation Date pursuant to the provisions of § 6 of the Special Conditions.

The Knock-out Amount will be paid five Banking Days after the day, on which the Knock-out Event has occurred, pursuant to the provisions of § 6 of the Special Conditions.

§ 4

**Differential Amount**

- (1) *Differential Amount:* The Differential Amount per Security equals an amount in the Specified Currency, which will be calculated or, respectively, specified by the Calculation Agent as follows:

*In the case of Securities, for which "Call" is specified [in the "Call/Put" column in Table [●]] in § 1 of the Product and Underlying Data:*

Differential Amount = (Relevant Reference Price - Strike) x Ratio [ / ] [ x ] [ FX (final) ] [ / ] [ x ] [ FX (1) (final) ] [ / ] [ x ] [ FX (2) (final) ]

However, the Differential Amount is not lower than the Minimum Amount.

*In the case of Securities, for which "Put" is specified [in the "Call/Put" column in Table [●]] in § 1 of the Product and Underlying Data:*

Differential Amount = (Strike - Relevant Reference Price) x Ratio [ / ] [ x ] [ FX (final) ] [ / ] [ x ] [ FX (1) (final) ] [ / ] [ x ] [ FX (2) (final) ]

However, the Differential Amount is not lower than the Minimum Amount.]

- (2) When calculating or, respectively, determining the Differential Amount, no fees, commissions or other costs charged by the Issuer or a third party authorised by the Issuer, will be taken into account.]

If the Screen Page is not available at the mentioned time, or if such offer rate does not appear on the Screen Page, the Calculation Agent will request each of the Reference Banks to provide its rates, offered to prime banks in the Eurozone interbank market at approximately 11:00 a.m., Brussels time, on the respective Interest Determination Date for deposits in euro for the maturity of one month in a representative amount.

If at least two of the Reference Banks provide the Calculation Agent with such quotations, the respective Reference Rate will be the arithmetic mean (rounded if necessary to the nearest of one thousandth of a percentage point, with 0.0005 being rounded upwards) of such quotations.

If on any Interest Determination Date only one or none of the Reference Banks provides the Calculation Agent with such quotations, the Calculation Agent will determine the Reference Rate [*in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)*] [*in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith*].

**["Registered Benchmark Administrator"** means that the Underlying is administered by an administrator who is registered in a register pursuant to Article 36 of the Benchmark Regulation as specified in § 2 of the Product and Underlying Data.]

**["Registered Benchmark Administrator for Reference Rate"** means that the Reference Rate is administered by an administrator who is registered in a register pursuant to Article 36 of the Benchmark Regulation as specified in § 1 of the Product Data.]

**"Relevant Exchange"** means the exchange, on which the components of the Underlying<sub>1</sub> are traded, such exchange shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)*] [*in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith*] by way of notice pursuant to § 6 of the General Conditions in accordance with such components' liquidity.

In the case of a material change in the market conditions at the Relevant Exchange, such as a final discontinuation of the quotation of the components of the Underlying<sub>1</sub> at the Relevant Exchange and the quotation at a different stock exchange or a considerably restricted number or liquidity, the Relevant Exchange shall be substituted as the Relevant Exchange by another exchange that offers satisfactorily liquid trading in the Underlying (the "**Substitute Exchange**"); such exchange shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)*] [*in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith*]. In this case, any reference to the Relevant Exchange in the Terms and Conditions of these Securities shall be deemed to refer to the Substitute Exchange. In the event of a substitution, any reference in the Terms and Conditions of these Securities to the Relevant Exchange shall be deemed to refer to the Substitute Exchange.

**["Relevant Period"** means the Relevant Period as specified in § 1 of the Product and Underlying Data.]

**"Relevant Reference Price"** means the Reference Price on the respective Valuation Date.

**"Risk Management Fee"** means a value expressed in percentage per year, which forms the risk premium for the Issuer. The Initial Risk Management Fee for the First Trade Date is specified in § 1 of the Product and Underlying Data. The Calculation Agent adjusts the Risk Management Fee on each Adjustment Date [*in the case of Securities governed by German law, insert: within its reasonable discretion (§ 315 et seq. BGB)*] [*in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith*] to the current market circumstances so that the ratio of the Risk Management Fee to the relevant market parameters (especially volatility of the Underlying, liquidity of the Underlying, hedging costs and lending costs (if any)) remains substantially unchanged. The adjusted Risk Management Fee is valid during the period of the respective Adjustment Date (excluding) to the immediately following Adjustment Date (including). The Calculation Agent shall after its specification notify the valid Risk Management Fee in each case pursuant to § 6 of the General Conditions.

**"Security Holder"** means the holder of a Security.

**"Settlement Cycle"** means the period of Clearance System Business Days following a transaction on the Relevant Exchange of the securities that form the basis of the Underlying<sub>1</sub>, during which period settlement will customarily occur according to the rules of that Relevant Exchange.

**"Specified Currency"** means the Specified Currency as specified in § 1 of the Product and Underlying Data.

**"Strike"** means

- (a) on the First Trade Date the Initial Strike as specified in § 1 of the Product and Underlying Data,

- (b) on each calendar day, following the First Trade Date, the sum of (i) the Strike on the day immediately preceding this calendar day and (ii) the Financing Costs.

The Strike shall be rounded up or down to [six decimals] [●], with [0.0000005] [●] being rounded upwards and shall never be less than zero.

The Calculation Agent will publish the Strike after its specification on the Website of the Issuer under the respective product details.

**"Terms and Conditions"** means the terms and conditions of these Securities as set out in the General Conditions (Part A), the Product and Underlying Data (Part B) and the Special Conditions (Part C).

**"Trading Day"** means each day (other than a Saturday or Sunday) on which the trading system [XETRA®][or][Borsa Italiana (SeDeX MTF) market] [or] [EuroTLX market] is open for business.

**"Underlyings"** are together the Underlying<sub>1</sub> and the Underlying<sub>2</sub>.

**"Underlying<sub>1</sub>"** means the Underlying<sub>1</sub>, as specified in § 1 of the Product and Underlying Data.

**"Underlying<sub>2</sub>"** means the Underlying<sub>2</sub>, as specified in § 1 of the Product and Underlying Data.

The Underlyings shall be specified by the Index Sponsor and calculated by the Index Calculation Agent.

**"Underlying Currency"** means the Underlying Currency as specified in § 2 of the Product and Underlying Data.

**"Valuation Date"** means the Exercise Date on which the Exercise Right has been effectively exercised, or the Call Date, as the case may be, on which the Issuer has exercised its Regular Call Right. If this day is not a Calculation Date, the immediately next following Banking Day which is a Calculation Date shall be the Valuation Date.

**"Website[s] for Notices"** means the Website(s) for Notices as specified in § 1 of the Product and Underlying Data.

**"Website[s] of the Issuer"** means the Website(s) of the Issuer as specified in § 1 of the Product and Underlying Data.

## § 2

### Interest

The Securities do not bear interest.

## § 3

### Exercise Right, Exercise, Knock-out, Exercise Notice, Payment

- (1) *Exercise Right:* Subject to the occurrence of a Knock-out Event, the Security Holder shall be entitled, according to the Terms and Conditions of these Securities, to demand for each Security the payment of the Differential Amount from the Issuer.
- (2) *Exercise:* The Exercise Right can be exercised by the Security Holder on each Exercise Date prior to [●] [10:00 a.m.] (Munich local time) pursuant to the provisions of paragraph (4) of this § 3.
- (3) *Knock-out:* Upon the occurrence of a Knock-out Event, the Exercise Right forfeits and the Knock-out Amount will be paid for each Security.
- (4) *Exercise Notice:* The Exercise Right shall be exercised by the Security Holder by transmission of a duly completed written Exercise Notice (the "**Exercise Notice**") to the Principal Paying Agent possibly per facsimile, using the form of notice which may be obtained from the Website of the Issuer or, respectively by specifying all information and declarations to the

facsimile number set out in such form of notice and by transferring the Securities stated in the Exercise Notice to the account of the Issuer, which is set out in the respective form of the Exercise Notice. For this purpose the Security Holder must instruct its depositary bank, which is responsible for the order of the transfer of the specified Securities.

The Exercise Right is deemed to be effectively exercised on that day on which (i) the Principal Paying Agent receives the duly completed Exercise Notice prior to [●] [10:00 a.m.] (Munich local time) and (ii) the Securities specified in the Exercise Notice will be credited to the account of the Issuer prior to [●] [5:00 p.m.] (Munich local time).

For Securities, for which a duly completed Exercise Notice has been transmitted in time, but which has been credited to the Issuer's account after [●] [5:00 p.m.] (Munich local time), the Exercise Right is deemed to be effectively exercised on that Banking Day, on which the Securities will be credited to the account of the Issuer prior to [●] [5:00 p.m.] (Munich local time).

For Securities, for which a Security Holder transmits an Exercise Notice, which does not comply with the aforementioned provisions, or, if the Securities specified in the Exercise Notice have been credited to the Issuer's Account after [●] [5:00 p.m.] (Munich local time) of the [fifth] *[insert number of days]* Banking Day following the transmission of the Exercise Notice, the Exercise Right is deemed to be not effectively exercised.

The amount of the Securities for which the Exercise Right shall be exercised, must comply with the Minimum Exercise Amount or an integral multiple thereof. Otherwise the amount of the Securities specified in the Exercise Notice will be rounded down to the nearest multiple of the Minimum Exercise Amount and the Exercise Right is deemed to be not effectively exercised with regard to the amount of Securities exceeding such amount. An Exercise Notice on fewer Securities than the Minimum Exercise Amount is invalid and has no effect.

Securities received by the Issuer and for which no effective Exercise Notice exists or the Exercise Right deems to be not effectively exercised, will be retransferred by the Issuer without undue delay at the expense of the relevant Security Holder.

Subject to the aforementioned provisions, the transmission of an Exercise Notice constitutes an irrevocable declaration of intent of the relevant Security Holder to exercise the respective Securities.

- (5) *Payment:* The Differential Amount will be paid five Banking Days after the respective Valuation Date pursuant to the provisions of § 6 of the Special Conditions.

The Knock-out Amount will be paid five Banking Days after the day, on which the Knock-out Event has occurred, pursuant to the provisions of § 6 of the Special Conditions.

#### § 4

##### Differential Amount

- (1) *Differential Amount:* The Differential Amount per Security equals an amount in the Specified Currency, which will be calculated or, respectively, specified by the Calculation Agent as follows:

*In the case of Securities, for which "Call" is specified [in the "Call/Put" column in Table [●]] in § 1 of the Product and Underlying Data:*

Differential Amount = (Relevant Reference Price - Strike) x Ratio

However, the Differential Amount is not lower than the Minimum Amount.

*In the case of Securities, for which "Put" is specified [in the "Call/Put" column in Table [●]] in § 1 of the Product and Underlying Data:*

Differential Amount = (Strike - Relevant Reference Price) x Ratio

However, the Differential Amount is not lower than the Minimum Amount.

- (2) When calculating or, respectively, determining the Differential Amount, no fees, commissions or other costs charged by the Issuer or a third party authorised by the Issuer, will be taken into account.]

## § 2

### Interest

The Securities do not bear interest.

## § 3

### Exercise Right, Exercise, Knock-out, Exercise Notice, [Suspension of the Exercise Right,] Payment

- (1) *Exercise Right:* Subject to the occurrence of a Knock-out Event, the Security Holder shall be entitled, according to the Terms and Conditions of these Securities, to demand for each Security the payment of the Differential Amount from the Issuer.
- (2) *Exercise:* The Exercise Right can be exercised by the Security Holder on each Exercise Date prior to [●] [10:00 a.m.] (Munich local time) pursuant to the provisions of paragraph (4) of this § 3.
- (3) *Knock-out:* Upon the occurrence of a Knock-out Event, the Exercise Right forfeits and the Knock-out Amount will be paid for each Security.
- (4) *Exercise Notice:* The Exercise Right shall be exercised by the Security Holder by transmission of a duly completed written Exercise Notice (the "**Exercise Notice**") to the Principal Paying Agent possibly per facsimile, using the form of notice which may be obtained from the Website of the Issuer or, respectively by specifying all information and declarations to the facsimile number set out in such form of notice and by transferring the Securities stated in the

Exercise Notice to the account of the Issuer, which is set out in the respective form of the Exercise Notice. For this purpose the Security Holder must instruct its depositary bank, which is responsible for the order of the transfer of the specified Securities.

The Exercise Right is deemed to be effectively exercised on that day on which (i) the Principal Paying Agent receives the duly completed Exercise Notice prior to [●] [10:00 a.m.] (Munich local time) and (ii) the Securities specified in the Exercise Notice will be credited to the account of the Issuer prior to [●] [5:00 p.m.] (Munich local time).

For Securities, for which a duly completed Exercise Notice has been transmitted in time, but which has been credited to the Issuer's account after [●] [5:00 p.m.] (Munich local time), the Exercise Right is deemed to be effectively exercised on that Banking Day, on which the Securities will be credited to the account of the Issuer prior to [●] [5:00 p.m.] (Munich local time).

For Securities, for which a Security Holder transmits an Exercise Notice, which does not comply with the aforementioned provisions, or, if the Securities specified in the Exercise Notice have been credited to the Issuer's Account after [●] [5:00 p.m.] (Munich local time) of the [fifth] [*insert number of days*] Banking Day following the transmission of the Exercise Notice, the Exercise Right is deemed to be not effectively exercised.

The amount of the Securities for which the Exercise Right shall be exercised, must comply with the Minimum Exercise Amount or an integral multiple thereof. Otherwise the amount of the Securities specified in the Exercise Notice will be rounded down to the nearest multiple of the Minimum Exercise Amount and the Exercise Right is deemed to be not effectively exercised with regard to the amount of Securities exceeding such amount. An Exercise Notice on fewer Securities than the Minimum Exercise Amount is invalid and has no effect.

Securities received by the Issuer and for which no effective Exercise Notice exists or the Exercise Right deems to be not effectively exercised, will be retransferred by the Issuer without undue delay at the expense of the relevant Security Holder.

Subject to the aforementioned provisions, the transmission of an Exercise Notice constitutes an irrevocable declaration of intent of the relevant Security Holder to exercise the respective Securities.

[In the case of Shares as Underlying, the following applies:

- (5) *Suspension of the Exercise Right:* The Exercise Right cannot be exercised:
- (a) during the period between the day, on which the company specified [in the "Underlying" column in Table [●]] in § 1 of the Product and Underlying Data (the "**Company**") publishes an offer to its shareholders to acquire (a) new shares or (b) warrants or other securities with conversion or option rights on shares of the Company, and the first day after the expiration of the period determined for the exercise of the purchase right;
  - (b) prior and after the shareholders' meeting of the Company, in the period from (and including) the last depositary day for shares and to (and including) the third Banking Day after the shareholders' meeting.

If the exercise of the Exercise Right is suspended on an Exercise Day according to the previous sentence, the Exercise Date will be postponed to the first Banking Day after such suspension.]

- ([●]) *Payment:* The Differential Amount will be paid five Banking Days after the respective Valuation Date pursuant to the provisions of § 6 of the Special Conditions.

The Knock-out Amount will be paid five Banking Days after the day, on which the Knock-out Event has occurred, pursuant to the provisions of § 6 of the Special Conditions.

## § 4

**Differential Amount, Knock-out Amount**

- (1) *Differential Amount:* The Differential Amount per Security equals an amount in the Specified Currency, which will be calculated or, respectively, specified by the Calculation Agent as follows:

*In the case of Securities, for which "Call" is specified [in the "Call/Put" column in Table [●]] in § 1 of the Product and Underlying Data:*

Differential Amount = (Relevant Reference Price - Strike) x Ratio [/] [x] FX (final) [/] [x] FX (1) (final) [/] [x] FX (2) (final)

However, the Differential Amount is not lower than the Minimum Amount.

*In the case of Securities, for which "Put" is specified [in the "Call/Put" column in Table [●]] in § 1 of the Product and Underlying Data:*

Differential Amount = (Strike - Relevant Reference Price) x Ratio [/] [x] [FX (final)] [/] [x] FX (1) (final) [/] [x] [FX (2) (final)]

However, the Differential Amount is not lower than the Minimum Amount.]

- (2) *Knock-out Amount:* The Knock-out Amount per Security equals an amount in the Specified Currency, which will be calculated or, respectively, specified by the Calculation Agent as follows:

*In the case of Securities, for which "Call" is specified [in the "Call/Put" column in Table [●]] in § 1 of the Product and Underlying Data:*

Knock-out Amount = (Exercise Price - Strike) x Ratio [/] [x] [FX (final)] [/] [x] FX (1) (final) [/] [x] [FX (2) (final)]

However, the Knock-out Amount is not lower than the Minimum Amount.

*In the case of Securities, for which "Put" is specified [in the "Call/Put" column in Table [●]] in § 1 of the Product and Underlying Data:*

Knock-out Amount = (Strike - Exercise Price) x Ratio [/] [x] [FX (final)] [/] [x] FX (1) (final) [/] [x] [FX (2) (final)]

However, the Knock-out Amount is not lower than the Minimum Amount.

- (3) When calculating or, respectively, determining the Differential Amount or, respectively, the Knock-out Amount, no fees, commissions or other costs charged by the Issuer or a third party authorised by the Issuer, will be taken into account.]

## § 2

### Interest

The Securities do not bear interest.

**§ 3**

**Exercise Right, Exercise, Knock-out, Payment**

- (1) *Exercise Right:* Subject to the occurrence of a Knock-out Event, the Security Holder shall be entitled, according to the Terms and Conditions of these Securities, to demand for each Security the payment of the Redemption Amount from the Issuer.
- (2) *Exercise:* Subject to the occurrence of a Knock-out Event, the Exercise Right will be automatically exercised on the Final Valuation Date.
- (3) *Knock-out:* Upon the occurrence of a Knock-out Event, the Exercise Right forfeits and the Knock-out Amount will be paid for each Security.
- (4) *Payment:* The Redemption Amount will be paid on the Final Payment Date pursuant to the provisions of § 6 of the Special Conditions.

The Knock-out Amount will be paid five Banking Days after the day, on which the Knock-out Event has occurred, pursuant to the provisions of § 6 of the Special Conditions.

**§ 4**

**Redemption Amount**

- (1) *Redemption Amount:* The Redemption Amount is specified in § 1 of the Product and Underlying Data.]

[Special Conditions that apply for all product types:

## § 5

[(intentionally left out)]

**[Issuer's Regular Call Right][,] [Issuer's Extraordinary Call Right]**

- [(1) *Issuer's Regular Call Right:* The Issuer may call the Securities in whole but not in part at each Exercise Date (the "**Regular Call Right**") and redeem them pursuant to § 4 (1) of the Special Conditions at the Differential Amount. In the case of such a call, [ either the Calculation Date immediately following the Exercise Date, in the case of Securities related to Underlying, for which "Yes" is specified in the "Italian Underlying" column in Table [●] in § 2 of the Product and Underlying Data, or, in the case of Securities related to Underlying, for which "No" is specified in the "Italian Underlying" column in Table [●] in § 2 of the Product and Underlying Data, the Exercise Date,] [the Calculation Date immediately following the Exercise Date,] [the Exercise Date,] at which the Issuer exercises its Regular Call Right (the "**Call Date**") is deemed to be the Valuation Date. The Exercise Right remains unaffected until the Call Date. With the beginning of the Call Date all Exercise Rights forfeit.

The Issuer will give notice of such call at least [*Insert notice period*] prior to the Call Date pursuant to § 6 of the General Conditions. Such notice shall be irrevocable and will specify the relevant Call Date.

The Differential Amount will be paid five Banking Days after the Call Date pursuant to the provisions of § 6 of the Special Conditions.]

- [(●) *Issuer's Extraordinary Call Right:* Upon the occurrence of a Call Event the Issuer may call the Securities extraordinarily by giving notice pursuant to § 6 of the General Conditions and redeem the Securities at their Cancellation Amount. Such call shall become effective at the time indicated in the notice. [*in the case of Securities governed by German law, insert:* The application of §§ 313, 314 BGB remains reserved.]

The "**Cancellation Amount**" shall be the fair market value of the Securities as of [the tenth Banking Day] [*insert days*] before the extraordinary call becomes effective, determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith] under then prevailing circumstances.

The determination of the fair market value is based on the economic equivalent of the Issuer's payment obligations to the Security Holders consistent with the provisions for the redemption profile, interest or other additional amounts of the Securities that would otherwise be due after the day on which the extraordinary call becomes effective and which is adjusted for taking into consideration the following parameters as of [the [tenth] [*insert number of days*] Banking Day before] [the day when] the extraordinary call becomes effective: the price of the Underlying, the remaining time to maturity, the estimated volatility, the expected dividends (if applicable), the current market interest rate as well as the interest spread associated with the credit default risk of the Issuer and any other relevant market parameter that can influence the value of the Securities. The Cancellation Amount will be paid within five Banking Days following the date as of which the extraordinary call becomes effective, or at the date specified in the above mentioned notice, as the case may be, pursuant to the provisions of § 6 of the Special Conditions.]

## § 6

**Payments**

*[In the case of Securities, where the Specified Currency is the Euro, the following applies:]*

- (1) *Rounding:* The amounts payable under these Terms and Conditions shall be rounded up or down to the nearest EUR 0.01, with EUR 0.005 being rounded upwards. However, at least the Minimum Amount shall be paid.]

*[In the case of Securities, where the Specified Currency is not Euro, the following applies:]*

- (1) *Rounding:* The amounts payable under these Terms and Conditions shall be rounded up or down to the smallest unit of the Specified Currency, with 0.5 of such unit being rounded upwards. However, at least the Minimum Amount shall be paid.]

*[In the case of Inline or Stay High/Stay Low Securities, the following applies:]*

- (1) (Intentionally left out)]
- (2) *Business day convention:* If the due date for any payment under the Securities (the "**Payment Date**") is not a Banking Day then the Security Holders shall not be entitled to payment until the next following Banking Day. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.
- (3) *Manner of payment, discharge:* All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such a payment.

*[In the case of Securities governed by German law, the following shall apply:]*

- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the default interest rate established by law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).]

*[In the case of Securities governed by Italian law, the following shall apply:]*

- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the legal interest rate ('*Saggio degli Interessi legali*'), pursuant to Section 1284 CC, without prejudice to any other mandatory provisions under Italian law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).]

## § 7

**Market Disruptions**

- (1) *Postponement:* Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on [a][the] Valuation Date [or Roll Over Date][or the [calendar day][Calculation Date][after][prior to] the Roll Over Date], the [respective] Valuation Date [or Roll Over Date] will be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists. [Should a Market Disruption Event with respect to the Underlying occur during a Dissolution Period, the respective Dissolution Period will be extended by the time, the Market Disruption Event has lasted.][The Knock-out Period will be extended respectively.]

[If a FX Market Disruption Event occurs on a FX Valuation Date, the respective FX Valuation Date will be postponed to the next following FX Calculation Date on which the FX Market Disruption Event no longer exists.]

Any Payment Date relating to such Valuation Date[,] [or] [Dissolution Period] [or FX Valuation Date][or Roll Over Date] [, as the case may be,] shall be postponed if applicable. Interest shall not be payable due to such postponement.

- (2) *Discretionary valuation:* Should the Market Disruption Event continue [at the [[●] Calculation Date before the][last Trading Day] [●] of the Relevant Futures Contract at the Reference Market] [*insert other date*] [for more than [30][*Insert number of Banking Days*] consecutive Banking Days] the Calculation Agent shall[, subject to the occurrence of a Futures Call Event,] determine [*in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)*] [*in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith*] [the respective Reference Price [or, respectively, the Exercise Price] [or FX] [or FX (1) and/or FX (2)] required for the calculations or, respectively, specifications described in the Terms and Conditions of these Securities] [or, respectively the Knock-out Amount] [a Reference Price] [a price of the Underlying (the "**Disrupted Price**")]. Such [Reference] [Disrupted] Price [or, respectively, Exercise Price] [or FX] [or FX (1) and/or FX (2)] shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Munich local time) [on the [31<sup>st</sup>][*Insert number of following Banking Day*] Banking Day] [or, if earlier,] [at the [[●] Calculation Date prior to the] [last Trading Day] [●] of the Relevant Future Contract at the Reference Market][*insert other date*] taking into account the economic position of the Security Holders. [This [Reference] [Disrupted] Price][or FX (1) and/or FX (2)] shall be deemed to be the relevant price of the Underlying with respect to the determination of the occurrence of a Knock-out Event, even though it has not been published [by the Relevant Exchange] [by the Index Sponsor] [on the FX Screen Page] [on the Screen Page for the Continuous Observation].]

[If within these [30][*Insert number of Banking Days*] Banking Days traded Derivatives of the Underlying<sub>[1]</sub> [or, respectively, its components] expire and are settled on the Determining Futures Exchange, the settlement price established by the Determining Futures Exchange for the there traded Derivatives will be taken into account in order to [conduct the calculations or, respectively, specifications described in the Terms and Conditions of these Securities] [determine the [Reference] [Disrupted] Price] [or FX (1) and/or FX (2)]. In that case, the expiration date for those Derivatives is the relevant Valuation Date.]

[Should the FX Market Disruption Event continue for more than [30][*Insert number of Banking Days*] consecutive Banking Days, the Calculation Agent shall determine [*in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)*] [*in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith*] the respective [FX] [FX (1) and/or FX (2)]. The [FX] [FX (1) and/or FX (2)]-fixing required for the calculations or, respectively, specifications described in the Terms and Conditions of these Securities shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Munich local time) on the [31<sup>st</sup>][*Insert number of following Banking Day*] Banking Day, taking into account the economic position of the Security Holders.]

[In the case of Shares as Underlying, the following applies:

## § 8

### Adjustments, Replacement Specification

- (1) *Adjustments:* Upon the occurrence of an Adjustment Event the Terms and Conditions of these Securities (in particular the Underlying, the Ratio and/or all prices of the Underlying, which have been specified by the Calculation Agent) and/or all prices of the Underlying determined by the Calculation Agent on the basis of the Terms and Conditions of these Securities shall be adjusted in such a way that the economic position of the Security Holders remains unchanged to the greatest extent possible. Such adjustments shall be made by the Calculation Agent [*in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)*] [*in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith*]. Any such adjustment will be performed

taking into consideration any adjustments made by the Determining Futures Exchange to the there traded Derivatives linked to the Underlying, and the remaining term of the Securities as well as the latest available price of the Underlying. If the Calculation Agent determines that, pursuant to the rules of the Determining Futures Exchange, no adjustments were made to the Derivatives linked to the Underlying, the Terms and Conditions of these Securities shall regularly remain unchanged. The exercised adjustments and the date of the first application shall be notified pursuant to § 6 of the General Conditions.

- (2) *Replacement Specification:* If a price of the Underlying published by the Relevant Exchange pursuant to the Terms and Conditions of these Securities will subsequently be corrected and the correction (the "**Corrected Value**") will be published by the Relevant Exchange after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify and publish the respective value by using the Corrected Value (the "**Replacement Specification**") pursuant to § 6 of the General Conditions.
- (3) *[In the case of Securities governed by German law, insert: The application of §§ 313, 314 BGB remains reserved.]*

*[In the case of Indices as Underlying, the following applies:*

## § 8

### **Index Concept, [Adjustments, Replacement Underlying,] New Index Sponsor and New Index Calculation Agent, Replacement Specification**

- (1) *Index Concept:* The basis for the calculations or, respectively, specifications of the Calculation Agent described in the Terms and Conditions of these Securities shall be the Underlying with its provisions currently applicable, as developed and maintained by the Index Sponsor, as well as the respective method of calculation, determination, and publication of the price of the Underlying (the "**Index Concept**") applied by the Index Sponsor. This shall also apply if during the term of the Securities changes are made or occur in respect of the Index Concept, or if other measures are taken, which have an impact on the Index Concept, unless otherwise provided in the below provisions.
- (2) *Adjustments:* Upon the occurrence of an Adjustment Event the Terms and Conditions of these Securities [, if necessary] (in particular the [respective] Underlying, the Ratio and/or all prices of the [respective] Underlying, which have been specified by the Calculation Agent) and/or all prices of the [respective] Underlying determined by the Calculation Agent on the basis of the Terms and Conditions of these Securities shall be adjusted in such a way that the economic position of the Security Holders remains unchanged to the greatest extent possible. Such adjustments shall be made by the Calculation Agent *[in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)]* *[in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith]*. Any such adjustment will be performed taking into consideration any adjustments made by the Determining Futures Exchange to the there traded Derivatives linked to the Underlying, and the remaining term of the Securities as well as the latest available price of the [respective] Underlying. If the Calculation Agent determines that, pursuant to the rules of the Determining Futures Exchange, no adjustments were made to the Derivatives linked to the [respective] Underlying, the Terms and Conditions of these Securities regularly remain unchanged. The exercised adjustments and the date of the first application shall be notified according to § 6 of the General Conditions.
- (3) *Replacement Underlying:* In cases of an Index Replacement Event or an Index Usage Event, the adjustment pursuant to paragraph (2) is usually made by the Calculation Agent *[in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)]* *[in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith]* determining, which index should be used in the future as Underlying (the "**Replacement Underlying**"). If necessary, the Calculation Agent will make further adjustments to the Terms and Conditions of these Securities (in particular to

the Underlying, the Ratio and/or all prices of the Underlying, which have been specified by the Issuer) and/or all prices of the Underlying determined by the Calculation Agent pursuant to the Terms and Conditions of these Securities in such a way that the economic position of the Security Holders remains unchanged to the greatest extent possible. The Replacement Underlying and the adjustments made as well as the time of its first application will be published in accordance with § 6 of the General Conditions. From the first application of the Replacement Underlying on, any reference to the replaced Underlying in the Terms and Conditions of these Securities shall be deemed to refer to the Replacement Underlying.]

[(4)](2) *New Index Sponsor and New Index Calculation Agent:* If the Underlying is no longer determined by the Index Sponsor but rather by another person, company or institution (the "**New Index Sponsor**"), then all calculations or, respectively, specifications described in the Terms and Conditions of these Securities shall occur on the basis of the Underlying as determined by the New Index Sponsor. In this case, any reference to the replaced Index Sponsor in the Terms and Conditions of these Securities shall be deemed to refer to the New Index Sponsor. If the Underlying is no longer calculated by the Index Calculation Agent but rather by another person, company or institution (the "**New Index Calculation Agent**"), then all calculations or, respectively, specifications described in the Terms and Conditions of these Securities shall occur on the basis of the Underlying as calculated by the New Index Calculation Agent. In this case, any reference to the replaced Index Calculation Agent in the Terms and Conditions of these Securities shall be deemed to refer to the New Index Calculation Agent.

[(5)](3) *Replacement Specification:* If a price of the Underlying published by the Index Sponsor or the Index Calculation Agent, as the case may be, pursuant to the Terms and Conditions of these Securities will subsequently be corrected and the correction (the "**Corrected Value**") will be published by the Index Sponsor or the Index Calculation Agent, as the case may be, after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify and publish pursuant to § 6 of the General Conditions the relevant value by using the Corrected Value (the "**Replacement Specification**").

[(6)](4) [In the case of Securities governed by German law, insert: The application of §§ 313, 314 BGB remains reserved.]]

[In the case of commodities as Underlying, the following applies:

## § 8

### Relevant Trading Conditions, Adjustments, Replacement Reference Market

- (1) *Relevant Trading Conditions:* The basis for the calculations or, respectively, specifications of the Calculation Agent described in the Terms and Conditions of these Securities shall be the Underlying taking in consideration
  - (a) the method of price determination,
  - (b) the trading conditions (in particular in terms of the quality, the quantity and the currency of trading) and
  - (c) other value determining factors,
 applicable on the Reference Market in respect of the Underlying (together the "**Relevant Trading Conditions**"), unless otherwise provided in below provisions.
- (2) *Adjustments:* Upon the occurrence of an Adjustment Event the Terms and Conditions of these Securities (in particular the Underlying, the Ratio and/or all prices of the Underlying, which have been specified by the Calculation Agent) and/or all prices of the Underlying determined by the Calculation Agent on the basis of the Terms and Conditions of these Securities shall be adjusted in such a way that the economic position of the Security Holders remains unchanged to the greatest extent possible. Such adjustments shall be made by the Calculation Agent [in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et

seq. BGB)] [in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith]. Any such adjustment will be performed taking into consideration any adjustments made by the Determining Futures Exchange to the there traded Derivatives linked to the Underlying, and the remaining term of the Securities as well as the latest available price of the Underlying. If the Calculation Agent determines that, pursuant to the rules of the Determining Futures Exchange, no adjustments were made to the Derivatives linked to the Underlying, the Terms and Conditions of these Securities shall regularly remain unchanged. The exercised adjustments and the date of the first application shall be notified according to § 6 of the General Conditions.

- (3) *Replacement Reference Market:* In the event of
- (a) a final discontinuation of the trading in the Underlying at the Reference Market,
  - (b) a material change of the market conditions at the Reference Market or
  - (c) a material limitation of the liquidity of the Underlying at the Reference Market,

with the trading in the same commodity being continued on another market without restrictions, the Calculation Agent [*in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)*] [*in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith*] shall determine that such other market will be used in the future as Reference Market (the "**Replacement Reference Market**"). If necessary, the Calculation Agent will make further adjustments to the Terms and Conditions of these Securities (in particular to the Underlying, the Ratio and/or all prices of the Underlying, which have been specified by the Issuer) and/or all prices of the Underlying determined by the Calculation Agent pursuant to the Terms and Conditions of these Securities in order to account for any difference in the method of price determination and the trading conditions applicable to the Underlying on the Replacement Reference Market (in particular in terms of the quality, the quantity and the currency of trading) (together the "**New Relevant Trading Conditions**"), as compared to the original Relevant Trading Conditions. The Replacement Reference Market and the performed adjustments and the time that it is first applied will be published in accordance with § 6 of the General Conditions. Commencing with the first application of the Replacement Reference Market, any reference to the replaced Reference Market in the Terms and Conditions of these Securities shall be deemed to refer to the Replacement Reference Market.

- [(4) *Replacement Specification:* If a price of the Underlying published by the Reference Market pursuant to the Terms and Conditions of these Securities is subsequently corrected and the correction (the "**Corrected Value**") is published by the Reference Market within [30][90] [●] calendar days after the original publication, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify and publish pursuant to § 6 of the General Conditions the relevant value by using the Corrected Value (the "**Replacement Specification**").]

- [(●)] [*In the case of Securities governed by German law, insert: The application of §§ 313, 314 BGB remains reserved.*]

[In the case of currency exchange rates as Underlying, the following applies:

## § 8

### Adjustments

- (1) *Adjustments:* Upon the occurrence of an Adjustment Event the Terms and Conditions of these Securities (in particular the Underlying, the Ratio and/or all prices of the Underlying, which have been specified by the Calculation Agent) and/or all prices of the Underlying determined by the Calculation Agent on the basis of the Terms and Conditions of these Securities shall be adjusted in such a way that the economic position of the Security Holders remains unchanged to the greatest extent possible. Such adjustments shall be made by the Calculation Agent [*in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et*

seq. BGB)] [*in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith*]. Any such adjustment will be performed taking into consideration any adjustments made by the Determining Futures Exchange to the there traded Derivatives linked to the Underlying, and the remaining term of the Securities as well as the latest available price of the Underlying. If the Calculation Agent determines that, pursuant to the rules of the Determining Futures Exchange, no adjustments were made to the Derivatives linked to the Underlying, the Terms and Conditions of these Securities regularly remain unchanged. The exercised adjustments and the date of the first application shall be notified according to § 6 of the General Conditions.

- (2) [*In the case of Securities governed by German law, insert: The application of §§ 313, 314 BGB remains reserved.*]

[In the case of futures contracts as Underlying, the following applies:

## § 8

### **Contract Specifications, Adjustments, Replacement Futures Contract, Replacement Reference Market**

- (1) *Contract Specifications:* The basis for the calculations or, respectively, specifications of the Calculation Agent described in the Terms and Conditions of these Securities shall be the Underlying under consideration of
- (a) the method of price determination,
  - (b) the trading conditions (in particular in terms of the quality, the quantity and the currency of trading),
  - (c) the contract date and
  - (d) other value determining factors,
- applicable on the Reference Market in respect of the Underlying (together the "**Contract Specifications**"), unless otherwise provided in below provisions.
- (2) *Adjustments:* Upon the occurrence of an Adjustment Event the Terms and Conditions of these Securities (in particular the Underlying, the Ratio and/or all prices of the Underlying, which have been specified by the Calculation Agent) and/or all prices of the Underlying determined by the Calculation Agent on the basis of the Terms and Conditions of these Securities shall be adjusted in such a way that the economic position of the Security Holders remains unchanged to the greatest extent possible. Such adjustments shall be made by the Calculation Agent [*in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)*] [*in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith*]. The Calculation Agent will take into account [*the adjustments of the Derivatives linked to the Underlying actually performed by the Determining Futures Exchange and*] the remaining term of the Securities as well as the latest available price of the Underlying. [*If the Calculation Agent determines that, pursuant to the rules of the Determining Futures Exchange, no adjustments are made to the Derivatives linked to the Underlying, the Terms and Conditions of these Securities will regularly remain unchanged.*] The exercised adjustments and the date of the first application shall be notified according to § 6 of the General Conditions.
- (3) *Replacement Futures Contract, Replacement Reference Market:* In the event of
- (a) a final discontinuation of the trading in or a termination of the Relevant Futures Contract prior to the regular last trading day which has been specified for the respective Relevant Futures Contract by the Reference Market,
  - (b) any material change of the market conditions at the Reference Market, in general, [or
  - (c) the absence of [another Futures Contract][a Futures Contract with the next following

expiry date][at the Reference Market][which is linked to the same Reference Asset][and][having a remaining term of at least [one month][*insert other provision with regard to the remaining term*]], which shall replace the current Relevant Futures Contract at the Roll Over Date, or]

([●]) a material limitation of the liquidity of the Underlying at the Reference Market,

with the trading in another futures contract [linked to the same Reference Asset] [or] [linked to a reference asset allocated to the same commodity type] [as the Underlying] [or, regarding the issuer and term(s), with comparable notes as Reference Asset] [and with Contract Specifications materially comparable to the original Contract Specifications [(except for the contract date)]] being continued on the Reference Market or another market without restrictions, the Calculation Agent [*in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)*] [*in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith*] shall determine which of such other futures contract (the "**Replacement Futures Contract**") and, insofar the Replacement Futures Contract will not be traded on the Reference Market but another market, that such other market will be used in the future as Reference Market (the "**Replacement Reference Market**").

If necessary, the Calculation Agent, moreover, will make further adjustments to the Terms and Conditions of these Securities (in particular to the Ratio and/or all prices of the Underlying, which have been specified by the Issuer) and/or all prices of the Underlying determined by the Calculation Agent pursuant to the Terms and Conditions of these Securities to account for any difference in the method of price determination and the trading conditions (in particular in terms of the quality, the quantity and currency of trading), the contract date and other value determining factors applicable to the Replacement Futures Contract on the Reference Market or the Replacement Reference Market (together the "**New Contract Specifications**"), as compared to the original Contract Specifications.

The Replacement Futures Contract, the Replacement Reference Market (if any), the exercised adjustments and the time that it is first applied will be published in accordance with § 6 of the General Conditions. Commencing with the first application of the Replacement Futures Contract and the Replacement Reference Market (if any), any references to the substituted Underlying and to the substituted Reference Market in the Terms and Conditions of these Securities shall be deemed to refer to the Replacement Futures Contract and Replacement Reference Market.

[(4) *Replacement Specification: If a price of the Underlying published by the Reference Market pursuant to the Terms and Conditions of these Securities will subsequently be corrected and the correction (the "**Corrected Value**") will be published by the Reference Market within [30][90] [●] calendar days after the original publication, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify and publish pursuant to § 6 of the General Conditions the relevant value by using the Corrected Value (the "**Replacement Specification**").]*

([●]) [*In the case of Securities governed by German law, insert: The application of §§ 313, 314 BGB remains reserved.*]

[In the case of a currency exchange rate as Underlying or in the case of Compo Securities, the following applies:

## § 9

### New Fixing Sponsor, Replacement Exchange Rate

(1) *New Fixing Sponsor:* In the event that [the Underlying] [at least one component of the Underlying] [the [FX] Exchange Rate] [FX] [FX (1) and/or FX (2)] [FX Exchange Rate (1) and/or FX Exchange Rate (2)] is no longer determined and published by the Fixing Sponsor or, in case of a not only immaterial modification in the method of determination and/or publication [of the Underlying] [of at least one of the components of the Underlying] [the

[FX] Exchange Rate] [of FX (1)] [of FX (1) and/or FX (2)] [FX Exchange Rate (1) and/or FX Exchange Rate (2)] by the Fixing Sponsor (including the time of the determination and/or publication), the Calculation Agent has the right [, in particular,] to determine the calculations or, respectively, specifications of the Calculation Agent described in the Terms and Conditions of these Securities on the basis of the determinations and publications by another person, company or institution (the "**New Fixing Sponsor**"). The Calculation Agent shall determine [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith] whether such event occurs and which other person, company or institution shall act as the New Fixing Sponsor (the "**New Fixing Sponsor**"). The New Fixing Sponsor and the time of its first application shall be published pursuant to § 6 of the General Conditions. In this case, any reference to the replaced Fixing Sponsor in the Terms and Conditions of these Securities shall be deemed to refer to the New Fixing Sponsor.

- (2) *Replacement Exchange Rate:* In the event that [the FX Exchange Rate] [the [official] fixing [of at least one component of the Underlying]] [FX] [FX (1) and/or FX (2)] [FX Exchange Rate (1) and/or FX Exchange Rate (2)] is no longer determined and published, the calculations or, respectively, specifications described in the Terms and Conditions of these Securities shall occur on the basis of price of the [Underlying] [respective component of the Underlying] [[FX] Exchange Rate] [FX] [FX (1) and/or FX (2)] [FX Exchange Rate (1) and/or FX Exchange Rate (2)] determined and published on the basis of another method, which will be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith] (the "**Replacement Exchange Rate**"). [If necessary, the Calculation Agent will make further adjustments to the Terms and Conditions of these Securities (in particular [to the determination or to the method of the calculation of the Differential Amount [and/or to the Knock-out Amount][,][to the Ratio][and/or][all prices of the Underlying [or of its components] determined by the Calculation Agent]) and/or all prices of the Underlying [or of its components] determined by the Calculation Agent pursuant to the Terms and Conditions on the basis of the Terms and Conditions in such way that the economic position of the Security Holders remains unchanged to the greatest extent possible.] The Replacement Exchange Rate and the time of its first application shall be published pursuant to § 6 of the General Conditions. In this case any reference to [the replaced FX Exchange Rate] [the [official] fixing [of the respective component] of the Underlying] [the replaced [FX]] [to the replaced FX (1) and/or FX (2)] [to the replaced FX Exchange Rate (1) and/or FX Exchange Rate (2)] in the Terms and Conditions of these Securities shall be deemed to refer to the Replacement Exchange Rate.
- (3) [*In the case of Securities governed by German law, insert:* The application of §§ 313, 314 BGB remains reserved.]]

## TAXES

The following section discusses certain tax issues associated with the purchase, ownership and disposal of the Securities. The discussion is limited to certain tax issues in the Czech Republic, France, Italy and the United States of America.

In addition, it is not intended as a comprehensive discussion of all possible tax consequences under those legal systems. It is quite possible that there are other tax considerations that may be relevant when making a decision to invest in the Securities. As each Security may be subject to different tax treatment due to the special conditions of the issue in question as indicated in the Final Terms, the following section also contains only very general information on the possible tax treatment. In particular, the discussion does not take into account special aspects or circumstances that may be relevant to the individual investor. It is based on the tax laws in effect in Italy, France, the Czech Republic and the United States of America on the date of this Base Prospectus. These laws are subject to change. Such changes can also be made retroactively.

The taxation of income from the securities also depends on the concrete terms and conditions of the securities and the individual tax situation of each investor.

**The issuer assumes no responsibility for deducting any withholding taxes.**

**Investors and interested parties are urgently advised to consult their tax advisor with regard to taxation in their particular case.**

### International Exchange of Information

Based on the "OECD Common Reporting Standard (CRS)" states, which have committed themselves to apply the OECD Common reporting Standards ("**Participating States**"), exchange information with respect to financial accounts held by persons in an other Participating State. The same applies to Member States of the European Union. Based on the extended Mutual Assistance Directive 2011/16/EU (amended by Directive 2014/107/EU and by Directive 2018/822/EU) Member States exchange information with respect to certain reporting accounts of persons domiciled in an other Member State. Investors should obtain information and/or seek advice on further developments.

### Financial Transaction Taxes

#### *European Financial Transaction Tax*

The European Commission has issued a draft directive (the "**Commission Proposal**") for a common system of financial transaction tax ("**FTT**") in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Portugal, Slovenia and Slovakia (the "**Participating Member States**"). However, Estonia decided not to take part in the discussions anymore. Luxembourg decided not to participate in the Commission proposal.

The scope of the Commission Proposal is very broad and the proposal could, insofar as it is introduced, under certain conditions apply to specific security transactions (especially secondary market transactions).

The proposed FTT is subject to negotiations between the Participating Member States with respect to the exact form and the timing. It may therefore be altered prior to any implementation. Additional EU Member States may decide to join while Participating Member States might propose changes or cancel their participations.

Besides a possible FTT, France and Italy have already introduced its own financial transaction tax.

Investors are advised to seek professional advice regarding financial transaction taxes.

### ***French Financial Transaction Taxes***

France decided the introduction of a French Financial Transaction Tax (FFTT) by law of 14 March 2012 (see. Art. 5 of Law no. 2012-354). Taxable is the purchase and certain corporate actions of French equities, ADRs and certificates if these

- are admitted for trading on a regulated French, European or foreign market and
- if the acquisition justifies a transfer of ownership (e.g. pecuniary deposit transfer, exercise of an option/ of a forward contract, swap or assignment of securities against pecuniary) and
- were issued by a company whose registered office is located in France and its market capitalization had exceeded 1 billion euros on December 1 of the year preceding the tax year.

### ***Italian Financial Transaction Taxes***

In 2012, the Italian Parliament has passed the law on Italian Financial Transaction Tax (IFTT) "Law no. 228/2012". Effective since 1 March 2013, the acquisition of

- Stocks of Italian limited companies whose capitalization exceeds EUR 500 million and
- other equity instruments of these public limited companies (this includes e.g. DRs<sup>14</sup>)

is taxable. The tax is payable for the relevant products regardless of the transaction location or the legal seat of the parties involved.

According to the law, the taxation of derivatives is carried out since 1 September 2013. Concerning derivatives the IFTT arises for both contracting parties (buyer- and seller-party).

## **Czech Republic**

*The information set out below is of a general nature and relates only to certain principal Czech tax considerations and is neither intended to be, nor should it be regarded as, legal or tax advice. The information is based on the tax laws of the Czech Republic as in effect on the date of this Base Prospectus and their prevailing interpretations available on or before such date. The information does not purport to be complete with respect to all tax information that may be relevant to investors to a decision to acquire the Securities. Prospective purchasers of Securities are advised to consult their professional tax advisor regarding the tax consequences of the purchase, ownership, disposal, redemption or transfer without consideration of Securities.*

*For the purposes of this information, it has been assumed that the Issuer is neither a resident for tax purposes nor has a permanent establishment in the Czech Republic.*

### ***Taxation of Securities in the Czech Republic***

#### ***Income tax***

The following section begins with a description of the tax aspects for persons considered tax resident in the Czech Republic, followed by a description of the tax aspects for persons considered tax non resident in the Czech Republic.

#### ***Persons considered tax resident in the Czech Republic***

Tax residents of the Czech Republic are obliged to pay income tax in the Czech Republic on their world-wide income (unlimited tax liability). This applies regardless the source of the income and includes interest from financial claims of any kind (e.g. the securities) and, as a rule, gains on disposal.

---

<sup>14</sup> So-called Depository Receipts or Global Depository Receipts. These certificates representing ownership of a stored stock.

Individuals are subject to personal income tax and legal entities to corporate income tax. This section does not discuss the special aspects of the taxation of partnerships.

An individual is deemed to be a tax resident in the Czech Republic if he/she has a permanent home in the Czech Republic or stays in the Czech Republic for more than 183 days in a calendar year either continuously or intermittently (subject to double tax treaty rules). Legal entities are deemed to be tax residents in the Czech Republic if they have a registered seat or place of effective management in the Czech Republic (subject to double tax treaty rules).

**(a) Acquiring of Securities**

*Securing tax*

In general, Czech tax residents (or Czech permanent establishments of Czech tax non-residents) acquiring securities are required, under their own responsibility, to withhold and remit to Czech tax authorities 1 % securing tax from the acquisition price when acquiring investment instruments, such as Securities, from a seller who is a tax resident outside the European Union or the European Economic Area. Such obligation can be eliminated under a tax treaty concluded between the Czech Republic and the country of which the seller is a tax resident. Furthermore, it can be waived in advance based on a decision of the Czech tax authority.

**(b) Holding of Securities**

No yield is paid during the holding period. As no income is paid, no Czech tax arises to individuals. As regards legal entities, tax may arise depending on accounting treatment of the Securities during the holding period.

**(c) Disposing of Securities**

The income from the sale of the Securities is tax free for an individual if either (i) the sale price (income) does not exceed CZK 100,000 in the tax year or (ii) the individual has held the securities at least three years before the sale. If the individual receives tax free income exceeding CZK 5,000,000, the income is subject to a separate reporting to the tax authority (the tax free income is not declared in the individual's tax return). However, special rules apply in case the Securities are part of an individual's business assets.

Any other capital gains derived from the Securities (e.g. the difference between the capital payment and the acquisition price) are subject to income tax in the Czech Republic without any tax exemptions. Expenses relating to acquisition and redemption of the Securities may further decrease the tax base.

***Persons considered tax non-resident in the Czech Republic***

Persons who are not tax residents in the Czech Republic are obliged to pay income tax in the Czech Republic on their Czech source income (limited tax liability) only. They are liable for tax payments in the Czech Republic on capital gains from Securities only if the income is paid by the Czech tax resident and a particular double tax treaty allows so. However, as special cases may arise, these should be determined on a case by case basis.

**France**

*The following is a general description of certain French withholding tax consequences relating to the Securities. It does not purport to be a description of general French tax considerations relating to the Securities. Prospective investors are advised to consult their own professional advisors to obtain information about the tax consequences of the acquisition, ownership, disposition or redemption of the Securities. Only personal advisors are in a position to adequately take into account special tax aspects of the particular Securities in question as well as the investor's personal circumstances and any special tax treatment applicable to the investor. This summary is based on French law as in force as of the date of this Base Prospectus. The laws and their interpretation by the tax authorities may change and such changes may have retroactive effect.*

***Withholding tax***

Income paid or accrued on the Securities, to the extent such Securities are not issued by an Issuer incorporated in France or otherwise acting through a French permanent establishment, is not, in principle, mandatorily subject to withholding tax in France.

However, as from January 1<sup>st</sup> 2018, according to articles 125 A and 125 D of the French Tax Code ("FTC"), French resident individual taxpayers receiving interest on debt instruments from France or from abroad, such as the Securities, are subject to a non-definitive withholding tax ("prélèvement à la source obligatoire non libératoire de l'impôt sur le revenu") at the rate of 12.8% (plus social contributions at the aggregate rate of 17.2%). The 12.8% levy is a prepayment of income tax; it is credited against the individual income tax due and is reimbursed if it exceeds the individual income tax due. If the paying agent of the interest is located in France, such paying agent must file the related tax return and perform the payment of the levy (article 125 A, I of the FTC). If the paying agent is not located in France, the filing and the payment of the levy is to be made by the beneficial owner of the interest. In the case the paying agent is located in a European Union Member State, Iceland, Norway or Liechtenstein, the filing and the payment of the levy may be performed by the paying agent located in such State upon request of the beneficial owner (article 125 D, IV of the FTC).

***Other tax considerations***

Concerning prospective purchasers of Securities who are French resident for tax purposes or who would hold Securities through a permanent establishment or a fixed base in France, please note that transactions involving the Securities, including any purchase or disposal of, or other dealings in the Securities and any transaction involved in the exercise and settlement of the Securities, may have French tax consequences.

The tax consequences regarding notably interest, premium on redemption, any other proceeds from the Securities and capital gains, as the case may be, may depend, amongst other things, upon the status of the prospective purchaser (i.e. legal entities or individuals) and on the specific terms and conditions of the relevant Securities.

***EU Savings Directive and tax information exchange***

The EU Savings Directive has been implemented into French law under article 242 ter of the FTC and articles 49 I ter to 49 I sexies of Annex III to the FTC, which imposes on paying agents based in France an obligation to report to the French tax authorities certain information with respect to interest payments made to beneficial owners domiciled in another Member State, including, among other things, the identity and address of the beneficial owner and a detailed list of the different categories of interest paid to that beneficial owner. Similar obligations may apply as a result of the implementation of other tax information exchange mechanisms such as FATCA or the OECD standard of interstate exchange of information ("CRS") or the European automatic exchange of information ("DAC 2")<sup>15</sup>.

**Italy**

*This section contains a brief summary on tax implications related to the Securities for Italian tax laws purposes. This summary does not purport to exhaustively describe all possible tax aspects and does not deal with particular situations which may be of relevance for specific potential investors. It is based on the currently valid Italian tax legislation, case law and regulations of the tax authorities, as well as their respective interpretation as of the date of this Base Prospectus, all of which may be amended from time to time. Such amendments may also be effected with retroactive effect and may negatively impact the tax consequences described below. Potential purchasers of the Securities should consult with their legal and tax advisors to check tax implications of their possible investment in the Securities.*

<sup>15</sup> European Directives 2011/16/EU dated 9 December 2011 and 2014/107/EU dated 9 December 2014.

*This section does not constitute a tax advice and does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Securities and does not purport to deal with the tax consequences applicable to all categories of investors, some of which may be subject to special rules.*

### ***Tax Treatment of the Securities***

*Interest and other proceeds - Securities that qualify as "obbligazioni o titoli similari alle obbligazioni" (bonds)*

For income tax purposes, debentures similar to bonds are defined as securities that incorporate an unconditional obligation to pay, at maturity, an amount not less than their nominal value (i.e., the issuer is legally obliged to reimburse the principal amount to the bond holder) and that do not give any right to directly or indirectly participate in the management of the relevant issuer or of the business in relation to which they are issued. Pursuant to Legislative Decree No. 239 of April 1, 1996 ("**Decree No. 239**"), as amended and restated, and pursuant to Art. 44 paragraph 2(c) of Presidential Decree No. 917 of December 22, 1986 ("**Decree No. 917**"), as amended and restated, in general, interest and other proceeds (including the difference between the redemption amount and the issue price) in respect of securities that qualify as bonds or debentures similar to bonds and that are issued by a non-Italian resident issuer may be subject to final Italian substitutive tax if owed to beneficial owners resident in Italy for tax purposes, depending on the legal status of the beneficial owners.

#### *Italian Resident Security Holders Applicability of Substitutive Tax*

In particular, pursuant to Decree No. 239, as amended and restated, payments of interest and other proceeds in respect of securities that qualify as "bonds" to Italian resident beneficial owners (either when interest and other proceeds are paid or when payment thereof is obtained by a beneficial owner on a transfer of Securities) will be subject to final substitutive tax at a rate of 26.0% in Italy if made to Italian resident beneficial owners that are: (i) private individuals holding Securities not in connection with an entrepreneurial activity (unless they have entrusted the management of their financial assets, including the Securities, to an Italian authorised financial intermediary and have opted for the *Risparmio Gestito* regime ("**Asset Management**" regime) provided for by Article 7 of Legislative Decree No. 461 of November 21, 1997 ("**Decree No. 461**")); (ii) Italian resident non-commercial partnerships; (iii) public and private entities, other than companies, not carrying out commercial activities as their exclusive or principal activity; (iv) entities exempt from corporate income tax.

In case the Securities are held by an individual or by an entity indicated above under (iii), in either case in connection with an entrepreneurial activity, interest and other proceeds relating to the Securities will be subject to the substitutive tax and will be included in the relevant beneficial owner's income tax return. As a consequence, the interest and other proceeds will be subject to the ordinary income tax and the substitutive tax may be recovered as a deduction from the income tax due. The 26.0% substitutive tax will be applied by the Italian resident qualified financial intermediaries as defined by Italian law that will intervene, in any way, in the collection of interest and other proceeds on the Securities or in the transfer of the Securities.

If interest and other proceeds on the Securities are not collected through an Italian resident qualified intermediary as defined by Italian law and as such no substitutive tax is levied, the Italian resident beneficial owners listed above under (i) to (iv) will be required to include interest and other proceeds in their yearly income tax return and subject them to final substitute tax at a rate of 26.0%, unless an option is allowed and made for a different regime.

#### *Italian Resident Security Holders Substitutive Tax Not Applicable*

Pursuant to Decree No. 239, as amended and restated, payments of interest and other proceeds in respect of Securities that qualify as 'bonds' to Italian resident beneficial owners will not be subject to the substitutive tax at the rate of 26.0% if made to beneficial owners that are: (i) Italian resident individuals holding Securities not in connection with entrepreneurial activity who have entrusted the management of their financial assets, including the Securities, to an Italian authorised financial intermediary and have opted for the *Asset Management* regime; (ii) Italian resident collective investment funds, SICAVs and SICAFs (the "**Italian Resident Undertaking for Collective**

**Investment**") and pension funds referred to in Legislative Decree No. 124 of April 21, 1993; (iii) Italian resident real estate investment funds; (iv) Italian resident corporations or permanent establishments in the Republic of Italy of non-resident corporations to which the Securities are effectively connected; (v) Italian resident partnerships carrying out a commercial activity to which the Securities are effectively connected; or (vi) public and private entities, other than companies, carrying out commercial activities and holding Securities in connection with the same commercial activities.

If the Securities are part of an investment portfolio managed on a discretionary basis by an Italian authorised intermediary and the beneficial owner of the Securities has opted for the Asset Management regime, the annual substitute tax at a rate of 26.0% (the "**Asset Management Tax**") applies on the increase in value of the managed assets accrued, even if not realised, at the end of each tax year (such increase includes interest and other proceeds accrued on Securities). The Asset Management Tax is applied on behalf of the taxpayer by the managing authorised intermediary.

Interest and other proceeds accrued on the Securities held by Italian resident corporations, commercial partnerships, individual entrepreneurs holding the Securities in connection with entrepreneurial activities or permanent establishments in Italy of non-resident corporations to which the Securities are effectively connected, are included in the taxable base for the purposes of: (i) corporate income tax (*imposta sul reddito delle società*, "**IRES**") at 24% or (ii) individual income tax (*imposta sul reddito delle persone fisiche*, "**IRPEF**"), at progressive rates ranging from 23.0% to 43.0%, plus local surcharges, if applicable; under certain circumstances, such interest is included in the taxable basis of the regional tax on productive activities (*imposta regionale sulle attività produttive*, "**IRAP**"), at a general rate of 3.9% (regions may vary the rate up to 0.92%).

Italian Resident Undertakings for Collective Investment are not subject to tax on accrued interest and other proceeds, unless provided by specific provisions of law. In such cases, withholding taxes are applied as final withholding taxes. In particular, pursuant to Article 73, paragraph 5-quinquies, of Decree No. 917, Italian Resident Undertaking for Collective Investment are considered as a taxable person for IRES purposes, though the income realised (with only few exceptions) is exempt from taxation.

Italian resident pension funds are subject to a 20% annual substitutive tax (the "**Pension Fund Tax**") in relation to the increase in value of the managed assets accrued at the end of each tax year.

Any positive difference between the nominal amount of the Securities and their issue price is deemed to be interest for tax purposes. To ensure payment of interest and other proceeds in respect of the Securities without application of the substitutive tax, where allowed, investors indicated here above under (i) to (vi) must be the beneficial owners of payments of interest and other proceeds on the Securities and timely deposit the Securities, together with the coupons relating to such Securities, directly or indirectly, with an Italian authorised financial intermediary as defined by Italian law.

#### *Non-Italian Resident Security Holders*

Interest and other proceeds paid on Securities by the non-Italian resident Issuer to a beneficial owner who is not resident in Italy for tax purposes, without a permanent establishment in Italy to which the Securities are effectively connected, should not be subject to any Italian taxation. In any case an Italian resident bank or intermediary, as defined by Italian law, intervenes in the payment of interest and other proceeds on the Securities, to ensure payment of interest and other proceeds without application of Italian taxation a non-Italian resident Security Holder may be required to produce to the Italian bank or other intermediary as defined by Italian law a self-declaration certifying to be the beneficial owner of payments of interest and other proceeds on the Securities and not to be resident in Italy for tax purposes.

#### *Tax treatment of Securities that do not qualify as bonds'*

The following applies to Securities containing a derivative agreement (or similar mechanism) in the relevant terms and conditions.

Securities whose proceeds (a) do not qualify as proceeds from bonds (*'obbligazioni'*) or debentures similar to bonds (*'titoli similari alle obbligazioni'*) pursuant to Art. 44 of the *TUIR*, but (b) qualify as

*Redditi diversi* (sundry income) pursuant to Article 67 of Decree No. 917 may fall under the joint provisions of Article 67 Decree No. 917 and Article 5 of Decree No. 461, and further amendments thereof, according to which, proceeds and capital gains, arising from both the exercise and the sale for money consideration of the Securities, are subject to the substitutive tax of 26.0%. Charges and capital losses arising from the exercise and the sale of the Securities are deductible in accordance with the modalities indicated below; premiums paid on the Securities contribute to create the income of the financial year in which the Securities are exercised or alienated.

### ***Capital Gains Tax***

Any capital gains realised by Security Holders that are (a) Italian resident corporations; (b) Italian resident commercial partnerships; (c) permanent establishments in Italy of foreign corporations to which the Securities are effectively connected; or (d) Italian resident individuals carrying out a commercial activity, as to any capital gains realised within the scope of the commercial activity carried out, upon the sale for consideration or redemption of the Securities will be treated for the purpose of IRES and of IRPEF as part of the taxable business income of Security Holders (and, in certain cases, depending on the status of the Security Holders, may also be included in the taxable basis of IRAP), and it will, therefore, be subject to tax in Italy according to the relevant tax provisions.

#### *Italian Resident Security Holders*

Pursuant to Decree No. 461, any capital gains realised by Italian resident individuals holding Securities not in connection with entrepreneurial activity and certain other persons upon the sale for consideration or redemption of the Securities would be subject to a "substitutive tax" at the current rate of 26.0%. Under the tax declaration regime, which is the standard regime for taxation of capital gains realised by Italian resident individuals not engaged in entrepreneurial activity, the "substitutive tax" on capital gains will be chargeable, on a cumulative basis, on all capital gains, net of any incurred capital loss. These individuals must report overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax declaration to be filed with the Italian tax authorities for such year and pay the "substitutive tax" on such gains together with any balance on income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years.

As an alternative to the tax declaration regime, Italian resident individual Security Holders not in connection with entrepreneurial activity may elect to pay the "substitutive tax" separately on capital gains realised on each sale or redemption of the Securities (the *Risparmio Amministrato* regime or "**Managed Portfolio**" regime). Such separate taxation of capital gains is allowed subject to: (i) the Securities being deposited with Italian banks, *società di intermediazione mobiliare* (SIM) or certain authorised financial intermediaries; and (ii) an express election for the Managed Portfolio regime being made promptly in writing by the relevant Security Holder. The financial intermediary, on the basis of the information provided by the taxpayer, accounts for the "substitutive tax" in respect of capital gains realised on each sale or redemption of Securities (as well as in respect of capital gains realised at the revocation of its mandate), net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from proceeds to be credited to the Security Holder. Under the Managed Portfolio regime, where a sale or redemption of Securities results in capital loss, such loss may be deducted from capital gains subsequently realised in the same tax year or in the following tax years up to the fourth year.

Any capital gains realised by Italian resident individuals holding Securities not in connection with entrepreneurial activity who have elected for the Asset Management regime will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to the substitutive tax at the current rate of 26.0% to be applied on behalf of the taxpayer by the managing authorised financial intermediary.

Any capital gains realised by Security Holders who are Italian Resident Undertakings for Collective Investments are not subject to tax. Any capital gains realised by Security Holders who are Italian resident pension funds will be included in the computation of the taxable basis of Pension Fund Tax.

### *Non-Italian Resident Security Holders*

The 26.0% final “substitutive tax” may in certain circumstances be payable on capital gains realised upon sale for consideration or redemption of Securities by non-Italian resident persons or entities without a permanent establishment in Italy to which the Securities are effectively connected, if the Securities are held in Italy. However, even if the Securities are held in Italy and regardless of the provisions set forth by any applicable double taxation treaty, pursuant to Article 23 of Decree No. 917, any capital gains realised, by non-Italian residents without a permanent establishment in Italy to which the Securities are effectively connected, through the sale for consideration or redemption of Securities are exempt from taxation in Italy to the extent that the Securities are listed on a regulated market in Italy or abroad and in certain cases subject to filing of required documentation. In case the Securities are not listed on a regulated market in Italy or abroad (1) as to capital gains realised by non-Italian resident of the Securities with no permanent establishment in Italy to which the Securities are effectively connected are exempt from the substitutive tax in Italy on any capital gains realised upon sale for consideration or redemption of the Securities if (a) they are beneficial owners resident, for tax purposes, in a country which recognizes the Italian tax authorities' right to an adequate exchange of information, the so called "white list" or (b) non-Italian foreign institutional investors established in a "white list" country. (2) In any event, non-Italian resident persons or entities without a permanent establishment in Italy to which the Securities are effectively connected that may qualify for applicability of benefit from a double taxation treaty with Italy, providing that capital gains realised upon the sale or redemption of the Securities are to be taxed only in the country of tax residence of the recipient, will not be subject to the "substitutive tax" in Italy on any capital gains realised upon sale for consideration or redemption of Securities.

### *Atypical securities*

According to the provisions of the Conditions of the Securities, it is possible that Securities may be qualified as 'atypical' securities pursuant to Article 5 of Law Decree No. 512 of 30 September 1983 as implemented by Law No. 649 of 25 November 1983. In this event, payments relating to Securities may be subject to an Italian withholding tax, levied at the rate of 26.0%.

The withholding tax is levied by the Italian intermediary appointed by the Issuer, intervening in the collection of the relevant income or in the negotiation or repurchasing of the Securities.

### *Inheritance and Gift Taxes*

The transfer by inheritance or gift of the Securities is subject to the inheritance and gift tax at the following rates: (i) 4% if the transfer is made to spouses and direct descendants or ancestors; in this case, the transfer to each beneficiary is subject to taxation on the value (if any) exceeding Euro 1,000,000; (ii) 6% if the transfer is made to brothers and sisters; in this case, the transfer to each beneficiary is subject to taxation on the value (if any) exceeding Euro 100,000; (iii) 6% if the transfer is made to relatives up to the fourth degree, to persons related by direct affinity as well as to persons related by collateral affinity up to the third degree; and (iv) 8% in all other cases. If the transfer is made in favour of persons with severe disabilities, taxation will apply only on the value (if any) of the transaction exceeding Euro 1,500,000.

### *Tax Monitoring Obligations*

Italian resident individuals, partnerships (other than *società in nome collettivo*, *società in accomandita semplice* or similar partnerships) not carrying out commercial activities, not commercial trusts, professional associations and public and private entities, other than companies, not carrying out commercial activities will be required to report in their yearly income tax return (*Modello Redditi - Persone Fisiche*, RW section), for tax monitoring purposes, the amount of Securities (and of other investments held abroad and foreign financial assets generating foreign source income taxable in Italy) directly or indirectly held (*i.e.* when the above-mentioned subjects qualify as the beneficial owner of the Securities) over each tax year. This also is the case if at the end of the tax year the Securities (or other investments held abroad and foreign financial assets generating foreign source income taxable in Italy) are no longer held by the above-mentioned subjects. The above subjects will however not be required to comply with the above reporting requirements in respect of Securities deposited for

management or administration with qualified Italian financial intermediaries as defined by Italian law and in respect of contracts entered into through the intervention of financial intermediaries, upon condition that the items of income derived from the Securities are collected through the intervention of and subject to withholding tax or substitute tax levied by the same financial intermediaries.

#### *Stamp duty and Tax on financial activities held abroad*

The extended stamp duty on all kind of financial activities ("**Stamp Duty**") is applicable on all kind of financial assets, including the Securities held with the intervention of Italian financial intermediaries. The tax is levied at 0.2% rate (with a limit up to Euro 14,000 for holders different from individual) on the fair market value or, if failing, on the book or redemption value as at 31 December of each year. Stamp Duty is generally applied by the Italian financial intermediary, if such entity intervene in the administration/management of the Securities. The tax on financial activities held abroad (so called "**IVAFE**") is applicable on the value of financial assets held abroad Italy by Italian tax resident individuals without the intervention of Italian financial intermediaries. The tax is applied at a rate equal to 0.2%, on the fair market value as at 31 December of each year. IVAFE should be applicable in case the financial activities do not fall within the Stamp Duty scope. The tax is calculated, disclosed in the yearly tax return and paid by the individual directly.

#### *Transfer tax*

The Law no. 228 as of December 24, 2012 introduced a stamp duty on certain financial transactions (the "**Tobin Tax**"). In general terms the Tobin Tax applies to transactions, even if executed abroad, involving shares, bonds converted in shares and equity financial instruments issued by both listed and non-listed companies resident in Italy and derivatives substantially underlying such securities. Tobin Tax is applied at a rate of 0.2% on transaction regarding shares and other participating instruments issued by Italian resident companies. The tax rate is reduced down to 0.1% if the transfer is executed on regulated financial markets or through multilateral negotiation systems. Tobin Tax on transactions in derivative financial instruments shall be due in a fixed amount (ranging from Euro 0.01875 to Euro 200 depending on both the typology and the notional value of the instrument) and is payable by both the counterparties to the transaction, regardless of their place of residence and the place where the transactions have been executed.

### **U.S. Withholding Tax**

#### *Payments under index-linked Securities and equity-linked Securities may be subject to U.S. withholding tax*

Section 871(m) of the US Internal Revenue Code ("**IRC**") and the provisions issued thereunder stipulate that for certain financial instruments (such as for the Securities) a withholding tax (of up to 30% depending on the application of income tax treaties) may be imposed if the payment (or deemed payment) on the financial instruments is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States.

Pursuant to these US legal provisions, certain payments (or deemed payments) under certain equity-linked instruments that refer to the performance of US equities or certain indices that contain US equities, as an Underlying, shall be treated as dividend equivalents ("**Dividend Equivalents**") and shall be subject to U.S. withholding tax of 30% (or a lower income tax treaty rate). **This tax liability may apply even if pursuant to the terms and conditions of the Securities no actual dividend-related amount is paid or a dividend-related adjustment is made and thus investors can only determine with difficulty or not at all any connection to the payments to be made in respect of the Securities.**

It is thus possible that these US provisions also apply to the Securities, particularly if an Underlying contains dividends from sources within the United States (e.g. US equities or certain indices that contain US equities). In such case US withholding tax may be due, pursuant to the relevant US provisions, on payments (or deemed payments) made in respect of Securities issued (or whose features have been modified significantly) after 1 January 2017 (however, the implementation rules issued for

the US provisions stipulate that the tax liability will be phased in, not commencing until 1 January 2021 for some securities).

**The Issuer or the custodian of the Security Holder is entitled to deduct from payments made under the Securities any withholding tax accrued in relation to payments made under the Securities.** Furthermore, the Issuer is entitled to take any tax liability pursuant to section 871(m) of the IRC into account in original and continuous pricing of the Securities and to comply with the withholding obligation using provisions that have to be made accordingly. In case of Securities which allow for a deduction of fees, the withholding tax in accordance with section 871(m) of the IRC applied to dividend payments made in relation to the underlying or its components, reduces the reference price and, therefore, the redemption amount paid under the Securities. Investors should note that compliance with tax liability in this manner precludes the issue of tax certificates for tax payments rendered for individual investors and that no potential tax refund pursuant to the relevant US provisions may be claimed either. Moreover, a 30% tax rate is generally applied, also when taking account of the tax liability in continuously adjusting amounts, due to the necessity of using a uniform rate for all investors in all cases mentioned. A double taxation may occur in relation to payments made under the Securities.

If, on the basis of section 871(m) of the IRC, an amount of interest, principal or other payments on the Securities is deducted or withheld, neither the Issuer nor any paying agent, the custodian of the Security Holder or any other person pursuant to the terms and conditions of the Securities would be obliged to pay additional amounts to the Security Holders as a result of the deduction or withholding, in which case the Security Holders would thus potentially receive less interest or principal than expected. In the worst case, any payments to be made in respect of the Securities would be reduced to zero.

***Payments under the Securities may be subject to withholding tax pursuant to the Foreign Account Tax Compliance Act (FATCA)***

Sections 1471-1474 of the United States Internal Revenue Code of 1986, as amended ("**IRC**") (commonly referred to as "**FATCA**"), generally impose a new reporting regime and a 30% withholding tax with respect to certain US-source payments (including dividends and interest) and with respect to gross proceeds from the disposition of property that may produce such US-source interest and dividends, and certain payments made by entities that are classified as financial institutions under FATCA, such as banks, insurance companies and many funds and capital markets issuers. A financial institution which is not exempted from the FATCA regime must either (i) enter into an agreement with the Internal Revenue Service (an "**FFI Agreement**") or (ii) comply with the terms of an applicable intergovernmental agreement ("**IGA**") regarding the implementation of FATCA to avoid the imposition of the 30% withholding tax. Under an FFI Agreement or an applicable IGA, a financial institution will be required to identify, disclose and report information on its direct and indirect US accountholders (including certain non-US accountholders with US ownership).

On 31 May 2013, the Federal Republic of Germany entered into an IGA with the United States. Under this IGA, as currently drafted, a financial institution that is treated as resident in Germany and that complies with the requirements of the respective IGA will not be subject to FATCA withholding on payments it receives and will not be required to withhold on payments of non-U.S. source income. As a result, the Issuer does not expect payments made on or with respect to the Securities to be subject to withholding under FATCA.

No assurance can be given that withholding under FATCA will not become relevant with respect to payments made on or with respect to the Securities in the future. You should consult with your US tax advisor for further information regarding the potential impact of FATCA.

**GENERAL INFORMATION***Selling Restrictions**General*

No action has been or will be taken in any jurisdiction by the Issuer that would permit a public offering of the Securities, or possession or distribution of any offering material in relation thereto, in any country or jurisdiction where action for that purpose is required other than the approval of the Base Prospectus by the BaFin and a notification to the countries set forth in the Final Terms under "Terms and conditions of the offer". No offers, sales or deliveries of any Securities, or distribution of any offering material relating to the Securities, may be made in or from any jurisdiction except in circumstances which will result in compliance with any applicable laws and regulations and will not impose any obligation on the Issuer other than the approval and notification(s) mentioned above.

*European Economic Area*

In relation to each member state of the European Economic Area (each a "**Member State**"), the Securities may not be offered to the public in that relevant Member State (the "**Relevant Member State**"), except that an offer of the Securities to the public may be made in that Relevant Member State:

- (a) if the Final Terms in relation to the Securities specify that an offer of those Securities may be made in the Relevant Member State in accordance with the EU Prospectus Legislation (as defined below) and the conditions of the offer applicable to the offer of the Securities set out in the Base Prospectus or in the relevant Final Terms, as the case may be, in the period beginning and ending on the dates specified in such Final Terms, provided that the Issuer has consented in writing to the use of the Base Prospectus for the purpose of such offer;
- (b) at any time if it is addressed solely to qualified investors as defined in the EU Prospectus Legislation (the "**Qualified Investors**");
- (c) at any time if it is addressed to fewer than 150 natural or legal persons (other than Qualified Investors) per Member State, subject to obtaining the prior consent of the Issuer or the relevant person or entity placing or offering the Securities nominated by the Issuer for any such offer; and/or
- (d) at any time in any other circumstances falling within a Prospectus Exemption (as defined below),

provided that no such offer of Securities referred to in (b) to (d) above shall require the Issuer to publish a prospectus pursuant to Article 3 of the EU Prospectus Legislation or supplement the Base Prospectus at least one banking day prior to the respective offer.

For the purposes of this provision, the expression an "offer of Securities to the public" in relation to any Securities in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe the Securities.

The expression "**EU Prospectus Legislation**" means the Directive 2003/71/EC (and any amendments thereto, including the Directive 2010/73/EU) (the "**Prospectus Directive**"), and includes any relevant implementing measure in the Relevant Member State.

On 20 July 2017 the Regulation (EU) 2017/1129 (the "**Prospectus Regulation**") has entered into force and shall in its major parts apply as from 21 July 2019 (the "**Effective Date**"). Therefore, as from the Effective Date, any reference in this paragraph to the Prospectus Directive shall be read as a reference to the Prospectus Regulation, as applicable from time to time.

The expression "**Prospectus Exemptions**" means Article 3 (2) (a) to (d) of the Prospectus Directive or Article 1 (4) of the Prospectus Regulation, as applicable, and includes any additional exemptions and implementation measures applicable in the Relevant Member State.

***Selling Restrictions addressing additional Italian Securities Laws***

Unless it is specified within the relevant Final Terms that a Non-Exempt Offer may be made in Italy, the offering of the Securities has not been registered pursuant to Italian securities legislation.

Accordingly, the Securities may not be offered, sold or delivered, nor may copies of this Base Prospectus and any other documents relating to the Securities may be distributed in the Republic of Italy except:

- (1) to qualified investors (*investitori qualificati*), as defined by the joint provision of Article 34-ter, paragraph 1, letter (b) of CONSOB Regulation No. 11971 of May 14, 1999, as amended ("**CONSOB Regulation No. 11971**") and Article 26, paragraph 1 (d), of Consob Regulation No. 16190 of October 29, 2007, as amended ("**CONSOB Intermediaries Regulation**"), implementing Article 100, paragraph 1, letter (a), of Legislative Decree No. 58 of February 24, 1998, as amended (the "**Financial Services Act**"); or
- (2) in any other circumstances which are exempted from the rules on public offerings pursuant to Article 100 of the Financial Services Act and Article 34-ter of CONSOB Regulation No. 11971.

Any such offer, sale or delivery of the Securities or distribution of any other document relating to the Securities in the Republic of Italy must be:

- (a) made by investment firms, banks or financial intermediaries permitted to conduct such activities in the Republic of Italy in accordance with the Financial Services Act, the Legislative Decree No. 385 of September 1, 1993 as amended (the "**Banking Act**"), the CONSOB Intermediaries Regulation and any other applicable laws and regulations; and
- (b) in compliance with any other applicable notification requirement or limitation which may be imposed by CONSOB or the Bank of Italy (including, without limitation, Article 129 of the Banking Act, and relevant implementation guidelines, pursuant to which the Bank of Italy may request periodic information on the Securities offered in the Republic of Italy).

***Provisions relating to the secondary market in the Republic of Italy***

Investors should also note that pursuant to Article 100-bis of the Financial Services Act:

- (A) any subsequent distribution of the Securities in the Republic of Italy further to an offer or distribution made under the exemptions indicated in points (1) and (2) above, will be considered a different and autonomous public offering subject to public offer and prospectus requirements if the conditions provided for in Article 1, paragraph 1, letter t, of the Financial Services Act occur and such subsequent distribution does not fall, again, under one of the exemptions indicated in points (1) and (2) above; and
- (B) in particular, where the Securities are placed solely with qualified investors (as defined above) but are then systematically resold on the secondary market at any time in the twelve months following such placing to individual persons or entities which do not fall under the definition of qualified investors and such placement is not subject to any of the exemptions indicated in points (1) and (2) above, such resale will be considered a public offering and subject to public offer and prospectus requirements. In such case, if a prospectus is not published, purchasers of Securities who are acting outside the course of their business or profession may in certain circumstances be entitled to declare such purchase null and void and, in addition, to claim damages from any authorised intermediary at which the Securities were purchased; it being understood that, in addition, certain administrative fines may also apply.

***Selling Restrictions addressing additional French Securities Laws****Offer to the public in France*

An offer of Securities to the public in France shall only be made in the period beginning: (a) when a prospectus in relation to those Securities has been approved by the Autorité des marchés financiers ("AMF"), on the date of publication of the AMF's approval; or (b) when a prospectus has been approved by the competent authority of another Member State of the European Economic Area which has implemented the EU Prospectus Directive 2003/71/EC, on the date of notification of such approval to the AMF; and ending in each case at the latest on the date which is 12 months after the date of approval of such prospectus, all in accordance with articles L. 412-1 and L. 621-8 seq. of the French *Code monétaire et financier*, with the French *Code de commerce* and with the *Règlement général* of the AMF.

*Private placement in France*

This Base Prospectus, the Final Terms and/or any other offering material relating to the Securities have not been prepared and are not being distributed in the context of a public offering of financial securities in France within the meaning of Article L. 411-1 of the French *Code Monétaire et Financier* and Title I of Book II of the *Règlement General* of the AMF and, therefore, the Base Prospectus, the Final Terms and/or any other offering material relating to the Securities and any other offering material relating to the Securities have not been and will not be filed with the AMF for prior approval or submitted for clearance to the AMF.

Consequently, the Securities may not be, directly or indirectly, offered or sold to the public in France and offers and sales, directly or indirectly, of the Securities shall only be made in France, if any, to (i) providers of the investment service of portfolio management for the account of third parties (*personnes fournissant le service d'investissement de gestion de portefeuille pour le compte de tiers*), and/or to (ii) qualified investors (*investisseurs qualifiés*) acting for their own account, all as defined in and in accordance with Articles L. 411-2 and D. 411-1, D. 411-2, D. 744-1, D. 754-1 and D. 764-1 of the French *Code Monétaire et Financier*.

Neither this Base Prospectus, the Final Terms nor any information contained therein or any other offering material may be, or caused to be, released, issued or distributed to the public in France or used in connection with any offer for subscription or sale of the Securities to the public in France. The subsequent direct or indirect retransfer of the Securities to the public in France may only be made in compliance with Articles L. 411-1, L. 411-2, L. 412-1 and L. 621-8 through L. 621-8-3 of the French *Code Monétaire et Financier*.

In addition, the Securities, the Base Prospectus, the Final Terms and any other offering material relating to the Securities, have not been and will not be distributed or caused to be distributed in France, other than to investors to whom offers and sales of Securities in France may be made as described above.

*Representations and warranties from the Distributors and the Issuer*

In relation to any Securities, each of the Distributors and the Issuer has represented and agreed that, and each further Distributor appointed under the Programme will be required to represent and agree that it will comply with the French Selling Restrictions stated above regarding (i) any offer to the public in France or (ii) any private placement in France.

***Selling Restrictions addressing additional Czech Securities Laws***

No issue, offer, sale or delivery of any Securities has been made and may be made in the Czech Republic through a public offering, being subject to several exemptions set out in the Act of the Czech Republic No. 256/2004 Coll., on Conducting Business in the Capital Market, as amended (the "**Capital Market Act**"), which under the Capital Market Act comprises any communication to a broader circle of persons containing information on the Securities being offered and the terms under which such persons may acquire the Securities and which are sufficient for the investor to make a decision to subscribe for, or purchase, such Securities.

No action has been taken or will be taken which may lead to or result in (i) the Securities being deemed to have been issued under Czech law within the meaning of the Act of the Czech Republic No. 190/2004 Coll., on Bonds, as amended (the "**Bonds Act**"), (ii) the issue of the Securities being qualified as "accepting of deposits from the public" by the Issuer in the Czech Republic within the meaning of the Act of the Czech Republic No. 21/1992 Coll., on Banks, as amended (the "**Banks Act**"), (iii) the Issuer being considered to be supporting, publicizing or making otherwise available activities prohibited by the Act of the Czech Republic No. 240/2013 Coll., on Management Companies and Investment Funds, as amended (the "**MCIFA**"), or (iv) requiring a permit, registration, filing or notification to the Czech National Bank or other authorities in the Czech Republic in respect of the Securities in accordance with the Capital Market Act, the Banks Act, the MCIFA, the FX Act or practice of the Czech National Bank or other competent authority.

All of the laws of the Czech Republic applicable to the conduct of business in the Czech Republic, including the laws applicable to the provision of investment services (within the meaning of the Capital Market Act) in the Czech Republic, in respect of the Securities have been complied with.

No action has been taken or will be taken which would result in the issue of the Securities being considered an intention to manage assets by acquiring funds from the public in the Czech Republic for the purposes of collective investment pursuant to defined investment policy in favour of the investors under the MCIFA. Any issue, offer, sale or delivery of the Securities has been or will be carried out in strict compliance with the MCIFA.

#### *United States of America*

- (a) The Securities have not been and will not be registered under the Securities Act of 1933, as amended ("**Securities Act**"), and, except as provided in the applicable Final Terms with respect to Securities with a maturity on the issue date of one year or less, may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in accordance with Regulation S under the Securities Act or pursuant to another exemption from, or in a transaction otherwise not subject to, the registration requirements of the Securities Act.
- (b) Any person when purchasing the Securities agrees with the Issuer and, if different, the seller of such Securities that (i) it will not at any time offer, sell, resell or deliver, directly or indirectly, any Securities so purchased in the United States or to, or for the account or benefit of, any U.S. person, (ii) it is not purchasing any Securities for the account or benefit of any U.S. person and (iii) it will not make offers, sales, re-sales or deliveries of any Securities (otherwise acquired), directly or indirectly, in the United States or to, or for the account or benefit of, any U.S. person.

#### *Authorisation*

The establishment of the Programme and the issue of Securities under the Programme were duly authorised by the Group Asset/Liability Committee (ALCO), a subcommittee of the Management Board of HVB, on 17 April 2001. The full EUR 50,000,000,000 authorisation amount of this Programme may also be applied by other base prospectuses of HVB, however, the aggregate utilised amount of this Programme together with any other base prospectuses of HVB under this Programme will not exceed EUR 50,000,000,000.

#### *Availability of Documents*

Luxembourg Listing Agent under the Programme is BNP Paribas Securities Services, Luxembourg Branch, 60, avenue J.F. Kennedy, L-1855 Luxembourg.

The Issuer may decide to appoint another Principal Paying Agent and/or Calculation Agent for the Securities issued under the Base Prospectus. The relevant details of such alternative Principal Paying Agent and/or Calculation Agent will be specified in the Final Terms.

### ***Significant Changes in HVB's Financial Position and Trend Information***

The performance of HVB Group will depend on the future development on the financial markets and the real economy in 2019 as well as other remaining imponderables. In this environment, HVB Group will continuously adapt its business strategy to reflect changes in market conditions and carefully review the management signals derived from this on a regular basis.

There has been (i) no significant change in the financial position of the HVB Group which has occurred since 30 June 2018, and (ii) no material adverse change in the prospects of the HVB Group since 31 December 2017, the date of its last published audited financial statements.

***Interest of Natural and Legal Persons involved in the Issue/Offer***

Any of the Distributors and their affiliates may be customers of, and borrowers from the Issuer and its affiliates. In addition, any of such Distributors and their affiliates may have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for the Issuer and its affiliates in the ordinary course of business. Therefore, the Distributors and their affiliates may have a particular interest in the Issuer's economic success and the continuance of their business relationship with the Issuer.

With regard to trading of the Securities the Issuer has a conflict of interest being also the Market Maker on a *regulated or other equivalent market(s), if indicated in the Final Terms*; moreover a *relevant regulated or other equivalent market(s)*, is organized and managed by a company in which UniCredit S.p.A. – the Holding Company of UniCredit Bank AG as the Issuer – has a stake in. If applicable, such market will be indicated in the Final Terms. The Issuer is also the arranger of the Securities, if so specified in the Final Terms. The Issuer or any of their affiliates may also act as a Calculation Agent or Paying Agent, if so specified in the Final Terms.

Besides, conflicts of interest in relation to the Issuer or the persons entrusted with the offer may arise for the following reasons which may result in a decision to the Security Holder's disadvantage:

- The Issuer specifies the Issue Price.
- The Issuer and one of its affiliates act as Market Maker of the Securities (however, no such obligation exists).
- Distributors may receive inducements from the Issuer.
- The Issuer, any Distributor and any of their affiliates act as Calculation Agent or Paying Agent in relation to the Securities.
- From time to time, the Issuer, any Distributor and any of its affiliates may be involved in transactions on their own account or on the account of their clients, which affect the liquidity or the price of the Underlying or its components.
- The Issuer, any Distributor and its affiliates may issue securities in relation to the Underlying or its components on which already other securities have been issued.
- The Issuer, any Distributor and any of its affiliates may possess or obtain material information about the Underlying or its components (including publicly not accessible information) in connection with its business activities or otherwise.
- The Issuer, any Distributor and any of their affiliates may engage in business activities with the issuer of the Underlying or its components, its affiliates, competitors or guarantors.
- The Issuer, any Distributor and any of their affiliates may also act as a member of a syndicate of banks, as financial advisor or as bank of a sponsor or issuer of the Underlying or its components.
- The Issuer or one of its affiliates may act as index sponsor, index calculation agent, index advisor or index committee.
- The Underlying may be issued by UniCredit S.p.A. (a company of UniCredit Group) or another company belonging to the UniCredit Group, to which also the Issuer of the Securities belongs.

***Third Party Information***

Where information has been sourced from a third party, the Issuer confirms that to the best of its knowledge this information has been accurately reproduced and that so far as the Issuer is aware and able to ascertain from information published by such third party no facts have been omitted which would render the reproduced information inaccurate or misleading.

To the extent additional information is included in the Final Terms (for example, with regard to information about the Underlying), the respective source for the corresponding information is stated at the relevant place.

Reference may also be made to websites for information about the Underlying and the respective Final Terms. These websites can be used as a source of information for the description of the Underlying.

The Issuer assumes no warranty for the accuracy of the content and the completeness of the data shown on the websites.

***Use of Proceeds and Reasons for the Offer***

The net proceeds from each issue of Securities by the Issuer will be used for its general corporate purposes, i.e. making profit and/or hedging certain risks.
